**Getting Started with Derivita!**

Derivita is located right within your course in your Institution's LMS, so getting started is quick and easy to do. With Derivita, there is no other website or platform that you will need to log into, no separate account that you will need to create, and no extension or app that you will need to download. Derivita makes it easy for you to have access to your assignments right away!

- Log into your Institution's Learning Management System
- Open your course and navigate to your Assignments.
- You may see a prompt stating you have a 14 day free trial. Click **"Upgrade"** to complete your payment.

- You will see the first question open and the list of all questions within your assignment listed on the right hand side.
- To learn more about using Derivita and common FAQs, you can find more information at: **https://www.derivita.com/news#StudentResources**
- Double check your answer by using the Input Preview Box.

- Once you are ready to submit your answer to your question, click "**Check Answer**". It will automatically grade your response and provide feedback.
- Check with your instructor on the number of attempts and randomizations you will have for each question. You can continue working on questions to improve your score by clicking the "**Try Similar Question**" button.
- Review your assignment before submitting it on the Assignment Summary page. When you are ready to submit, click "**Finish**".
- You can continue to work on your assignments to improve your grade. Your highest score is what actually counts!

- If you need help, click the "**Help**" button in the upper right corner of your assignment and it will send your question to your instructor.
- If you need to report a technical issue please reach out to the Derivita Team at support@derivita.com or (801)851-5522.
