Testimonials

These guys are fast, careful, and extremely respectful.

I had a job that was taking forever and these guys came in to the rescue and started work immediately. They were coordinated and I didn't even have to do a thing once they were on the job.

I recommend these guys without any hesitation to anyone who has any remediation needs.

Restoration 1 of West Denver did n exceptional job with my water and mold remediation.

Micah was professional throughout this whole ordeal. He and his crew were very professional and dependable. Very high integrity.

Every step was explained to me and he never loss any patience with me. I felt he went over and beyond my expectations.

Incredibly responsive and quickly came out to work on my water restoration.

The team was incredibly nice and I would absolutely recommend them to anyone dealing with water damage. Great customer service

Brighton Attic

Homeowner was selling house. Inspection found mold in the attic. Our solution:

- Vacuumed all of the old insulation
- Treated the entire attic
- Painted the entire attic with a mold resistant paint
- Sprayed back all new insulation

Micah and his team were exceptional. We were in the process of selling a relatives home and had a contract on the house when mold in the basement was discovered.

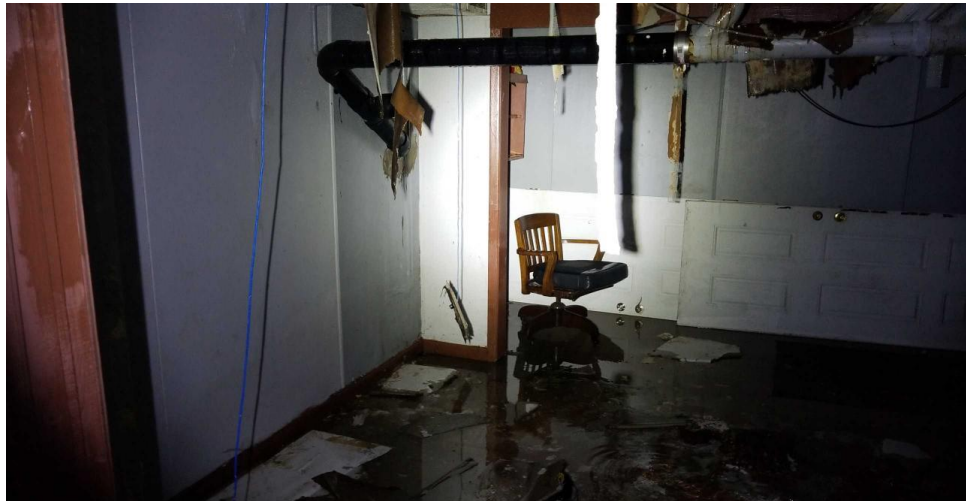

Micah was at the house the night we contacted him to do an estimate. His quote was far below the other quotes we received for the same amount of work. Upon getting the quote, we decided on him and he was able to start the next day. He was able to complete all the work in a week compared to the two weeks the other companies quoted.

The basement was tested at the end and Micah did an excellent job removing the issue. Micah communicated daily with updates and we were always in the loop. I would recommend Micah and his team for any restoration project.

Denver Warehouse

Tenants had moved location to Floyd Hill and found bathroom leak that had been running for about 4 weeks, resulting in mold growth on all of the walls. Our solution:

- Extracted water and placed equipment
- Took a total of 10 days to dry out

Moore St. Condo

Rental property was empty and maintenance technician accidentally started a fire in it. Our solution:

- Took four days to demo and clean the condo and get it ready for re-build

Grape Way

Homeowner's swamp cooler line froze and cracked. Homeowner waited about a week before calling anyone and mold had started to form on ceiling. Our solution:

- Demo'd attic and east-facing wall
- Dried out attic and wall
- Replaced drywall, sprayed in new insulation and painted

Dogwood Ave.

Homeowner hoarded in his crawlspace and a local HVAC company came to replace his system. They refused to replace the system until the crawlspace was cleaned out. Our solution:

- Spent a Saturday cleaning the crawlspace so that the HVAC company could complete the install on Monday

Denver Apartment Hoarding

Tenant passed away in an apartment that had not been refurnished, re-carpeted or new appliances installed since the early 80s. According to a local Wolf, "It is the worst case of bed bugs I have ever seen!" Our solution:

- Six hundred square foot apartment filled up a 30 cubic yard dumpster
