## A WEBSITE WITH INSITE

Create a completely personalized customer experience with inSite. This unique feature is what adds the spark of intelligence to your website. You have absolute control over what visitors see based off their physical location, time of day, number of previous visits and more.

## CAPTURE MORE CUSTOMERS

A website is more than just a place customers go to find information; it's where they go to engage with a business. That's why every Responsive Website we build includes widgets like Click-to-Call, Map features, Online Scheduling and eCommerce tools, that make it easy for customers to take action. In fact, 1 in 5 visits to a Responsive site results in a phone call to the business.

# THE MORE YOU CATER TO YOUR SITE'S VISITORS, THE MORE CUSTOMERS YOU'LL HAVE

inSite adds the spark of intelligence to your website by creating ultra-personalized experiences.

Anticipate your visitors' needs and decide what sets off your inSite based on time of day, number of previous visits, physical location and more.

Select what you want your site to display. This could be a coupon, Click-to-Call button, video or anything else you think will catch their attention.

# SPECIAL OFFER

## GALLATIN FAMILY DENTISTRY

Every year for a month before school picture day, Gallatin Family Dentistry shows a special offer for 30% off teeth whitening.

# ECOMMERCE, SIMPLIFIED

Your website will be equipped with a fully responsive store. With our generous eCommerce tools, product descriptions & pages are fully customizable. This allows managing your store's design incredibly simple. You can create a 10-product store or increase your online shelf space to either 100 or 2,500 products. Our responsive web solution & platform allows you to grow as your business grows.

## ACCEPTING PAYMENTS AND COUPONS

Our generous eCommerce tools are integrated with secure, trusted payment providers like PayPal, Stripe, Authorize.net and more, with complete control over tax settings by state & country. You can even deal out great deals by creating coupon codes for a particular product or overall order for your customers to use at checkout.

## ORGANIZING AND TRACKING INVENTORY

Our generous ecommerce tools provide you with everything you need to manage your inventory. You can split your products into various categories (e.g. shirts, pants, neckties, etc.), making it easier for potential customers to browse your store. You'll also receive an email when you're running low on a particular item. And speaking of low stock, you can display the amount of stock left in your store to give visitors a sense of urgency and encourage them to buy.

The screenshot shows a user interface for managing a product catalog. At the top, there are four buttons: 'New product' (with a plus sign icon), 'Modify' (with a pencil icon), 'Delete' (with a minus sign icon), and 'Import products..'. Below these buttons is a table with the following data:

	SKU	Name
<input type="checkbox"/>	WE3202	<u>Bench</u>
<input type="checkbox"/>	12WER4	<u>Cabin</u>
<input type="checkbox"/>	BF2341	<u>dining table</u>
<input type="checkbox"/>	WE567S	<u>Shelves</u>
<input type="checkbox"/>	A45SF	<u>Stool</u>
<input type="checkbox"/>	AA232	Wooden frame

## SHIPPING OPTIONS

Ship domestically or internationally with FedEx, UPS, USPS and more. Do you want to offer overnight shipping or just standard? It's entirely up to you. Our generous eCommerce tools allow you to customize your customers' shipping options. Shipping rates are under your domain too. Set flat rates or have them calculated on the fly by weight of product.
