1.2 Safeguarding children, young people and vulnerable adults

(Including managing allegations of abuse against a member of staff)

Policy statement

Our setting will work with children, parents and the community to ensure the rights and safety of children and to give them the very best start in life. Our Safeguarding Policy is based on the three key commitments of the Pre-school Learning Alliance Safeguarding Children Policy.

Procedures

We carry out the following procedures to ensure we meet the three key commitments of the Alliance’s Safeguarding Children Policy, which incorporates responding to child protection concerns.

Key commitment 1

We are committed to building a ‘culture of safety’ in which children are protected from abuse and harm in all areas of our delivery.

Staff and volunteers

- Our designated persons (on the staff team) who co-ordinate child protection issues are: Mrs Wendy Terry and Miss Kate Austin, so that an officer is always available.
- When the setting is open, but the designated persons are not on site, a suitably trained deputy is available at all times for staff to discuss safeguarding concerns.
- Our designated officer (a member of the trustees) who oversees this work is our chairperson.
- The designated person(s), the suitably trained deputy and the designated officer ensure they have relevant links with statutory and voluntary organisations with regard to safeguarding.
- The designated persons(s) (and the person who deputises for them) understands BLCCB safeguarding procedures, attends relevant BLCC training at least every two years and refreshes their knowledge of safeguarding at least annually.
- We ensure that all our staff are trained to understand our safeguarding policies and procedures and that parents are made aware of them too.
- All staff understand that safeguarding in their responsibility.
- All staff have an up-to-date knowledge of safeguarding issues, are alert to potential indicators and signs of abuse and neglect and understand their professional duty to ensure safeguarding and child protection concerns are reported to the local authority children’s social work team or the NSPCC. They receive updates on safeguarding at least annually.
All staff are confident to ask questions in relation to any safeguarding concerns and know not to just take things at face value but can be respectfully sceptical.

All staff understand the principles of early help (as defined in *Working Together to Safeguard Children*, 2018) and are able to identify those children and families who may be in need of early help and enable them to access it.

All staff understand the thresholds of significant harm and understand how to access services for families, including for those families who are below the threshold for significant harm, according to arrangements published by the BLCB or safeguarding partners in areas where the safeguarding partners have replaced the BLCB.

All staff understand their responsibilities under General Data Protection Regulation and the Data Protection Act 2018, and understand relevant safeguarding legislation, statutory requirements and local safeguarding partner requirements and ensure that any information they may share about parents and their children with other agencies is shared appropriately and lawfully.

We will support families to receive appropriate early help by sharing information with other agencies in accordance with statutory requirements and legislation.

We will share information lawfully with safeguarding partners and other agencies where there are safeguarding concerns.

We will be transparent about how we lawfully process data.

All staff understand how to escalate their concerns in the event that they feel either the local authority and/or their own organisation has not acted adequately to safeguard and know how to follow local safeguarding procedures to resolve professional disputes between staff and organisations.

All staff understand what the organisation expects of them in terms of their required behaviour and conduct, and follow our policies and procedures on positive behaviour, online safety (including use of cameras and mobile phones), whistleblowing and dignity at work.

Children have a key person to build a relationship with, and are supported to articulate any worries, concerns or complaints that they may have in an age appropriate way.

All staff understand our policy on promoting positive behaviour and follow it in relation to children showing aggression towards other children.

Adequate and appropriate staffing resources are provided to meet the needs of children.

Applicants for posts within the setting are clearly informed that the positions are exempt from the Rehabilitation of Offenders Act 1974.

Enhanced criminal records and barred lists checks (DBS) and other suitability checks are carried out for staff and volunteers prior to their post being confirmed, to ensure that no disqualified person or unsuitable person works at the setting or has access to the children.

Where applications are rejected based on information disclosed, applicants have the right to know and to challenge incorrect information.

