

GAS, WATER & ELECTRICITY UTILITIES

Calibration • Verification • Repair

ISO and Accredited Calibration services for the Utilities sectors

At Pullman we specialise in the service and calibration of test equipment used within the Gas, Water, Electricity, Nuclear and Renewables sectors. Building on a reputation we have forged over the past 40 years.

Our Utility sector profile is second-to-none. We have built long standing relationships with the major Utility suppliers, that are required to maintain the relevant networks to the consumer. Our engineers are trained and qualified to work both on and off site, to test measuring equipment accurately and to certify to UKAS/ISO traceable levels.

Working with Pullman you will benefit from accredited equipment calibration and certification, reduced downtime, minimised turnaround and competitive pricing, keeping the workforce on moving via a calibration service that you can rely on.

- Instrument Calibration to the Utilities sector
- Repair of Measurement Instruments
- Accredited Quality Management Systems

PullmanInstruments

Specialists in Calibration & Measurement

Pullman in depth

Why Pullman?

With 40 years of experience offering a combination of industry expertise and a proven track record of listening to the needs of both customers and their brand partners.

Established as one of the UK's market leaders in the calibration and measurement industry, Pullman provide both in-house and on-site calibration services with dedicated professionals providing quick solutions to a wide range of industry sector test equipment requirements.

Quality Assurance

Pullman's success and reputation can be measured by the high standard of service we provide to our customers. Our Quality Management System meets with statutory and regulatory requirements. Accredited by UKAS to ISO/IEC 17025 and registered to ISO 9001 by NQA. Pullman Instruments achieve customer satisfaction through continued improvement.

Calibration Service

Our greatest core strength is the calibration service we offer. Precision to us matters and attention to detail is critical.

Pullman's highly skilled professional laboratories are located nationwide, ensuring a quick response to any calibration requirement.

Utilising the depth of experience we have we also provides the option of a dedicated on site calibration team. This team are able replicate many of our in house disciplines at our customers sites.

Repair

An approved repair centre for leading manufacturers, all instruments repaired in line with published procedures where available and using only approved parts when required. Ensuring manufacturers high standards are met.

Utilities Specific Calibration, verification and repair of:

- Pressure Meters
- Chlorine/PH/TDS meters
- DMM's/Clamps
- Loops/RCD/Insulation Meters to 30Kv
- Loop Calibrators
- Energy Loggers
- Cable Identifiers/Detectors
- Live Line detectors/Proving Units
- AC Flash/DC Pressure Test Sets
- Primary/Secondary Inject. Sets
- Relay test Sets
- Decade Boxes
- Static Field Meters
- Temp/RH Meters
- Pressure Calibrators
- Energy Loggers
- Function Generators

/Frequency Meters

- Oil Test Sets
- Ductors
- Phase detection/Comparison
- Flow Meters
- Tachometers
- Multi-Function Simulators
- Dead Weight Testers
- Pulse Meters
- Temperature Sources/Meters
- VLF Test sets
- Thermal Imagers
- Vibration Meters

Other Instruments Pullman calibrate include:

- Sound Level Meters/Calibrators
- Light Meters
- Power Supplies
- Cable Height meters
- Primary Insulator/Fibre Glass poles
- Hot Stick Testers
- TDR Meters
- Resistance Bridges
- Earth Testers
- Gauntlets
- Power Analysers
- Crimp Tools (all types)
- Surge Generators
- Multi-Function Testers
