Introduction

This assessment guide offers multiple assessments in each of the major components of STARI: decoding, fluency, comprehension, and discussion and debate. The assessments are meant to provide evidence as to whether a student is making progress in literacy skills during the time they participate in STARI. They may also be used to assign grades if your school/district requires STARI to be a graded class.

There are several different types of assessments in this guide:

Decoding and Comprehension

Pre- and Post-Assessments: For decoding and comprehension, we have created pre- and post-tests for students to take at the beginning and at the end of the unit. The pre- and post-assessments measure the specific comprehension and decoding skills taught in this unit. The pre-assessment will allow you to set a baseline for what your students know, and the post-assessment will allow you to assess growth.

Progress Monitoring Assessments: In addition, we have flagged specific activities that students will complete during the unit as progress monitoring assessments. We suggest that you collect and score these workbook pages and use the results to inform your teaching: are students ready to move on, do you need to reteach specific skills to the whole class, or do you need to pull a small group for additional practice in particular skills?

Fluency

Pre- and Post-Assessments: This assessment guide contains a formal running record to measure students’ fluency at the beginning of the unit and another one for the end of the unit. These assessments may be used to set a baseline and measure student growth and to assign students to appropriate fluency levels for Unit 1 (using the results of the pre-assessment) and for Unit 2 (using the results of the post-assessment). These assessments are optional, and the teacher lesson plans provide guidance for assigning students to fluency levels without using these assessments.

Progress Monitoring Assessment: Students record their words per minute daily during fluency practice, so it is easy to monitor their progress in reading rate. However, we encourage you to attend to aspects of fluency other than rate, including accuracy, phrasing, expression, and comprehension. We have provided some guidance around how to assess these aspects of fluency at the midpoint of the unit.

Discussion

Progress Monitoring Assessments: Students engage in discussion every day of a STARI unit. To support your assessment of discussion, we have provided a discussion checklist to assess your students’ current performance and flagged specific lessons that will provide good opportunities to assess discussion. We have also provided a Talk Moves Reflection chart, which offers some guidance in how to improve student discussion in your classroom. We hope that by using this checklist multiple times during the unit, you will see growth in your students’ ability to engage in productive academic discussion.

Debate

There is also a debate at the end of the unit. We have provided a debate rubric that you may use to assess your students’ ability to present a strong argument.
**Overview**

You can assess discussion at several points throughout the unit and in several contexts, including during Day 2 fluency discussions, partner reading discussions, or during guided reading discussions (see chart on the right for suggested opportunities to assess discussion).

You may also consider assessing discussion during the end-of-unit debate.

You can take ‘live’ written notes on student discussion or record discussion and analyze it later. Use the Classroom Snapshot Recording Form - Discussion Checklist when you observe fluency passage discussion, partner work, or guided reading. Choose several students to observe at a time, and try to observe everyone over several days. Debate has its own rubric.

**Materials:**
- **Recording devices (optional)**
- Classroom Snapshot Recording Form - Discussion Checklist
  - for teacher use
  - 1 copy per class for each discussion assessment opportunity
- Classroom Snapshot Recording Form - Debate Rubric
  - for teacher use
  - 1 copy per student

You can fill in the sheet, use the Talk Moves Chart and the Goals for Productive Discussions Chart to plan your next teaching moves.

**Notes:**
- Circle one score for Claim/Reasoning/Evidence and one score for Engagement
- Lesson: _____________________
- Date: _______________________

**Goals for Productive Discussions Chart**

- **Claim**
  - Student states an opinion without reasoning or evidence.
  - Student refers to the text to support ideas with prompting.
  - Student makes a compelling argument that strongly supports a claim using relevant evidence.
  - Student makes an argument that is not well developed, lacks clarity, and contains potential rebuttals.

- **Reasoning**
  - Student uses informal and imprecise language.
  - Student spontaneously explains his/her thinking, accurately attributes the ideas of others, and questions the ideas of others.
  - Student anticipates what others need to know to understand his/her ideas, and questions or rebutts those ideas.
  - Student uses academic language and words and phrases in the argument.

- **Evidence**
  - Student uses academic language and words and phrases in the argument.
  - Student spontaneously explains his/her thinking, accurately attributes the ideas of others, and questions the ideas of others.
  - Student anticipates what others need to know to understand his/her ideas, and questions or rebutts those ideas.
  - Student uses academic language and words and phrases in the argument.

- **Engagement**
  - Student discusses only his/her own ideas, with little evidence.
  - Student discusses only his/her own ideas, with some evidence.
  - Student engages actively in the discussion, and questions or rebuts those ideas.
  - Student engages actively in the discussion, and questions or rebuts those ideas.

**Exemplary**

- **Claim**
  - Student states an opinion with reasoning and relevant evidence.
  - Student makes an argument that is well developed, clear reasoning and relevant evidence. Student uses academic language and words and phrases in the argument.
  - Student makes an argument that supports a claim using relevant evidence and the claim. A student's argument anticipates potential rebuttals.
  - Student makes an argument that supports a claim using relevant evidence and the claim. A student's argument anticipates potential rebuttals.

- **Reasoning**
  - Student uses formal and precise language.
  - Student spontaneously explains his/her thinking, accurately attributes the ideas of others, and questions the ideas of others.
  - Student anticipates what others need to know to understand his/her ideas, and questions or rebutts those ideas.
  - Student uses academic language and words and phrases in the argument.

- **Evidence**
  - Student uses formal and precise language.
  - Student spontaneously explains his/her thinking, accurately attributes the ideas of others, and questions the ideas of others.
  - Student anticipates what others need to know to understand his/her ideas, and questions or rebutts those ideas.
  - Student uses academic language and words and phrases in the argument.

- **Engagement**
  - Student discusses only his/her own ideas, with little evidence.
  - Student discusses only his/her own ideas, with some evidence.
  - Student engages actively in the discussion, and questions or rebuts those ideas.
  - Student engages actively in the discussion, and questions or rebuts those ideas.