Volunteers must:

- be aged 17 or over;
- be considered competent and responsible;
- receive a robust induction and regular supervisory meetings;
- be familiar with all the settings policies and procedures;

- Volunteers do not work unsupervised.
- Information is recorded about staff qualifications, and the identity checks and vetting processes that have been completed including:
  - the DBS disclosure reference number;
  - the date the disclosure was obtained; and
  - details of who obtained it.

- All staff and volunteers are informed that they are expected to disclose any convictions, cautions, court orders or reprimands and warnings which may affect their suitability to work with children (whether received before or during their employment with us).
- From 31 August 2018, staff and volunteers in childcare settings that are not based on domestic premises are not required to notify their leader if anyone in their household (including family members, lodgers, partners etc.) has any relevant convictions, cautions, court orders, reprimands or warnings or has been barred from, or had registration refused or cancelled in relation to any childcare provision or have had orders made in relation to care of their children.

- Staff receive regular supervision, which includes discussion of any safeguarding issues, and their performance and learning needs are reviewed regularly.
- In addition to induction and supervision, staff are provided with clear expectations in relation to their behaviour.
- We notify the Disclosure and Barring Service of any person who is dismissed from our employment, or resigns in circumstances that would otherwise have led to dismissal for reasons of a child protection concern.

Visitors

- Procedures are in place to record the details of visitors to the setting.
- Security steps are taken to ensure that we have control over who comes into the setting so that no unauthorised person has unsupervised access to the children. Visitors to the setting i.e. outside professionals, contractors, and inspectors will be asked to show their ID before they may enter the building.

- We have procedures for recording the details of visitors to the setting. Prospective parents are asked to telephone (or email) in advance of their visit so that a member of staff can be made available to show them around – they will always be escorted during their visit.
- Steps are taken to ensure children are not photographed or filmed on video for any other purpose than to record their development or their participation in events organised by us. Parents sign a consent form and have access to records holding visual images of their child. Staff do not use personal cameras or filming equipment to record images.

- Personal mobile phones are not used where children are present.

Managing Risk
Any personal information is held securely and in line with data protection requirements and guidance from the Information Commissioner’s Office (ICO).

The designated person in the setting has responsibility for ensuring that there is an adequate online policy in place.

We keep a written record of all complaints and concerns including details of how they were responded to.

We ensure that robust risk assessments are completed, that they are seen and signed by all relevant staff and that they are regularly reviewed and updated, in line with our health and safety policy.

The designated persons will communicate with each other to help them to undertake their role adequately and offer advice, guidance, supervision and support.

The designated person(s) will ensure that there is no delay in any referrals being made to the children’s social worker services, the LADO, Ofsted or Riddor.

Key commitment 2

We are committed to responding promptly and appropriately to all incidents, allegations or concerns of abuse that may occur and to work with statutory agencies in accordance with the procedures that are set down in ‘What to do if you’re worried a child is being abused’ (HMG 2015) and the Care Act 2014.

Peer on Peer Abuse

If staff have cause to have concern about a pupil’s sexual behaviour in the setting, they should speak to one of our Designated Safeguarding Officers as soon as possible. For more information on hurtful behaviour please see policy 7.1 Promoting Positive Behaviour.

Responding to suspicions of abuse

- We acknowledge that abuse of children can take different forms - physical, emotional, and sexual, as well as neglect.
- We ensure that all staff have an understanding of the additional vulnerabilities that arise from special educational needs and/or disabilities, plus inequalities of race, gender, language, religion, sexual orientation or culture, and that these receive full consideration in relation to child, young person or vulnerable adult protection.
- When children are suffering from physical, sexual or emotional abuse, or experiencing neglect, this may be demonstrated through:
  - significant changes in their behaviour;
  - deterioration in their general well-being;
  - their comments which may give cause for concern, or the things they say (direct or indirect disclosure);
  - changes in their appearance, their behaviour, or their play;
  - unexplained bruising, marks or signs of possible abuse or neglect; and
  - any reason to suspect neglect or abuse outside the setting.
We understand how to identify children who may be in need of early help, how to access services for them.

