Design Guidelines

This product is designed for use in vertical surface applications only. Stylelite is not designed for structural applications. Heat assisted forming/ bending of the sheet must be performed in accordance with the StyleLite Install and Specifications Guide.

Guaranteed Quality

StyleLite Panels are created by laminating StyleLite Acrylic Sheet front and back to a variety of substrates using our premier polyurethane (PUR) hot melt bonding system. This system produces a ripple-free finish that is highly resistant to heat, moisture and environmental change over time.

EGR Decor production facilities are recognised for achieving ISO9001 Quality Management certification for their consistent performance and quality systems.

The Environment

No Volatile Organic Compounds (VOCs) are produced in the manufacturing process. StyleLite panels are an inert material, and don't release any emissions to the environment during manufacture or use.

None of the colour pigments used in StyleLite contain heavy metals, such as lead or cadmium. StyleLite is also highly recyclable – making it the best choice for modern, eco-friendly interiors.

Edge Finishing

All StyleLite compatible Edge Band is of premium quality and offer high resistance to heat, abrasion, impact and colour fade.

StyleLite Edge Band is available in two options – Pre-primed and Fusion. For full details, refer to the **Installation and Specifications Guide**, available on www.stylelite.net, or talk to your local distributor.

Care & Maintenance

StyleLite products can be cleaned simply using wet microfiber cloth or chamois with non-abrasive soap.

TruGloss's ultra high gloss finish provides a mirror like appearance which can be refinished using a good quality liquid polish. (Pencil Hardness 4H)

TruMatte's smooth, untextured finish provides increase scratch resistance over the gloss surfaces and is highly fingerprint resistant. (Pencil Hardness 6-7H)

StyleLite Standard Panels

Regular StyleLite panels, suitable for a range of general purpose applications. Uses premium quality moisture-resistant MDF, rated to formaldehyde emissions standard E0 or

TSCA TITLE VI. Perfect for kitchen and vanity doors and panels, furniture, hinged wardrobe doors, and general cabinetry. Double sided and single sided (with colour matched backer) options available in both TruGloss and TruMatte.

StyleLite Lightweight Plywood Panels

Lightweight panels, perfect for when weight is a consideration. Uses high quality lightweight plywood. Great for interior fitout for caravans and RVs – from furniture and kitchen cabinetry, to vanity doors and panels. Available in both TruGloss and TruMatte.

StyleLite Sheet

StyleLite Sheet is manufactured from high quality acrylic-capped ABS, and features reverse-side treatment for superior bonding performance. StyleLite Sheet is provided ready for manual or machine lamination onto a variety of substrates.

Product	Substrate	Sheet Size (nom)	Region	Weight	Finish
Standard Panels*	MR MDF E0	2440 × 1220 × 18mm	Global	13.5kg/m ²	TruGloss and TruMatte