**Developing**

- **Claim**
  - Student states an opinion with reasoning and relevant evidence.
  - Student makes an argument that is well developed, clear reasoning and relevant evidence. Student uses academic language and words and phrases in the argument.
  - Student makes an argument that supports a claim using relevant evidence and the claim. A student's argument anticipates potential rebuttals.
  - Student makes an argument that supports a claim using relevant evidence and the claim. A student's argument anticipates potential rebuttals.

- **Reasoning**
  - Student uses formal and precise language.
  - Student spontaneously explains his/her thinking, accurately attributes the ideas of others, and questions the ideas of others.
  - Student anticipates what others need to know to understand his/her ideas, and questions or rebutts those ideas.
  - Student uses academic language and words and phrases in the argument.

- **Evidence**
  - Student uses formal and precise language.
  - Student spontaneously explains his/her thinking, accurately attributes the ideas of others, and questions the ideas of others.
  - Student anticipates what others need to know to understand his/her ideas, and questions or rebutts those ideas.
  - Student uses academic language and words and phrases in the argument.

- **Engagement**
  - Student discusses only his/her own ideas, with little evidence.
  - Student discusses only his/her own ideas, with some evidence.
  - Student engages actively in the discussion, and questions or rebutts those ideas.
  - Student engages actively in the discussion, and questions or rebutts those ideas.

**Emerging**

- **Claim**
  - Student states an opinion without reasoning or evidence.
  - Student refers to the text to support ideas with prompting.
  - Student makes an argument that is not well developed, lacks clarity, and contains potential rebuttals.
  - Student makes an argument that supports a claim using relevant evidence and the claim. A student's argument anticipates potential rebuttals.

- **Reasoning**
  - Student uses informal and imprecise language.
  - Student discusses only his/her own ideas, with little evidence.
  - Student discusses only his/her own ideas, with some evidence.
  - Student engages actively in the discussion, and questions or rebuts those ideas.

- **Evidence**
  - Student uses informal and imprecise language.
  - Student discusses only his/her own ideas, with little evidence.
  - Student discusses only his/her own ideas, with some evidence.
  - Student engages actively in the discussion, and questions or rebuts those ideas.

- **Engagement**
  - Student discusses only his/her own ideas, with little evidence.
  - Student discusses only his/her own ideas, with some evidence.
  - Student engages actively in the discussion, and questions or rebuts those ideas.
  - Student engages actively in the discussion, and questions or rebuts those ideas.

- Guided Reading
- Other: __________________________

Circle one:
- Pre-Assessment
- Post-Assessment
- Other: __________________________

*Fill in the discussion checklist with your students' names. Tally the types of talk each student engages in within the chart.*

<table>
<thead>
<tr>
<th>Student Name</th>
<th>makes an on-topic contribution</th>
<th>actively listens to peers</th>
<th>explicitly references the text</th>
<th>responds to peers' ideas</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>e.g., “Kids are looking shocked.”</td>
<td>e.g., eyes on speaker, quiet when others are talking</td>
<td>e.g., “The bottom of the page shows a kid yanking the power cord.”</td>
<td>e.g., “Can you explain that?”</td>
</tr>
</tbody>
</table>
Once you have filled in the sheet, use the Talk Moves Reflection Chart on page 7 and the Goals for Productive Discussion on page 8 to plan your next teaching moves.

Reflect on your class as a whole. Jot some notes about what you will do next to improve whole-class and/or partner discussions.

_______________________________________________________________________
_______________________________________________________________________
_______________________________________________________________________
_______________________________________________________________________

Now let’s think about individual students.

First, identify any students whose performance in discussion is at a lower level than the class as a whole. List their names here.

_______________________________________________________________________
How will you support those students? (i.e., Which partnerships will you focus on? Which talk goals will you focus on? Which talk moves will you use?)
_______________________________________________________________________
_______________________________________________________________________

Then, identify students whose performance in discussion is at a higher level than the class as a whole. List their names here.

_______________________________________________________________________
How will you push those students to continue to improve? (i.e., Which partnerships will you focus on? Which talk goals will you focus on? Which talk moves will you use?)
_______________________________________________________________________
_______________________________________________________________________

Talk Moves Reflection Chart

Are most/all students making on-topic contributions to the discussion?

- No
- Yes

Use Goal 1 talk moves to get them to “say more.”

Are most/all students showing signs of active listening?

- No
- Yes

Use Goal 2 talk moves to help them orient toward others and listen to what they have to say.

Are students explicitly referencing the text?

- No
- Yes

Use Goal 3 talk moves to press for reasoning.

Are students asking and answering questions of peers?

- No
- Yes

Use Goal 4 talk moves to help students work with the reasoning of others.

Keep doing what you’re doing! Your rich class discussions will enhance students’ understanding of text and improve their reading skills!
Talk Moves

Goals for Productive Discussion

**Talk moves for STARI**

---

**Goal 1**

*Individual students share their reasoning so it can be heard and understood.*

**Wait time**
- Stop and jot
- Turn and talk
- Go back to the text

**Say more**
- Can you say more about that?
- Could you say that again?
- Could you give us an example?
- Did you understand what your partner said? Can you ask him/her to clarify?
- Can you ask your partner to say more?
- Can you ask your partner to say it another way?

**Revoicing**
- So let me see if I've got what you're saying. Are you saying...?

---

**Goal 2**

*Students orient to others and listen to what others say.*

**Who can rephrase or repeat?**
- Can anyone rephrase or repeat that?
- Can someone put that in their own words?
- Can you tell me what your partner thinks about that?

---

**Goal 3**

*Students work on deepening their own reasoning.*

**Asking for evidence or reasoning**
- Why do you think that?
- What's your evidence?
- Can you explain your reasoning?
- What in the text makes you say that?
- Can you ask your partner for some evidence from the book?

**Challenge or Counterexample?**
- Can you find a piece of evidence that supports the opposite point of view?
- But what about the part in the text where Maleeka burned the money?