We understand that we should refer a child who meets the s17 Children Act 1989 child in need definition to local authority children’s social work services.

We understand that we should refer any child who may be at risk of significant harm to local authority children’s social work services.

We are aware of the ‘hidden harm’ agenda concerning parents with drug and alcohol problems and consider other factors affecting parental capacity and risk, such as social exclusion, domestic violence, radicalisation, mental or physical illness and parent’s learning disability.

We are aware that children’s vulnerability is potentially increased when they are privately fostered and when we know that a child is being cared for under a private fostering arrangement, we inform our local authority children's social care team.

We are prepared to take action if we have concerns about the welfare of a child who fails to arrive at the session when expected. The staff will take immediate action to contact the child’s parent to seek an explanation for the child’s absence and be assured that the child is safe and well. If no contact is made with the child’s parents and the staff member has reason to believe that the child is at risk of significant harm, they will inform the designated person, and the relevant professionals are contacted immediately and BSCB procedures are followed. If the child has current involvement with social care the social worker is notified on the day of the unexplained absence.

We are aware of other factors that affect children’s vulnerability that may affect, or may have affected, children and young people using our provision, such as abuse of children who have special educational needs and / or disabilities; fabricated or induced illness; child abuse linked to beliefs in spirit possession; sexual exploitation of children, including through internet abuse; Female Genital Mutilation and radicalisation or extremism.

In relation to radicalisation and extremism, we follow the Prevent Duty guidance for England and Wales published by the Home Office and BSCB procedures on responding to radicalisation.

The designated person completes online Channel training, online Prevent training and attends local WRAP training where available to ensure they are familiar with the local protocol and procedures for responding to concerns about radicalisation.

We are aware of the mandatory duty that applies to teachers and health workers to report cases of Female Genital Mutilation to the police. We are also aware that early years practitioners should follow local authority published safeguarding procedures to respond to FMG and other safeguarding issues, which involves contacting police if a crime of FMG has been or may be about to be committed.

We also make ourselves aware that some children and young people are affected by gang activity, by complex, multiple or organised abuse, through forced marriage or honour based violence or may be victims of child trafficking. While this may be less likely to affect young children in our care, we may become aware of any of these factors affecting older children and young people who we may come into contact with.
If we become concerned that a child may be a victim of modern slavery or human trafficking, we will refer to the National Referral Mechanism, as soon as possible and refer and/or seek advice to the local authority children’s social work service and the police.

We will be alert to the threat's children many face from outside their families such as that posed by organised crime groups such as county lines and child sexual exploitation, online use and from within peer groups and the wider community.

Where we believe that a child in our care or that is known to us may be affected by any of these factors we follow the procedures below for reporting child protection and child in need concerns and follow the BSCB procedures, or when they come into force replacing BSCB, we will follow the local procedures as published by the local safeguarding partners.

Where such indicators are apparent, the child's key person makes a dated record of the details of the concern and discusses what to do with the member of staff who is acting as the 'designated person'. The information is stored on the child's personal file.

In the event that a staff member or volunteer is unhappy with the decision made by the designated person(s) in relation to whether to make a safeguarding referral they must follow escalation procedures.

We refer concerns about the children's welfare to the local authority children’s social care team and co-operate fully in any subsequent investigation. NB In some cases this may mean the police, or another agency identified by the Bucks Safeguarding Children Board.

We respond to any disclosures sensitively and appropriately and take care not to influence the outcome either through the way we speak to children or by asking questions of children (although we may check out/clarify the details of what we think they have told us with them).

We take account of the need to protect young people aged 16-19 as defined by the Children Act 1989. This may include students or school children on work placement, young employees or young parents. Where abuse or neglect is suspected we follow the procedure for reporting any other child protection concerns. The views of the young person will always be taken into account in an age appropriate way, but the setting may override the young person’s refusal to consent to share information if it feels that it is necessary to prevent a crime from being committed or intervene where one may have been, or to prevent harm to a child or adult. Sharing confidential information without consent is done only where not sharing it could be worse than the outcome of having shared it.

