PERCo and its products

PERCo is a leading Russian manufacturer of security systems and equipment with a 30-year experience. Installations in 88 countries worldwide prove the high quality of PERCo products. Warehouses both in Russia and EU (the Netherlands and Estonia) allow to deliver goods within the short time frames.

Main product lines:

- Turnstiles, gates and railing systems
- Electromechanical locks
- IP-based entrance control systems
- Access control systems

PERCo manufactures a wide range of turnstiles, gates and railings to meet various requirements to design, functionality, size and level of security.

Turnstiles, gates and railing systems provide effective means for pedestrian flow control at entrances of production facilities, administrative buildings, company offices, schools, university campuses, stadiums, leisure and fitness facilities, amusement parks and zoos, shopping outlets.

Each day 20 000 000 people pass through PERCo turnstiles and IP-Stiles.

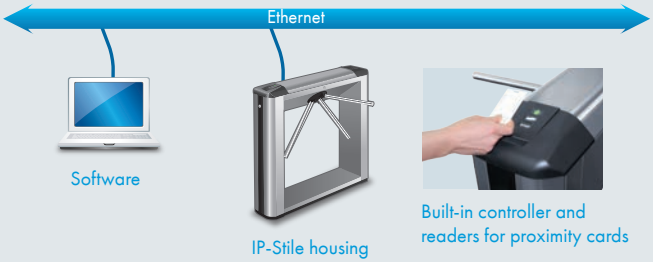
LOVE SESSIONS CHAPTER 4

PERCo IP-Stiles

PERCo IP-Stiles are designed as a turnkey solution to organize access control at enterprises and institutions.

Controller and two card readers are built-in in a turnstile housing and there are also models with a built-in card-capture reader. It simplifies installation and improves the outer appearance of the IP-stile.



IP-Stiles have an opportunity for direct connection to computer network of the enterprise.

Software:

IP-Stile can operate both as a standalone system and as a part of multifunctional PERCo-Web system.

Free software is included into delivery set.
