

# AEROSPACE

Calibration • Verification • Repair

## Accredited Calibration services keeping the aviation industry airborne

At Pullman we specialise in the service and calibration of test equipment used within the Aerospace industry, building on a reputation we have forged with the aviation industry over the past 15 years.

Our aerospace profile is second-to-none. We have built long standing relationships working closely with passenger carriers and maintenance companies to ensure the UK's flight network is kept airborne through maintaining an effective, efficient service on the ground.

Working with Pullman you will benefit from accredited equipment calibration and certification, reduced downtime, minimised turnaround and competitive pricing. This will keep the workforce moving via a calibration service that you can rely on.

- Instrument Calibration to the Aviation industry
- Repair of Measurement Instruments
- Accredited Quality Management Systems

## PullmanInstruments

Specialists in Calibration & Measurement

# Pullman in depth

## Why Pullman?

With 40 years of experience offering a combination of industry expertise and a proven track record of listening to the needs of both customers and their brand partners.

Established as one of the UK's market leaders in the calibration and measurement industry, Pullman provide both in-house and on-site calibration services with dedicated professionals providing quick solutions to a wide range of industry sector test equipment requirements.

## Quality Assurance

Pullman's success and reputation can be measured by the high standard of service we provide to our customers. Our Quality Management System meets with statutory and regulatory requirements. Accredited by UKAS to ISO/IEC 17025 and registered to ISO 9001 by NQA. Pullman Instruments achieve customer satisfaction through continued improvement.

## Calibration Service

Our greatest core strength is the calibration service we offer. Precision to us matters and attention to detail is critical.

Pullman's highly skilled professional laboratories are located nationwide, ensuring a quick response to any calibration requirement.

Utilising the depth of experience we have we also provide the option of a

dedicated on site calibration team. This team are able to replicate many of our in-house disciplines at our customers' sites.

## Repair

An approved repair centre for leading manufacturers, all instruments repaired in line with published procedures where available and using only approved parts when required. This ensures manufacturers' high standards are met.

### Key services we offer to our customers include:

- Free collection and delivery service
- 5 working day calibration service
- Additional fast turnaround services available on request
- While you wait drop in service
- On-site traceable and UKAS calibration (See UKAS.org for full scope)
- Embedded on-site services
- No charge for adjustment on units, and production of after adjustment certificate
- Calibration failure reports
- Managed calibration reminder service
- Full asset history of instrument for its whole working life
- On-line web-based customer portal

### Aerospace Specific Calibration, verification, repair of:

- Torque
- Cable testers
- Oscilloscopes

- 17th edition testers
- Thermometers
- Process calibrators
- Manometers
- High Meg-ohmmeters
- Resistance Boxes
- Storage Scopes
- Multimeters
- Ohmmeters
- DTI Gauges
- Balances
- Fault simulators
- Tachometers
- Thermocouples
- Pressure meters

### Other Instruments Pullman calibrate include:

- Insulation Testers (up to 5000V)
- Multimeters (Analogue & Digital)
- Bench Multimeters (up to 6½)
- RCD Testers
- Loop Testers
- Digital Thermometers
- Infrared Thermometers
- Thermal Imagers
- Clamp meters/multimeters
- Function Generators
- Micrometers, External & Internal
- Vernier Calipers
- Depth Micrometers
- Dial Gauges mechanical & Digital