All staff are also aware that adults can also be vulnerable and know how to refer adults who are in need of community care services.

All staff know that they can contact the NSPCC whistleblowing helpline if they feel that or organisation and the local authority have not taken appropriate action to safeguard a child and this has not been addressed satisfactorily through organisational escalation and professional challenge procedures.

We have a whistle blowing policy in place.

Staff / volunteers know they can contact the organisation Public Concern at Work for advice relating to whistleblowing;

Recording suspicions of abuse and disclosures

Where a child makes comments to a member of staff that give cause for concern (disclosure), or a member of staff observes signs or signals that give cause for concern,
such as significant changes in behaviour; deterioration in general well-being; unexplained bruising, marks or signs of possible abuse or neglect; that member of staff:

- listens to the child, offers reassurance and gives assurance that she or he will take action;
- does not question the child, although it is OK to ask questions for the purposes of clarification;
- makes a written record that forms an objective record of the observation or disclosure that includes: the date and time of the observation or the disclosure; the exact words spoken by the child as far as possible; the name of the person to whom the concern was reported, with the date and time; and the names of any other person present at the time.

- These records are signed and dated and kept in the child’s personal file, which is kept securely and confidentially.
- A member of staff acting as the ‘designated person’ is informed of the issue at the earliest opportunity, and always within one working day.
- Where Bucks Safeguarding Children Board or local safeguarding partners safeguarding procedures stipulates the process for recording and sharing concerns, we include those procedures alongside this procedure and follow the steps set down by Bucks Safeguarding Children Board.

Making a referral to the local authority children’s social care team

- The Pre-school Learning Alliance's publication *Safeguarding Children* contains procedures for making a referral to the local children’s social care team, as well as a template form for recording concerns and making a referral.
- We keep a copy of this document alongside the procedures for recording and reporting set down by the Bucks Safeguarding Children Board, which we follow where local procedures differ from those of the Pre-school Learning Alliance.

Escalation process

- If we feel that a referral made has not been dealt with properly or that concerns are not being addressed or responded to, we will follow the BSCB escalation process.
- We will ensure that staff are aware of how to escalate concerns.
- We will follow local procedures published by the BSCB or safeguarding partners to resolve professional disputes.

Informing parents

- Parents are normally the first point of contact. Concerns are normally discussed with parents to gain their view of events, unless it is felt that this may put the child at risk or may interfere with the course of a police investigation, or may unduly delay the referral, or unless it is otherwise unreasonable to seek consent. Advice will be sought from social care, or in some circumstances police, where necessary.
- Parents are informed when we make a record of concerns in their child’s file and that we also make a note of any discussion we have with them regarding a concern.
If a suspicion of abuse warrants referral to social care, parents are informed at the same time that the referral will be made, except where the procedures of the Bucks Safeguarding Children Board does not allow this, for example, where it is believed that the child may be placed at risk.

This will usually be the case where the parent is the likely abuser

If there is a possibility that advising a parent beforehand may place a child at greater risk (or interfere with a police response) the designated person(s) should consider seeking advice from children’s social care, about whether or not to advise parents beforehand, and should record and follow the advice given.

Liaison with other agencies and multi-agency working

We work within Bucks Safeguarding Children Board (BSCB) guidelines. Our BSCB First Response Team poster is on display and each member of staff has their own copy.

The current version of ‘What to do if you’re worried a child is being abused’ is available for parents and staff, and all staff are familiar with what they need to do if they have concerns.

We have procedures for contacting the local authority regarding child protection issues and concern about children’s welfare, including maintaining a list of names, addresses and telephone numbers of social workers, to ensure that it is easy, in any emergency, for the setting and children's social care to work well together. A follow up email will be made immediately to the First Response team once a telephone referral has been made.