---

**Goal 4**

*Students work with the reasoning of other students.*

**Agree/disagree and why?**
- What do other people think about that?
- Does anyone have a different view?
- Do you and your partner agree? Why or why not?

**Add on**
- Who wants to add on to that?
- Can you take your partner’s idea and push it a little further?

**Explaining what someone else means**
- Who can explain what Hilal means when he says that?
- Who thinks they could explain how Lucy came up with that answer?
- Why do you think your partner said that?
## Classroom Snapshot Recording Form: Debate Rubric

<td>Student discusses only his/her own ideas, with little effort to clarify meaning.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Notes:
Lesson 1
Comprehension Strategies & Decoding

Pre-Assessment

In Unit 1.1, we teach two comprehension strategies—summarizing (using the 5Ws) and clarifying—and two decoding strategies—identifying base words and consonant blends.

Materials:

- Student Pre-Assessment
  for student use
  1 copy per student

Answer Key

Summarizing (4 possible points)

1. Summarize the first paragraph of the text.

<table>
<thead>
<tr>
<th>Descriptor</th>
<th>Emerging (1 point)</th>
<th>Developing (2 points)</th>
<th>Proficient (3 points)</th>
<th>Exemplary (4 points)</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Summary is missing key details or contains incorrect information.</td>
<td>Summary contains accurate information from the text but fails to identify the most important ideas.</td>
<td>Summary includes the most important details from the text.</td>
<td>Summary includes inferential information or links the story to a larger idea.</td>
</tr>
<tr>
<td>Example</td>
<td>Megan was bullying kids on Instagram.</td>
<td>Megan was thrilled when she starting chatting with Josh Evans.</td>
<td>When she was in eighth grade, Megan was cyberbullied, and she was hurt and upset.</td>
<td>In Missouri, when Meghan was in eighth grade, neighbors set up a fake on-line profile for her. This is a new way to bully people.</td>
</tr>
</tbody>
</table>

Clarifying (4 possible points: 1 point for each correct answer)

2. List the words you underlined in the passage to clarify.
   The first step in clarifying is identifying unfamiliar words. There are a number of words in this passage that students are unlikely to know, including devastated, eons, manipulating, and underlying. If students have not identified any of these, they probably need support in noting unfamiliar words as they read.

3. What is the meaning of the word devastated in paragraph 1?
   I think it means extremely sad.

4. What evidence from paragraph 1 provides a clue about the meaning of the word devastated?
   a. thrilled
   b. good-looking and friendly
   c. hurt and upset
   d. not a real person

5. What is the meaning of the word underlying in paragraph 2?
   I think it means the real problem that lies underneath the surface.
Pre-Assessment

Decoding (4 possible points: 1 point for each correct answer)

6. Circle the base word in bullying.

7. Circle the two base words in underlying.

8. Underline the consonant blend in profile.

9. Underline the consonant blend in struggling.

Argumentation (4 possible points)

10. Do you think schools are responsible for protecting students from cyberbullying? Use evidence from the passage to support your opinion.

One of the core beliefs of STARI is that students should be able to develop a stance toward text and state their evidence-based opinions about engaging topics, even while they are receiving support in foundational literacy skills. Your students’ answers to Question 10 will help you assess their current levels of competence in this area.

<table>
<thead>
<tr>
<th>Emerging (1 point)</th>
<th>Developing (2 points)</th>
<th>Proficient (3 points)</th>
<th>Exemplary (4 points)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Descriptor</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student states an opinion without reasoning or evidence.</td>
<td>Student makes an argument that is not well developed with relevant evidence to back up the claim.</td>
<td>Student makes an argument that supports a claim using clear reasoning and relevant evidence.</td>
<td>Student makes a compelling argument, with a clear claim and relevant evidence, and makes a connection between the claim and the evidence. The student may anticipate and rebut counterarguments.</td>
</tr>
<tr>
<td>Example</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Megan shouldn’t let people pick on her.</td>
<td>It’s not the school’s fault if kids get bullied.</td>
<td>Schools can’t prevent cyberbullying because it happens outside of school. Most schools don’t have access to students’ social media accounts so there is no way they can control what students do.</td>
<td>Schools need to do more to protect kids from cyberbullying because being bullied can affect their ability to learn. So, cyberbullying is the school’s problem. Some people might say it’s the parents’ job to control what kids do outside of school, but if it involves more than one student, parents can’t control someone else’s child.</td>
</tr>
</tbody>
</table>
Read the passage. **Underline** any unfamiliar vocabulary words.

**Are Schools Responsible for Protecting Kids from Cyberbullying?**

1 Megan lived in Missouri and went to Catholic school. When Megan was in eighth grade, she started chatting with Josh Evans on Instagram. She was thrilled! Josh was good-looking and friendly. He even said she was his “number one.” But one day Josh’s messages turned from nice to cruel. Megan was devastated. She was so hurt and upset at how he treated her. Later, Megan’s family learned that Josh Evans was not a real person. Neighbors made up a fake profile to bully Megan.

2 Bullying has been a problem in schools for eons. But cyberbullying is a new way that bullies hurt their victims. Cyberbullies use texts, email, or sites like Instagram to send hurtful messages. Cyberbullying also includes spreading rumors and manipulating photos online.

3 Cyberbullying is very common in middle school. Over half of middle school students have been a cyberbully or a victim. When someone is struggling in school, cyberbullying might be the underlying reason. Students who are bullied online may be afraid to come to school. When people are afraid, they can’t learn.

4 Maybe schools should get more involved. Some say school police should treat cyberbullying as a crime. Others say teachers should talk with students about cyberbullying.

5 Other people say schools can only control what happens at school. Schools can’t fix students’ outside social lives. Schools usually can’t even see students’ social media accounts.

6 What can students do to stop cyberbullies? When should parents step in? What can schools do to help protect students?
Write your answers to the questions below.

