

## Technology designed to work together.

The SunPower Equinox™ system is the only complete home solar system that is designed and built by one company. From highest efficiency panels<sup>1</sup> to Smart Energy software, every component is engineered to work together perfectly from sun to switch.

## More lifetime energy without compromise.

We believe that with an integrated design process, less is more. Which is why we created SunPower Equinox to produce 70% more lifetime energy<sup>2</sup> with 70% fewer visible parts,3 for the most power without compromising curb appeal.

## Best in class warranty, all from one company.

Only SunPower can offer a complete home solar system that comes with the peace of mind of one comprehensive warranty. With SunPower Equinox, we stand behind every part of your home solar experience.

<sup>1</sup> Highest of over 3,200 silicon solar panels, Photon Module Survey, Feb 2014.
2 SunPower 345W compared to a Conventional Panel (250W, 15.3% efficient, approx. 1.6 m2), 9% more energy per watt, 0.75%/yr slower degradation. BEW/DNV Engineering "SunPower Yield Report," 2013 with CFV Solar Test Lab Report #12063, temp. coef. calculation. Campeau, Z. et al. "SunPower Module Degradation Rate," SunPower white paper, 2013. See www.sunpowercorp.com/facts for details.
3 Analysis of SunPower Equinox™ versus residential solar systems containing conventional panels,

string inverters and racking hardware.

# Anatomy of a SunPower Equinox™ System

## **Technical Specifications**

#### What's Included

- High Efficiency AC Panels with factory-integrated Microinverters
- InvisiMount Mounting Hardware
- EnergyLink Monitoring Hardware
- EnergyLink Monitoring Software

#### **Power Options**

- 20% Efficiency, 327 W
- 21% Efficiency, 335 W
- 21% Efficiency, 345 W
- 22% Efficiency, 360 W

#### Software Features

- Real-time access to solar production and home energy usage<sup>1</sup> any day, month, or year
- Insights including energy mix, bill savings, and environmental impact

#### Warranty

- SunPower Panels: 25 years
- SunPower Microinverters: 25 years
- SunPower InvisiMount Hardware: 25 years
- SunPower Monitoring Hardware: 10 years

#### **EnergyLink Connectivity**

- Hardware Ethernet
- Power Line Communication
- Wi-Fi
- Cellular Backup

#### **Panel Dimensions**