We notify Ofsted of any incident or accident and any changes in our arrangements which may affect the well-being of children or where an allegation of abuse is made against a member of staff (whether the allegations relate to harm or abuse committed on our premises or elsewhere). Notifications to Ofsted are made as soon as is reasonably practicable, but at the latest within 14 days of the allegations being made.

Contact details for the local National Society for the Prevention of Cruelty to Children (NSPCC) are also kept.

Allegations against staff and persons in position of trust (see also Policy 2.3 Whistle Blowing)

We ensure that all parents know how to complain about the behaviour or actions of staff or volunteers within the setting, or anyone living or working on the premises occupied by the setting, which may include an allegation of abuse.

We ensure that all staff volunteers and anyone else working in the setting knows how to raise concerns that may have about the conduct or behaviour of other people including staff/colleagues.

We differentiate between allegations, and concerns about the quality of care or practice complaints and have a separate process for responding to complaints.

We respond to any inappropriate behaviour displayed by members of staff, volunteers or any other person working with the children, which includes:

- inappropriate sexual comments;
- excessive one-to-one attention beyond the requirements of their usual role and responsibilities, or inappropriate sharing of images.

We will recognise and respond to allegations that a person who works with children has:
- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates they may pose a risk or harm to children

We respond to any concerns raised by staff and volunteers who know how to escalate their concerns if they are not satisfied with our response.

We ensure that all staff or volunteers know how to raise concerns about a member of staff or volunteer within the setting. We respond to any concerns raised by staff and volunteers who know how to escalate their concerns if they are not satisfied with our response.

We respond to any disclosure by children or staff that abuse by a member of staff or volunteer within the setting, or anyone living or working on the premises occupied by the setting, may have taken, or is taking place, by first recording the details of any such alleged incident.

We refer any such complaint immediately to the Local Authority Designated Officer (LADO) to investigate and/or offer advice. The LADO’s telephone number is: 01296 382070 or you can email them on: secure-LADO@buckscc.gcsx.gov.uk

We also report any such alleged incident to Ofsted (unless advised by LADO that this is unnecessary due to the incident not meeting the threshold), as well as what measures we have taken. We are aware that it is an offence not to do this.

We co-operate entirely with any investigation carried out by children’s social care in conjunction with the police.

Where the management trustees and children’s social care agree it is appropriate in the circumstances, the member of staff or volunteer will be suspended for the duration of the investigation. This is not an indication of admission that the alleged incident has taken place, but is to protect the staff, as well as children and families throughout the process. Where it is appropriate and practical and agreed with LADO, we will seek to offer an alternative to suspension for the duration of the investigation, if an alternative is available that will safeguard children and not place the affected staff or volunteer at risk.

**Disciplinary action**

Where a member of staff or volunteer has been dismissed due to engaging in activities that caused concern for the safeguarding of children or vulnerable adults, we will notify the Disclosure & Barring Service (DBS) of relevant information, so that individuals who pose a threat to children and vulnerable groups can be identified and barred from working with these groups.

**Key commitment 3**

We are committed to promoting awareness of child abuse issues throughout our training and learning programmes for adults. We are also committed to empowering young children, through our early childhood curriculum, promoting their right to be strong, resilient and listened to.

**Training**

- Training opportunities are sought for all adults involved in the setting to ensure that they are able to recognise the signs and signals of possible physical abuse, emotional abuse, sexual abuse (including child sexual exploitation) and neglect and that they are aware of the local
authority guidelines for making referrals. Training opportunities should also cover extra familial threats such as online risks, radicalisation and grooming, and how to identify and respond to families who may be in need of early help, and organisational safeguarding procedures.

- Designated persons receive appropriate training, as recommended by the Bucks Safeguarding Children Board, every two years and refresh their knowledge and skills at least annually.
- We ensure that all staff know the procedures for reporting and recording any concerns they may have about the provision.
- We ensure that all staff receive updates on safeguarding via emails, newsletters, online training and/or discussion at staff meetings at least once a year.