1. Summarize the first paragraph of the text.

_______________________________________________________________________
_______________________________________________________________________
_______________________________________________________________________

2. List the words you underlined in the passage.

_______________________________________________________________________

3. What is the meaning of the word *devastated* in paragraph 1?

*I think it means* ______________________________________________________________________

4. What evidence from paragraph 1 provides a clue about the meaning of the word *devastated*?
   
   a. thrilled  
   b. good-looking and friendly  
   c. hurt and upset  
   d. not a real person

5. What is the meaning of the word *underlying* in paragraph 3?

*I think it means* ______________________________________________________________________

6. **Circle** the base word in *bullying*.  
   
   bullying

7. **Circle** the two base words in *underlying*.  
   
   underlying

8. **Underline** the consonant blend in *profile*.  
   
   profile

9. **Underline** the consonant blend in *struggling*.  
   
   struggling

10. Do you think schools are responsible for protecting students from cyberbullying? Use evidence from the passage to support your opinion.

<td>/ 4</td>
<td>/4</td>
<td>/ 4</td>
<td>/ 16</td>
</tr>
</tbody>
</table>
Lesson 10
Decoding

Progress Monitoring: Compound Words

Use workbook p. 45, Homework assignment from Lesson 10, to check in on students’ understanding of compound words.

Answer Key

Circle the two base words in each compound word:

Pick two of the words. Then draw a picture explaining each word.

- handlebars
- playground
- backpack
- raincheck
- widespread
- blackmail
- underdog
- brainchild

Additionally, students’ pictures should demonstrate understanding of the words’ meanings.

✓ If students chunk 7-8 compound words correctly (missing 0-1), they have mastered the first decoding skill of Unit 1.1
- If students chunk 5-6 compound words correctly (missing 2-3), they could benefit from more practice. Look for opportunities to reinforce chunking skills using words from unit texts and/or fluency passages.
- If students chunk 4 or fewer words correctly, they could benefit from reteaching Lessons 7 and 10.

Extra Practice

For small group extra practice, give each student several compound words on index cards and scissors to cut up each word into the two base words. Students scramble their cards and put them back together into meaningful words that they can share. Here are some suggested words for the index cards from the unit novel:

pushpin outdo backdoor stairway roommates
homemade skintight backpack
homework lunchroom blackboard milkshake
Progress Monitoring: Clarifying

Use workbook p. 63, Homework assignment from Lesson 15, to check in on students’ clarifying skills.

Answer Key

<table>
<thead>
<tr>
<th>Challenge words</th>
<th>I think it means . . .</th>
</tr>
</thead>
<tbody>
<tr>
<td>ample</td>
<td>large, wide, fat</td>
</tr>
<tr>
<td>emaciated</td>
<td>skinny, not muscular</td>
</tr>
<tr>
<td>fret</td>
<td>worry, feel bad</td>
</tr>
<tr>
<td>blotches</td>
<td>dots, spots, marks, pimples</td>
</tr>
<tr>
<td>disheartened</td>
<td>unhappy, sad, discouraged</td>
</tr>
</tbody>
</table>

Try to analyze student errors to determine which strategies students are using to infer the meanings of unfamiliar words.

For example, a student who guesses that ample means “skinny” may have guessed that Shana is worried about her skinny hips, without reading the next sentence: “She thinks she looks heavy.” This student needs to be taught to look for context clues outside of the sentence containing the unfamiliar word.

Some students may be too literal in using the familiar base word to infer the meaning of disheartened, guessing, for example that the word means “not heartened,” which they may translate into having “no passion” or “no courage.” These students should be praised for using a strategy that you have taught, but they need to learn to double check whether their inferred meaning makes sense in the sentence.

Also, students’ response to the question at the bottom of the page should demonstrate comprehension of the topic.
Progress Monitoring: Summarizing

Use workbook p. 86, Partner reading assignment from Lesson 24, to check in on students’ summarizing skills.

Things to think about as you read your students’ answers:

- Do all their answers accurately reflect what they read in the text?
- Were they able to pull out the most important details?
- Were they able to make inferences about the W’s that are not explicitly stated in the text (e.g., were they able to say that the when was “during the school day” or “between classes,” or did they get stuck looking for a specific time or date?)

<table>
<thead>
<tr>
<th>Emergent (1 point)</th>
<th>Developing (2 points)</th>
<th>Proficient (3 points)</th>
<th>Exemplary (4 points)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Descriptor</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Summary is missing key details or contains incorrect information.</td>
<td>Summary contains accurate information from the text but fails to identify the most important ideas.</td>
<td>Summary includes the most important details from the text.</td>
<td>Summary includes inferential information or links the story to a larger idea.</td>
</tr>
<tr>
<td><strong>Example</strong></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Who: Char</td>
<td>Who: Maleeka</td>
<td>Who: Maleeka and Daphne</td>
<td>Who: Maleeka and Daphne</td>
</tr>
<tr>
<td>What: Set Maleeka up so she can fight Worm</td>
<td>What: She was walking down the hallway</td>
<td>What: They got into a fight</td>
<td>What: The two girls fought</td>
</tr>
<tr>
<td>When:</td>
<td>When: During lunch</td>
<td>When: During school</td>
<td>When: During school</td>
</tr>
<tr>
<td>Where: In McClenton Middle School</td>
<td>Where: At school</td>
<td>Where: In the hallway</td>
<td>Where: In the hallway</td>
</tr>
<tr>
<td>Why: Char was kissing Worm’s boyfriend but she told her Maleeka was</td>
<td>Why: She wanted to show off her new clothes.</td>
<td>Why: Daphne thought Maleeka kissed her boyfriend.</td>
<td>Why: Maleeka was kissing her boyfriend, but she wasn’t. It was Charlese.</td>

</tr>
<tr>
<td>Why</td>
<td>Because Daphne thinks Maleeka was kissing her boyfriend</td>
<td>Because Daphne and Maleeka are fighting at school</td>
<td>Daphne wants to fight Maleeka because she thinks Maleeka was kissing Worm, but really Char was the one kissing Worm.</td>
</tr>
</tbody>
</table>
Progress Monitoring: Consonant Blends

Use workbook p. 87, Homework assignment from Lesson 24, to check in on students’ understanding of consonant blends.

