COMPANY PROFILE

Rayment Excavations is an Australian, family-owned and operated business that has been in operation since 1981.

Over 35 years of civil construction experience sets the foundation for a company that aims to provide a high quality, professional service to the Central Queensland Region.

Rayment Excavations is a local company employing local people and supporting our local communities. Consistency and longevity in the CQ Region means we know the area, we know the people and we know the best way to get the job done. We support CQ businesses and work in partnership with various other companies when the need arises.

CIVIL CONSTRUCTION

Our Civil Construction Supervisors are highly experienced in all facets of road construction and preparation with all of them sitting in speciality areas. Our collective qualifications include:

- Cert III Civil Construction Plant
- Cert IV Civil Construction Supervision
- Cert III Civil Construction Maintenance and Construction
- Diploma Project Management
- Cultural Heritage

Client Feedback

"Thanks for all the work done on our site, the boys that were involved are a credit to your team, good workmanship done in a safe manner and to the budget." Adrian

"Having operators that can bring the plant to site, then operator the plant is a real benefit to our job site, especially costwise" Matt

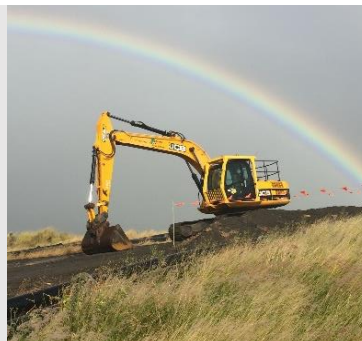

Safety is our Priority

Our construction crews are all inducted onto various sites within the Gladstone & CQ region so are ready to start work today.

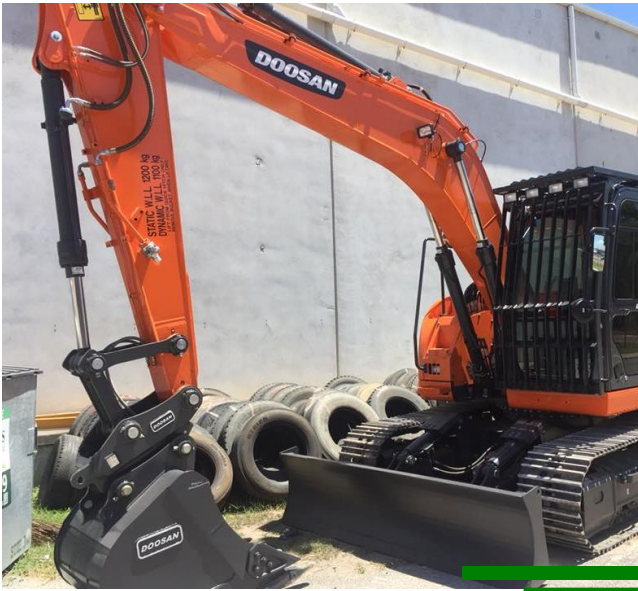

All employees have PPE and safety resources for all sites and are trained in the correct usage.

Our civil construction experience and capabilities include;

- Site preparation and bulk earthworks
- Road construction and maintenance
- Bridge works
- Commercial and domestic car parks
- Retaining wall construction
- Culvert and drainage works
- Drainage cleaning
- Building and landscaping
- Rail track and asset maintenance
- Quarry materials
- Hydro excavations
- Landscaping
- Marine rock walls
- Industrial and domestic works
- Fire breaks
- Retention pond clean outs
- Land reclamation

WET HIRE

Rayment Excavations operate a full range of earthmoving equipment and services which enables us to be versatile when working with clients on projects of various scopes and sizes.

Benefits of our wet hire services:

- Multi-skilled operators
- RII units of competencies for plant operations
- Industry inductions
- VOC compliant
- Heavy vehicle licences

By having operators that can operate a range of plant and trucks it allows our clients to get the best value for money and increases efficiency.

*A variety of attachments for our skid steers and excavators can get just about any job done!
Example: augers, slashers, mulchers, rock hammers, rotary hoe and more.*

Our current fleet extends to;

- Excavators – 3 tonne to 33 tonne capacity
- Front end loaders
- Backhoes
- Skid steer – wheeled and tracked
- Graders
- Dozers
- Tractors
- Rollers – 3 tonne to 14 tonne
- Trucks
 - 12 tonne tippers
 - Semi-side tippers
 - Semi tippers
 - Tippers and dog trailer combinations
- Water trucks
 - Domestic potable drinking water
 - Commercial dust suppression
- Low loader floats for mobilisation of heavy earthmoving equipment
- Mobile screening plant
- Mobile crushing plant
- Vac trucks
- Drain cleaner trucks

POTABLE WATER

We deliver potable water to your door.
For all domestic and industrial use.

VAC TRUCK

Our 'all terrain' medium size vacuum excavation trucks are ideal for accessing rough terrain.

Specifications and capabilities:

- Medium size
- All terrain
- Mine compliant
- Meets AS1210 specification
- 150cm (6inch) Juroop remote operated vacuum/water pump and boom
- 6500 litre capacity
- 220 litres per minute jetting pump.

These vehicles are ideal for:

- Vacuum excavation
- Non destructive digging
- Drain cleaning
- Culvert cleaning

Health and safety is our top priority on every job.

All projects are completed to a high standard without risk of incident or injury by implementing strict protocols and procedures ensuring our teams stay safe.

DRAIN CLEANING | CULVERT CLEANING

Rayment Excavations are able to provide efficient, all size culvert and drain cleaning using high pressure jetting and vacuum methods.

The vehicles come equipped with:

- retractable 6/8-inch boom,
- wide range of rotating nozzles
- root/vegetation cutting blades
- capable of up to 450rpm

We have the capacity to unblock and clean all sizes of pipes and culverts over large distances with minimising the risk of damage.

Our environmentally friendly Jet/Vac drain and culvert cleaning methods get the best results in almost all situations.

We take the upmost care to ensure that wastewater and debris are processed and disposed of correctly to ensure no damage is caused to the local environment and wildlife.

ROCKWALLS | RETAINING WALLS | STEPS |

For over 35 years our business has been built on quality workmanship and excellent service. We are proud to have a reputation for providing only the highest standard of work using excellent products, completing on time and within budget.

Granite rocks are sourced from our quarry so they can be handpicked to meet our clients needs. Rock retaining walls, garden retention, steps or even just granite rock features can really make a difference to your landscape.

Our experienced 'Rockwall Team' can give you advice on what options are available to best suit your needs and budget.

QUARRY LANDSCAPING PRODUCT

Quarry and landscaping products can be delivered in large or smaller amounts. With a wide range of products Rayment Excavations can accommodate your needs.

Our product range includes:

- Aggregate – 7mm to 200mm
- Ballast
- Concrete mix (sand and gravel mix)
- Crusher dust
- Deco granite – crushed, coarse or fine
- Fill – general or select
- Mulch – various options
- Road base – 2.1, 2.3, 2.5
- Rock – granite boulders
- Top soil
- Bedding sand
