

1-2-10 WARRANTY OVERVIEW

StrucSure Home Warranty provides third-party, insurance-backed home warranties to builders and homebuyers across the United States. Our risk management products not only protect a builder's bottom line, they add to it by building buyer confidence and giving their buyers peace-of-mind about their investment.

1, 2, & 10-YEAR WARRANTY

This multi-part warranty program includes the following components:

- The **one-year warranty** is a builder surety and backs the builder's warranty on **workmanship and materials**. Covered components of a home that do not meet established Performance Standards during the first year will be repaired, replaced, or paid for under our warranty in the event the builder is unwilling or unable to do so.
- The **two-year warranty** is a builder surety and backs the builder's warranty on **defects in the wiring, piping and ductwork in the electrical, plumbing, heating, cooling, ventilating and mechanical systems**. Covered components of a home that do not meet the established Performance Standards during the first two years will be repaired, replaced, or paid for under our warranty in the event the builder is unwilling or unable to do so.
- The **10-year structural warranty** is a direct warranty that begins on the day of closing and lasts for 10 years. As a direct warranty, StrucSure Home Warranty is the responsible party for **major structural defects**. If a major structural defect occurs within the first 10 years, it will be repaired, replaced, or paid for under our warranty.