› Answer Key

| fractious | traipse | placate | clamor | truculent | brusque | droll | prudent | flail | gratis | blather | crass | plucky |

You may wish to spot check students’ ability to blend the sounds in these words when reading aloud. During fluency work and/or partner reading in Lesson 24, you may wish to circulate and ask individual students to read aloud selected words from the homework assignment.

Note: Even if they are able to identify and decode the consonant blends, students may still struggle to pronounce these words; for example, they may struggle with the vowel sounds in placate or gratis. These decoding skills will be taught in subsequent STARI units.

As evidence of mastery, you should look for students to be able to correctly identify the consonant blends in 11-13 of these words; however, remember that identifying consonant blends is not the purpose of this decoding strategy. The goal is for students to be able to use their knowledge of blends to accurately decode unfamiliar words.
Post-Assessment

In Unit 1.1, we teach two comprehension strategies—summarizing (using the 5Ws) and clarifying—and two decoding strategies—identifying base words and consonant blends.

Materials:
- Student Post-Assessment for student use
  1 copy per student

Answer Key

Summarizing (4 possible points)

1. Summarize the first paragraph of the text.

<table>
<thead>
<tr>

Example

- Who: Ms. Pinkney
- What: Wrote The Skin I’m In
- When: 1998
- Where: Pittsburgh
- Why: It has stayed in print for over 20 years.

- Who: Sharon Flake
- What: Wrote The Skin I’m In
- When: The late 90’s
- Where: Pittsburgh
- Why: She was a single parent with a full-time job.

- Who: Sharon Flake
- What: Wrote The Skin I’m In
- When: The late 90’s
- Where: Pittsburgh
- Why: She wanted her daughter to feel good about the skin she was in.

- Who: Sharon Flake
- What: Got up before sunrise to write The Skin I’m In
- When: the late 90’s
- Where: Pittsburgh
- Why: She wanted to send a positive message to Black girls like her daughter.

Clarifying (4 possible points: 1 point for each correct answer)

2. List the words you underlined in the passage to clarify.
The first step in clarifying is identifying unfamiliar words. There are a number of words in this passage that students are unlikely to know, including relevant, inspiration, unsolicited, and critique. If students have not identified any of these, they probably need support in noting unfamiliar words as they read.

3. What is the meaning of the word unsolicited in paragraph 2?

I think it means without being asked.

4. What evidence from paragraph 2 provides a clue about the meaning of the word unsolicited?
   a. the slush pile
   b. no one knew Ms. Flake
   c. without asking for them
   d. publishers receive books

5. What is the meaning of the word critique in paragraph 2?

I think it means feedback, criticism, suggestions for improvement.
Comprehension Strategies & Decoding

Post-Assessment

Decoding (4 possible points: 1 point for each correct answer)

6. Underline the consonant blend in slush.  
   slush

7. Underline the consonant blend in critique.  
   critique

8. Circle the two base words in sunrise.  
   sunrise

9. Circle the base word in reprint.  
   reprint

Argumentation (4 possible points)

10. Do you think *The Skin I’m In* will still be popular twenty years from now? Why or why not? Use evidence from the passage to support your opinion.

   One of the core beliefs of STARI is that students should be able to develop a stance toward text and state their evidence-based opinions about engaging topics, even while they are receiving support in foundational literacy skills. Your students’ answers to Question 10 will help you assess their current levels of competence in this area.

<table>
<thead>
<tr>
<th>Descriptor</th>
<th>Emerging (1 point)</th>
<th>Developing (2 points)</th>
<th>Proficient (3 points)</th>
<th>Exemplary (4 points)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Descriptor</strong></td>
<td>Student states an opinion without reasoning or evidence.</td>
<td>Student makes an argument that is not well developed with relevant evidence to back up the claim.</td>
<td>Student makes an argument that supports a claim using clear reasoning and relevant evidence.</td>
<td>Student makes a compelling argument, with a clear claim and relevant evidence, and makes a connection between the claim and the evidence. The student may anticipate and rebut counterarguments.</td>
</tr>
<tr>
<td><strong>Example</strong></td>
<td>Yes. I liked <em>The Skin I’m In</em>.</td>
<td>I think <em>The Skin I’m In</em> will still be popular in 20 years. It’s a good book.</td>
<td>The Skin I’m In will still be relevant 20 years from now because colorism is still a problem. Some people might think that teenagers today have nothing to learn from a 20 year old book, but Maleeka gave advice that teenagers still need to hear: “You’re ok. Hang in there.” This advice could help someone who is being bullied.</td>
<td></td>
</tr>
</tbody>
</table>
Read the passage. **Underline** any unfamiliar vocabulary words.

**The Skin I’m In: Twenty Years Later**

*The Skin I’m In* recently celebrated its twentieth birthday. Not many books stay popular that long. What makes this book special?

1 In the late 90’s, Sharon Flake lived in Pittsburgh. She was a single parent with a full-time job. She got up before sunrise every day to write. Where did she get the idea for *The Skin I’m In*? Ms. Flake says her daughter Brittany was the inspiration. She says, “I wanted her to feel good about the skin she was in.”

2 But no one knew Ms. Flake was a writer. No publishers were asking her to send them books. Publishers often receive books unsolicited, without asking for them. These books are put in the “slush pile.” Slush pile books are rarely reviewed. But an editor, Andrea Pinkney, spotted *The Skin I’m In*. She pulled it out of the slush pile. She said, “The minute I started reading, I was hit between the eyes by Maleeka’s voice.” Pinkney wrote a 7-page critique, listing ideas for improvement. Sharon Flake rewrote the novel and sent it back. Ms. Pinkney responded with 5 more pages of feedback.

