"Her range is her most important attribute."  
— *Variety*

"Her voice matches her looks ... in every sense of the word—a knock out!"  
— *Billboard*

"Stunning is the only way to describe the spell that gorgeous songstress Jan Daley wove into her show ... altogether impressive and entertaining evening with this singularly talented lady ... funny and heartwarming tales of her adventures with Mr. Hope. Following an utterly delightful soft-shoe tucked cleverly into 'I Won't Dance,' Ms Daley continued to amaze us by sitting at the grand piano and accompanying herself on a couple of her own terrific compositions. I highly urge you to put yourself in this gifted lady's company."

— *New York | Nightlife Exchange Magazine*

"[Daley] has a real feel for lyrics and puts plenty of feeling into her interpretations. Among the pieces are a swinging rendition of 'It's De-Lovely,' 'You Do Something To Me,' a medley of 'Two Sleepy People' and 'Hit The Road To Dreamland,' and a version of 'But Beautiful' that really shows off her warm voice."
