

MANUFACTURING

Calibration • Verification • Repair

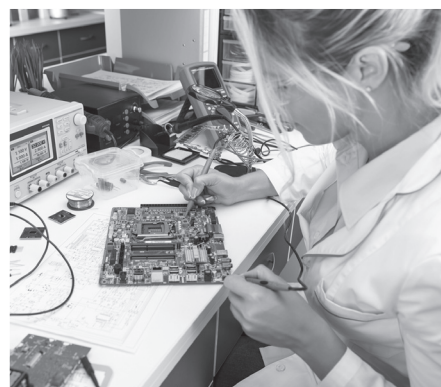

Accredited Calibration services for all sectors of the Manufacturing Industry

At Pullman we specialise in the service and calibration of test equipment used by manufacturing companies, building on a reputation we have forged over the past 40 years.

Our Manufacturing sector profile is second-to-none. We have built longstanding relationships within the Food, Electronics, Medicines/ Pharmaceuticals, Engineering, Petro Chemical, OEM's, Transportation, Industrial Equipment and the Paper Industry. Our engineers are trained and qualified to work both on and off site, to test measuring equipment accurately and to certify to UKAS/ISO traceable levels.

Working with Pullman you will benefit from accredited equipment calibration and certification, reduced downtime, minimised turnaround and competitive pricing, keeping the workforce on moving via a calibration service that you can rely on.

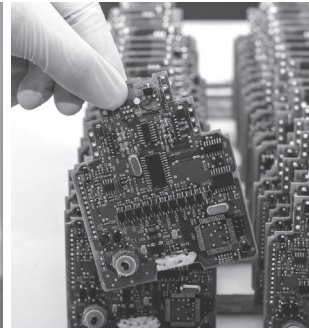

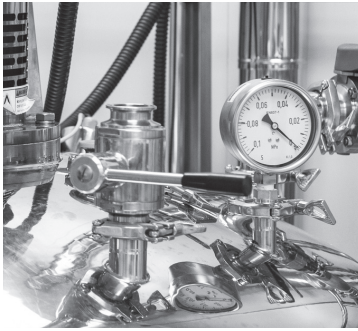

- Instrument Calibration to the Manufacturing industry
- Repair of Measurement Instruments
- Accredited Quality Management Systems

Pullman Instruments

Specialists in Calibration & Measurement

Pullman in depth

Why Pullman?

With 40 years of experience offering a combination of industry expertise and a proven track record of listening to the needs of both customers and their brand partners.

Established as one of the UK's market leaders in the calibration and measurement industry, Pullman provide both in-house and on-site calibration services with dedicated professionals providing quick solutions to a wide range of industry sector test equipment requirements.

Quality Assurance

Pullman's success and reputation can be measured by the high standard of service we provide to our customers. Our Quality Management System meets with statutory and regulatory requirements. Accredited by UKAS to ISO/IEC 17025 and registered to ISO 9001 by NQA. Pullman Instruments achieve customer satisfaction through continued improvement.

Calibration Service

Our greatest core strength is the calibration service we offer. Precision to us matters and attention to detail is critical.

Pullman's highly skilled professional laboratories are located nationwide, ensuring a quick response to any calibration requirement.

Utilising the depth of experience, we have also provided the option of a

dedicated on-site calibration team. This team are able to replicate many of our in-house disciplines at our customers' sites.

Repair

An approved repair centre for leading manufacturers, all instruments repaired in line with published procedures where available and using only approved parts when required. Ensuring manufacturers' high standards are met.

Key services we offer to our customers include:

- Torque Setting/Measurement
- Contact/Non-Contact Temperature Meters/Sources
- Electrical Safety Inspection Equipment
- Light/Sound Measurement
- Humidity/Dew Point Detection
- Data Loggers (All types)
- Speed/Rotation detection
- Airflow/Air Balancing equipment
- Pressure Measurement/Generation
- Vibration monitoring/detection
- Thermal Imagers
- Leak Detectors (All Types)
- Filter Testing Equipment (All types)
- Vacuum/Heat Seal Equipment
- Personal gas Detection
- High Voltage Maintenance/Inspection Equipment
- LV/HV Switching
- Environmental Monitoring Equipment

- Product inspection/testing equipment
- Water Quality testing
- Product Contaminant Free Integrity
- Power Supplies/Load Monitoring equipment
- Process Line Indicators & Controllers (All types)
- RF Level/Flatness/Loss inspection/Testing
- Load/Tension/Compression Test equipment
- Crimp Force/Integrity Testing
- Extraction Systems Test Equipment
- Wind Speed Detection/Direction
- Motor/Transformer Inspection and Test

Other Instruments Pullman calibrate include:

- Insulation Testers (up to 5000V)
- Multimeters (Analogue & Digital)
- Time/Frequency
- Ins/Loop/RCD Testers
- Multi-Function Testers
- Thermometers (all types)
- Power Meters/Analysers
- Thermal Imagers
- Clamp meters
- Function Generators
- Micrometres, External & Internal
- Vernier Calipers
- Depth Micrometres
- Plus 1000's more