3 The book was published in 1998. It has now stayed in print for over 20 years. Unusually, the book’s cover stays the same in every reprint. Ms. Pinkney says, “We have to show this character, Maleeka Madison, face on, full face. Maleeka Madison has to fill that cover.”

4 Sharon Flake has traveled the world talking to kids about *The Skin I’m In*. She has visited countries like Turkey and India, where colorism is a serious problem. People are often judged by their skin color. Ms. Flake was asked what Maleeka would say to students today. “She would say, you don’t know it now because you’re being bullied. But you’re OK. Hang in there.”

continued
Write your answers to the questions below.

1. Use the 5 Ws to summarize the story of how Sharon Flake wrote and published *The Skin I’m In*.

Lesson 1

Pre-Assessment

Determining Oral Reading Progress to Assign STARI Fluency Levels

At the beginning of Unit 1, you will need to assign students to appropriate fluency levels. You may base these levels on informal assessments, using the practice passage students read in Lesson 3 (“What’s Your Birth Order?”), combined with other data about your students’ current reading levels. As an alternative, you might choose to conduct a more formal assessment using this running record tool. In a running record, a student reads aloud to you, while you make notes about whether they:

- Read at a good rate
- Decode words accurately
- Read with expression and phrasing that show meaning
- Understand what they read

Materials:

- Timer
- Student Snapshot Recording Form

For teacher use

1 copy per student

For student use

Can be used with multiple students

Fluency passage

Comprehension Questions

What happened to Jennifer at the Academy Awards?

• What makes Jennifer a star?

Sample Response:

Student’s Name ___________________________________________         Date_________________

Words per minute: ___________

# miscues in one minute: ___________

Star. In a running record, a student reads aloud to you, while you make notes about whether they:

- Read at a good rate
- Decode words accurately
- Read with expression and phrasing that show meaning
- Understand what they read

Materials:

- Timer
- Student Snapshot Recording Form

For teacher use

1 copy per student

Fluency passage

For student use

Can be used with multiple students

Comprehension Questions

What happened to Jennifer at the Academy Awards?

- What makes Jennifer a star?

Sample Response:

Notes:
Pre-Assessment

Administering the Running Record

1. Pull a student to a quiet part of the room to work with you one-on-one.
2. Set the timer for one minute and ask the student to read aloud.
3. As the student reads aloud, mark errors with a dot above the word. You may use your phone or an audio recorder to record the student, if possible.
4. At the end of one minute, mark the student’s place in the text. Prompt the student to continue reading until the end of the passage.
5. Ask comprehension questions at the end of the passage and record the student responses.
6. Calculate and record the words correct per minute (WCPM) and accuracy rate. Record observations about comprehension, phrasing, and expression.
7. Evaluate the snapshot to determine which fluency level is needed.

Count as Error:

✓ Substitutes another word for a word in the text
✓ Omits a word
✓ Inserts a word
✓ Has to be told a word
✓ Mispronounces a word (not a result of dialect; creates a nonword)

Do not count as Error:

X Self-correction (when a child realizes her or his error and corrects it, the previous substitution is not scored as an error)
X Proper names (if a child mispronounces a proper name, e.g., Giuliani, do not count this as an error)

Progress Conference with Students (Provide immediate feedback)

1. Review running record with student, noting areas of praise and areas to polish.
   ‣ Praise for self-correcting or using strategies taught in the mini-lessons.
   ‣ Provide feedback on an area for the student to polish.
2. Set a fluency goal for the next STARI unit.
   ‣ Identify and discuss the strategies that the student will need to be successful and continue to grow.
Jennifer Lawrence: Rise to Fame

Words per minute: __________

# miscues in one minute: __________
Pre-Assessment Student Snapshot Recording Form

Comprehension Questions

What makes Jennifer a star?

Sample Response: She turns into each character she plays.

Student’s Answer:

What happened to Jennifer at the Academy Awards?

Sample Response: She slipped and fell as she stepped up to receive her award.

Student’s Answer:

Oral Reading Fluency Scale (adapted from the NAEP Oral Reading Fluency Scale)

<table>
<thead>
<tr>
<th>Fluent</th>
<th>Level 4</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Reads primarily in larger, meaningful phrase groups. Some or most of the passage is read with expressive interpretation.</td>
<td>Reads primarily in three- or four-word phrase groups. Some small groupings may be present. Most phrases are meaningful (i.e., “The dog barked / when I ran past,” not “The dog barked when / I ran / past.”). Reads with some expression.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Nonfluent</th>
<th>Level 2</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Reads primarily in two-word phrases with some three- or four-word groupings. Some word-by-word reading may be present. Phrase groupings are not necessarily meaningful. Reads with little expression.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Nonfluent</th>
<th>Level 1</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Reads primarily word-by-word. Occasional two-word or three-word phrases may occur. Phrase groupings are not meaningful. May include long pauses and repetitions of words. Reads with little to no expression.</td>
</tr>
</tbody>
</table>

Assigning Fluency Levels

<table>
<thead>
<tr>
<th>Student performance on “Jennifer Lawrence: Rise to Fame”</th>
<th>Assign fluency level:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral reading rate (words correct per minute)</td>
<td>Miscues</td>
</tr>
<tr>
<td>100-120</td>
<td>1-5</td>
</tr>
<tr>
<td>120+</td>
<td>0-1</td>
</tr>
</tbody>
</table>

If student performance on “Jennifer Lawrence: Rise to Fame” was excellent, and your other data suggests that this student reads above lexile 800, consider assigning Fluency Level D.

Notes:
Jennifer Lawrence: Rise to Fame

Jennifer Lawrence became a famous movie star by the time she was 20. People love the way she turns into each character she plays. They also love her drive and spunk.

Lawrence grew up in a happy family. Her two brothers loved to play pranks. Once, they smeared peanut butter on her face and let their dogs lick it off! The boys loved sports, but Jennifer loved being on stage.

At age 14, Jennifer begged her parents to let her become a real actor. They said no. She had to finish school. Not a problem! Jennifer quickly got her GED. She began to get work on TV shows. She knew this was right for her. In 2009, she spoke to the Louisville Courier-Journal about her budding career. She said, “Once I got the tiniest taste for this, I could never look back.”

