Covid-19 associated deaths by place of death,
South Gloucestershire

Care Homes

- Occupancy levels
- Maintaining the Capacity Tracker
- New ICF Qs on the Tracker –
 - Limiting the use of public transport by members of staff
 - Staff choosing to stay separately from their families
 - Residents receiving visitors
 - Regular weekly testing of staff for COVID-19
- Visiting Policy
- Designated settings
- Surge capacity

HomeCare

- Despite Covid-19, homecare waiting lists in South Glos were marginally below the same month in 2019 until the end of August.
- Waiting list traditionally peak in early January and late August.
- This year the waiting has remained at its late August level through September and October.
- HomeCare capacity is South Gloucestershire's highest risk and winter is fast approaching.

Infection Control Fund

- First round allocated
- Government returns made
- Ongoing liaison with care homes on their use of 75%
- We have sought to be as flexible as possible within the national rules.
- Second round – we have allocated out the 80%.
- Remaining 20% - use being confirmed.

Digital

- Connecting care
- Digital Infrastructure Support for Care Homes
- NHS-X iPads

General

- EU Settlement scheme - Reminder