Planning

- The layout of the rooms allows for constant supervision. No child is left alone with staff or volunteers in a one-to-one situation without being within sight and/or hearing of other staff or volunteers. (No visitors or volunteers will be allowed access to the children’s toilet area).

Curriculum

- We introduce key elements of keeping children safe into our programme to promote the personal, social and emotional development of all children, so that they may grow to be strong, resilient and listened to and so that they develop an understanding of why and how to keep safe.
- We create within the setting a culture of value and respect for individuals, having positive regard for children's heritage arising from their colour, ethnicity, languages spoken at home, cultural and social background.
- We ensure that this is carried out in a way that is developmentally appropriate for the children.

Confidentiality

- All suspicions and investigations are kept confidential and shared only with those who need to know. Any information is shared under the guidance of the Bucks Safeguarding Children Board./Local Safeguarding Partners and in line with the GDPR, Data Protection Act 2018, and Working Together 2018.

Support to families

- We believe in building trusting and supportive relationships with families, staff and volunteers.
- We make clear to parents our role and responsibilities in relation to child protection, such as for the reporting of concerns, information sharing, monitoring of the child, and liaising at all times with the local children’s social care team.
- We will continue to welcome the child and the family whilst investigations are being made in relation to any alleged abuse.
- We follow the Child Protection Plan as set by the child’s social care worker in relation to the setting’s designated role and tasks in supporting that child and their family, subsequent to any investigation.
- We will engage with any child in need plan or early help plan as agreed.
- Confidential records kept on a child are shared with the child’s parents or those who have parental responsibility for the child in accordance with the Confidentiality and Client Access to Records procedure and only if appropriate under the guidance of the Bucks Safeguarding Children Board.

**EYFS requirement**

Providers must have and implement a policy, and procedures, to safeguard children.

**Rights of the Child**

**Article 3:** The best interests of the child must be a top priority in all things that affect children.

**Article 6:** Every child has the right to life. Governments must do all they can to make sure that children survive and develop to their full potential.

**Article 12:** Every child has the right to have a say in all matters affecting them, and to have their views taken seriously.

**Article 13:** Every child must be free to say what they think and to seek and receive all kinds of information, as long as it is within the law.

**Article 16:** Every child has the right to privacy. The law should protect the child’s private, family and home life.

**Article 19:** Governments must do all they can to ensure that children are protected from all forms of violence, abuse, neglect and bad treatment by their parents or anyone else who looks after them.

**Article 24:** Every child has the right to the best possible health. Governments must work to provide good quality health care, clean water, nutritious food and a clean environment so that children can stay healthy. Richer countries must help poorer countries achieve this.

**Article 33:** Governments must protect children from the use of illegal drugs.

**Article 34:** Governments must protect children from sexual abuse and exploitation.

**Article 35:** Governments must ensure that children are not abducted or sold.

**Article 36:** Governments must protect children from all other forms of bad treatment.

**Article 37:** No child shall be tortured or suffer other cruel treatment or punishment. A child should be arrested or put in prison only as a last resort and then for the shortest possible time. Children must not be in prison with adults. Children who are locked up must be able to keep in contact with their family.

**Legal framework**

*Primary legislation*
- Children Act (1989 s47)
- Protection of Children Act (1999)
- The Children Act (2004 s11)
- Children and Social Work Act 2017
- Childcare Act 2016
- Child safeguarding Practice Review and Relevant Agency (England) Regulations 2018

Secondary legislation
- Criminal Justice and Court Services Act (2000)
- Equalities Act (2010)
- General Data Protection Regulations (GDPR) (2018)
- Childcare (Disqualification) Regulations 2009
- Children and Families Act 2014
- Care Act (2014)
- Serious Crime Act 2015
- Counter-Terrorism and Security Act (2015)