In 2010, Jennifer starred in the movie Winter's Bone. She played a teen from a rough mountain town. For her role, Jennifer had to learn how to skin a squirrel. She stopped using lip gloss and let her skin crack. Movie critics loved the gritty film. Suddenly, Jennifer was a star.

Hunger Games was Jennifer's next big part. In 2012, she won acting's biggest prize: the Academy Award. As she stepped up to receive her award, she slipped and fell. Other actors ran to help, but Jennifer laughed as she stood up. She walked onstage with grace. The audience rose to their feet and clapped hard for the young star.

Comprehension Questions

- What makes Jennifer a star?
- What happened to Jennifer at the Academy Awards?
### Progress Monitoring

After Lesson 22, students will be halfway through the 10 fluency passages they will read in this unit. Therefore, this might be a good time for a progress monitoring check-in. Consider taking the following steps:

- Circulate and listen in on students while they are reading Passage 5. Alternatively, audio record students reading so you can listen to everyone.
- Note student progress in accuracy (they should have fewer than 5 miscues), phrasing, and expression. Consider using the NAEP rubric to score phrasing and expression.
- Collect student binders to check the fluency section.
- Look at p. 2, where students record daily WPM:
  - Are all students reading a minimum of 110-120 words per minute at their current level?
  - Are all students reading more WPM on their last read compared to their first read?
  - Have students increased the number of WPM they can read from the beginning to the middle of the unit? (Remember, fluency passages get progressively more difficult as the unit goes on, so this may not always be the case!)
- Look at p. 26, where students respond to questions about main idea and key details:
  - Are students answering these questions completely and correctly? (See answer guide below.)
  - Based on your observation, are students struggling and needing to reread the text to answer these questions?
- Note which students seem to be making adequate progress in fluency, and who may need additional support.

### Fluency Progress Monitoring Answer Guide: Passage 5, page 26

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| A | How do people act if they have power over their own life? They make their own choices and don't let other people tell them what to do.  
What are some words for strong emotions? Some words for strong emotions are overjoyed, ecstatic, fearful, jumpy, edgy, panicky. *(Students should select some of these)* |
| B | What are some people saying about girls and violence? Some people say that girl-on-girl violence has become a big problem. OR Some people say that girl-on-girl violence is not a meaningful trend.  
What do statistics tell us about girls and fighting? Statistics tell us that more girls are being arrested for assault. |
| C | What are some important differences between teasing and bullying? Bullying is hurtful, and teasing isn't. OR Bullying involves an imbalance in power, and teasing happens between friends. OR Bullying continues over an extended time, but teasing could just happen once.  
How does a queen bee keep her power? The queen bee uses putdowns to keep her power. |
| D | What is different about physical fighting in schools today? Girls are responsible for a growing number of physical fights. OR People can now take videos of physical fighting in schools and watch them over and over again.  
What can police do with YouTube videos of school fighting? Police can use YouTube videos to find people involved in a fight. |
Progress Monitoring

Suggestions for students who need additional support in fluency:

1. Is the student on the right fluency level? If the student is struggling with Level B, C, or D, consider moving them down a level.

2. Is the student taking advantage of all the supports in the curriculum?
   - If the student struggles with **phrasing and expression**:
     Is the student effectively using the phrase-cued reading (Day One, Part 3) to improve their phrasing and expression? If not, consider choral reading, echo reading, or whisper reading to support them.
   - If the student struggles with **accuracy**:
     Is the student effectively using the tricky phrases and words (Day Two, part 1) to help them decode unfamiliar words in the fluency passage? If not, consider re-teaching how to use the pronunciation guide and modeling or echo reading.
   - If the student struggles with **comprehension**:
     Is the student taking their time to read and think about the passage – or racing through trying to get the highest number of words per minute?
     Is the student taking advantage of discussion with their partner to help improve their comprehension of the text?
     Remind students that reading is always about making meaning, and reinforce these structures. Consider bringing comprehension strategies of summarizing and clarifying into fluency, to support students’ comprehension.
   - If a student struggles with **rate**:
     Is the student engaging in all activities of the two-day fluency routine? If so, the student will read the passage four (or more) times, which should lead to an improvement in rate. If the student is engaging in all these activities, and their reading rate is not improving between the first and last read, it is likely that the passage is too difficult. Consider moving them down a level.

3. Is the student doing everything right, at Level A, and still not improving?
   It is likely that this student has significant gaps in decoding skills. Think about how you can beef up decoding supports within STARI for this student, or consider what other programs your school may be able to offer to support this student’s language and literacy needs.
Determining Oral Reading Progress to Assign STARI Fluency Levels

The purpose of this optional end of unit fluency assessment is to evaluate student progress in oral reading, keeping in mind the goals for fluent reading:

- Reading at a good rate
- Reading with expression and phrasing that show meaning
- Decoding words accurately
- Understanding what they read

In a running record, a student reads aloud to you, while you make notes about their accuracy, rate, phrasing, and comprehension. By re-assessing individual students’ fluency, you can more accurately place students in new fluency levels for the next STARI unit.

Materials:

- Timer
- Student Snapshot Recording Form
  
  for teacher use
  
  1 copy per student

- Fluency passage
  
  for student use
  
  can be used with multiple students

Start by using a passage one level above the students’ current level for a “cold read.” Students currently reading at level D can use a D passage.
Post-Assessment

Administering the Running Record
1. Pull a student to a quiet part of the room to work with you one-on-one.
2. Set the timer for one minute and ask the student to read aloud.
3. As the student reads aloud, mark errors with a dot above the word. You may use your phone or an audio recorder to record the student, if possible.
4. At the end of one minute, mark the student's place in the text. Prompt the student to continue reading until the end of the passage.
5. Ask comprehension questions at the end of the passage and record the student responses.
6. Calculate and record the words correct per minute (WCPM). Record observations about comprehension, phrasing, and expression.
7. Evaluate the snapshot to determine if a new fluency level is needed.

Progress Conference with Students (Provide immediate feedback)
1. Review running record with student, noting areas of praise and areas to polish.
   - Praise for self-correcting or using strategies taught in the mini-lessons.
   - Provide feedback on an area for the student to polish.
2. Set a fluency goal for the next STARI unit.
   - Identify and discuss the strategies that the student will need to be successful and continue to grow.

Count as Error:
- Substitutes another word for a word in the text
- Omits a word
- Inserts a word
- Has to be told a word
- Mispronounces a word (not a result of dialect; creates a nonword)

Do not count as Error:
- Self-correction (when a child realizes her or his error and corrects it, the previous substitution is not scored as an error)
- Proper names (if a child mispronounces a proper name, e.g., Giuliani, do not count this as an error)
Bullying: A Real Problem (1.1)

Notes:
Bullying: A Real Problem (1.1)

In fifth grade, Mike had plenty of friends. But when he entered middle school, the trouble started. Other kids began to bully him. They spread rumors about Mike. When he walked down the hallway, students shot rubber bands at him. “The message was just go away,” he said. “Don’t even try to talk to us.” Mike didn’t know why he became a target. The bullying even became physical. Kids pushed him in the lunch line.

Mike is one of thousands of students who get bullied each day. Bullying is mean or aggressive behavior that gets repeated. Bullying reaches a peak in the teenage years. Some students bully to feel powerful. Others bully to be part of a group. Sometimes bullies are put down or abused at home. They may use bullying to feel more confident.

When bullies are teasing or hurting a victim, there often are bystanders. They may be laughing or watching silently. Some bystanders feel power when someone else gets hurt. Or perhaps they are afraid. After all, if you stick up for the victim, you may become a target yourself.

School anti-bullying programs try to help students understand bullies. They give an overview of what bullying looks like and how it can be stopped. Bystanders can be important in stopping bullying. A bystander can undercut a bully by refusing to laugh or watch. “The community can take away the bully’s power,” one teacher says.

Comprehension Questions

- What is bullying?
- What can bystanders do to stop bullying?
“Hey, metal face!” When the victim shows she's hurt, the bully will respond, “What happened to your sense of humor?” This is called a “take-back.” Take-backs mean you don’t take responsibility for your words or actions.

Many people tease their friends and family members. Brothers might kid each other about klutzy behavior. Girls who are friends can make jokes about each others’ cheesy tastes in music. But this kind of teasing isn’t bullying.

Bullying is supposed to be hurtful—that’s what it’s all about. Bullying involves unequal power. It isn’t joking among friends who share the same status. Bullying also continues over an extended time. It isn’t just a one-time putdown or a slam.

While some think that bullies don’t have many friends, some bullies are at the top of the social ladder. In fact, one kind of female bully, the queen bee, uses putdowns to keep her power as a leader. The queen bee travels with a posse, her loyal sidekicks. Her mean behavior to other girls sends a reward message to her posse. “See, you’re better than these girls I pick on.” But her nasty treatment of others can also serve as a threat. “Step out of line, and you can end up on the victims list.”

As the old saying goes, sometimes the worm turns. The queen’s sidekicks may decide they don’t want friendships that are based on hurting other girls. Everyone loses when being mean is queen!

**Comprehension Questions**

What are some important differences between teasing and bullying?

**Sample Response:** Some differences are: when you’re teasing, they’re harmless jokes.

**Student’s Answer:**

How does a queen bee keep her power?

**Sample Response:** They travel with a posse of other mean girls.

**Student’s Answer:**

**Oral Reading Fluency Scale** (adapted from the NAEP Oral Reading Fluency Scale)

<table>
<thead>
<tr>
<th>Fluency</th>
<th>Level 4</th>
<th>Level 3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fluent</td>
<td>Reads primarily in larger, meaningful phrase groups. Some or most of the passage is read with expressive interpretation.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Reads primarily in three- or four-word phrase groups. Some small groupings may be present. Most phrases are meaningful (i.e., “The dog barked / when I ran past,” not “The dog barked when / I ran / past.”). Reads with some expression.</td>
</tr>
<tr>
<td>Nonfluent</td>
<td>Level 2</td>
<td>Level 1</td>
</tr>
<tr>
<td></td>
<td>Reads primarily in two-word phrases with some three- or four-word groupings. Some word-by-word reading may be present. Phrase groupings are not necessarily meaningful. Reads with little expression.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Reads primarily word-by-word. Occasional two-word or three-word phrases may occur. Phrase groupings are not meaningful. May include long pauses and repetitions of words. Reads with little to no expression.</td>
</tr>
</tbody>
</table>

**Assigning Fluency Levels**

Circle the student’s score in each row. Then identify the appropriate fluency level. If scores are split evenly between levels, select the lower level.

<td>In July 2010, a video of two girls fighting each other was posted on YouTube. The video showed the girls giving poisonous looks to each other. Then they started viciously punching and hitting. This was not an isolated incident. Many videos of girls fighting are now online. Boys used to do most of the physical fighting in schools. But now girls are responsible for a growing number of school fights. The internet can help spread a culture of violence among girls. Some videos of girls fighting have as many as 8 million views. Ms. Anderson from King School didn't know about fighting videos until recently. “Girls and boys were crowded around a computer in my classroom. It was shocking to me as a teacher. Even though the fight was only on video, my students were taking sides and cheering.” People who watch videos of brutal fights can replay them repeatedly. They don’t forget the violent scenes or move on from them easily. Parents and teachers worry that videos may make fighting seem acceptable. Teens who post fight videos may not realize that the police can watch, too. Sometimes police find video records helpful for finding the people involved in a fight. For example, a Massachusetts girl was arrested after she was filmed attacking another girl. But experts say that punishment cannot be the only solution. Students, parents, and teachers need to work together to prevent harmful fighting between girls before it starts.</td>
