

BB nuance Laminate Wetroom Panelling

The Hygienic Alternatives To Ceramic Tiles

beautiful bathrooms

Be inspired in your bathroom by what laminate can do. It's the perfect material for today's bathroom interiors, combining easy maintenance surfaces with stylish designs.

Our Nuance range offers wall panels and worksurfaces in a wide choice of designs and textures that can create individual interiors. Whether your look is traditional, modern or contemporary, there is a design that will work for you. From large scale luxury granites to pearlescent flecked stones, the designs are guaranteed to create luxurious and long-lasting style.

With Nuance you are assured of long term quality and a 15 year guarantee. Our panels are uniquely manufactured without wood, using a patented polyurethane core that is impervious to water. This is bonded with high pressure laminate and guarantees you a 100% waterproof decorative surface. The panels are so versatile that you can use them to create a true wetroom, to panel out a shower enclosure, go round the bath or behind the washbasin. Another unique style point is that there are no extrusions to detract from the look - just a seamless expanse of decorative design to appreciate.

Let Nuance help you create your perfect bathroom space to relax in and enjoy for years to come.

Front cover: Dolce Vita True Scale wall panelling in Radiance texture.

stylish and practical

Laminate panelling is an ideal alternative to tiling. There are no grout lines to scrub at and day to day cleaning is no more than a simple wipe down.

Nuance panels come in a choice of sizes that make them flexible in both design and use in any bathroom. They can be used to panel out the wall around the bath and even around the bath itself. The large format panels with postformed outer edges mean there are no extrusions and few visible joints to detract the eye.

So, you can lie back and enjoy the look you created with Nuance.

Pictured left: Travertine wall panelling in Honed texture.

Pictured detail: Dolce Vita True Scale wall panelling in Radiance texture.

The watertight panel join is virtually invisible to the eye

shower convert

You may be considering converting your bathroom into a shower room with a large enclosure.

If so, then Nuance panels are ideal because they come in 1200mm widths which can be jointed to give a seamless finish on the wall and on the internal corner. There are no extrusions to spoil your showering experience.

You could also use a panel for an easy maintenance waterproof surface behind the washbasin. It has a simple postformed top edge and joins neatly into a vertical panel to give you a smart finish and no dirt traps.

Pictured left and detail: Ice wall panelling in Radiance texture.

Postformed top edge provides a smart and easy clean finish

Panels form a neat, watertight join

watertight wetrooms

Why not make your ensuite into a wetroom style?

Nuance panels work perfectly with a flush-fitting shower tray. The panels are sealed with BB Complete, our specially developed waterproof adhesive, to allow them to sit directly on to the shower tray. And with a 2420mm height they can panel right up to the ceiling and work outside of the shower too for a decorative wall detail.

Pictured right and detail: Silver Travertine wall panelling in Honed texture.

The watertight panel join is virtually invisible to the eye

No trim required with the smart postformed edge

no trims or extrusions

Nuance is unique for being an extrusion-free system. The tongue and groove panels can be jointed with our bespoke adhesive. This gives you joints which are 100% watertight and also virtually invisible to the eye.

In addition to walls, the panels work beautifully around the bath for an integrated design look.

Pictured left and detail: Travertine wall panelling in Honed texture.

The watertight panel join is virtually invisible to the eye

No trim required with the smart postformed edge

easy installation

Our Nuance panels can be cut and installed in a matter of hours. So, if you're planning a bathroom project then you can cut down on the disruption and time taken compared to tiling.

And to finish off behind the basin, you can add a matching laminate upstand for a smart and practical detail.

Pictured right: Dolce Vita True Scale wall panelling and upstand in Radiance texture.

Pictured detail: Dolce Vita True Scale upstand in Radiance texture.

Perfect postformed edge is easy to clean

Matching laminate upstand to the wall panels gives a stylish finish

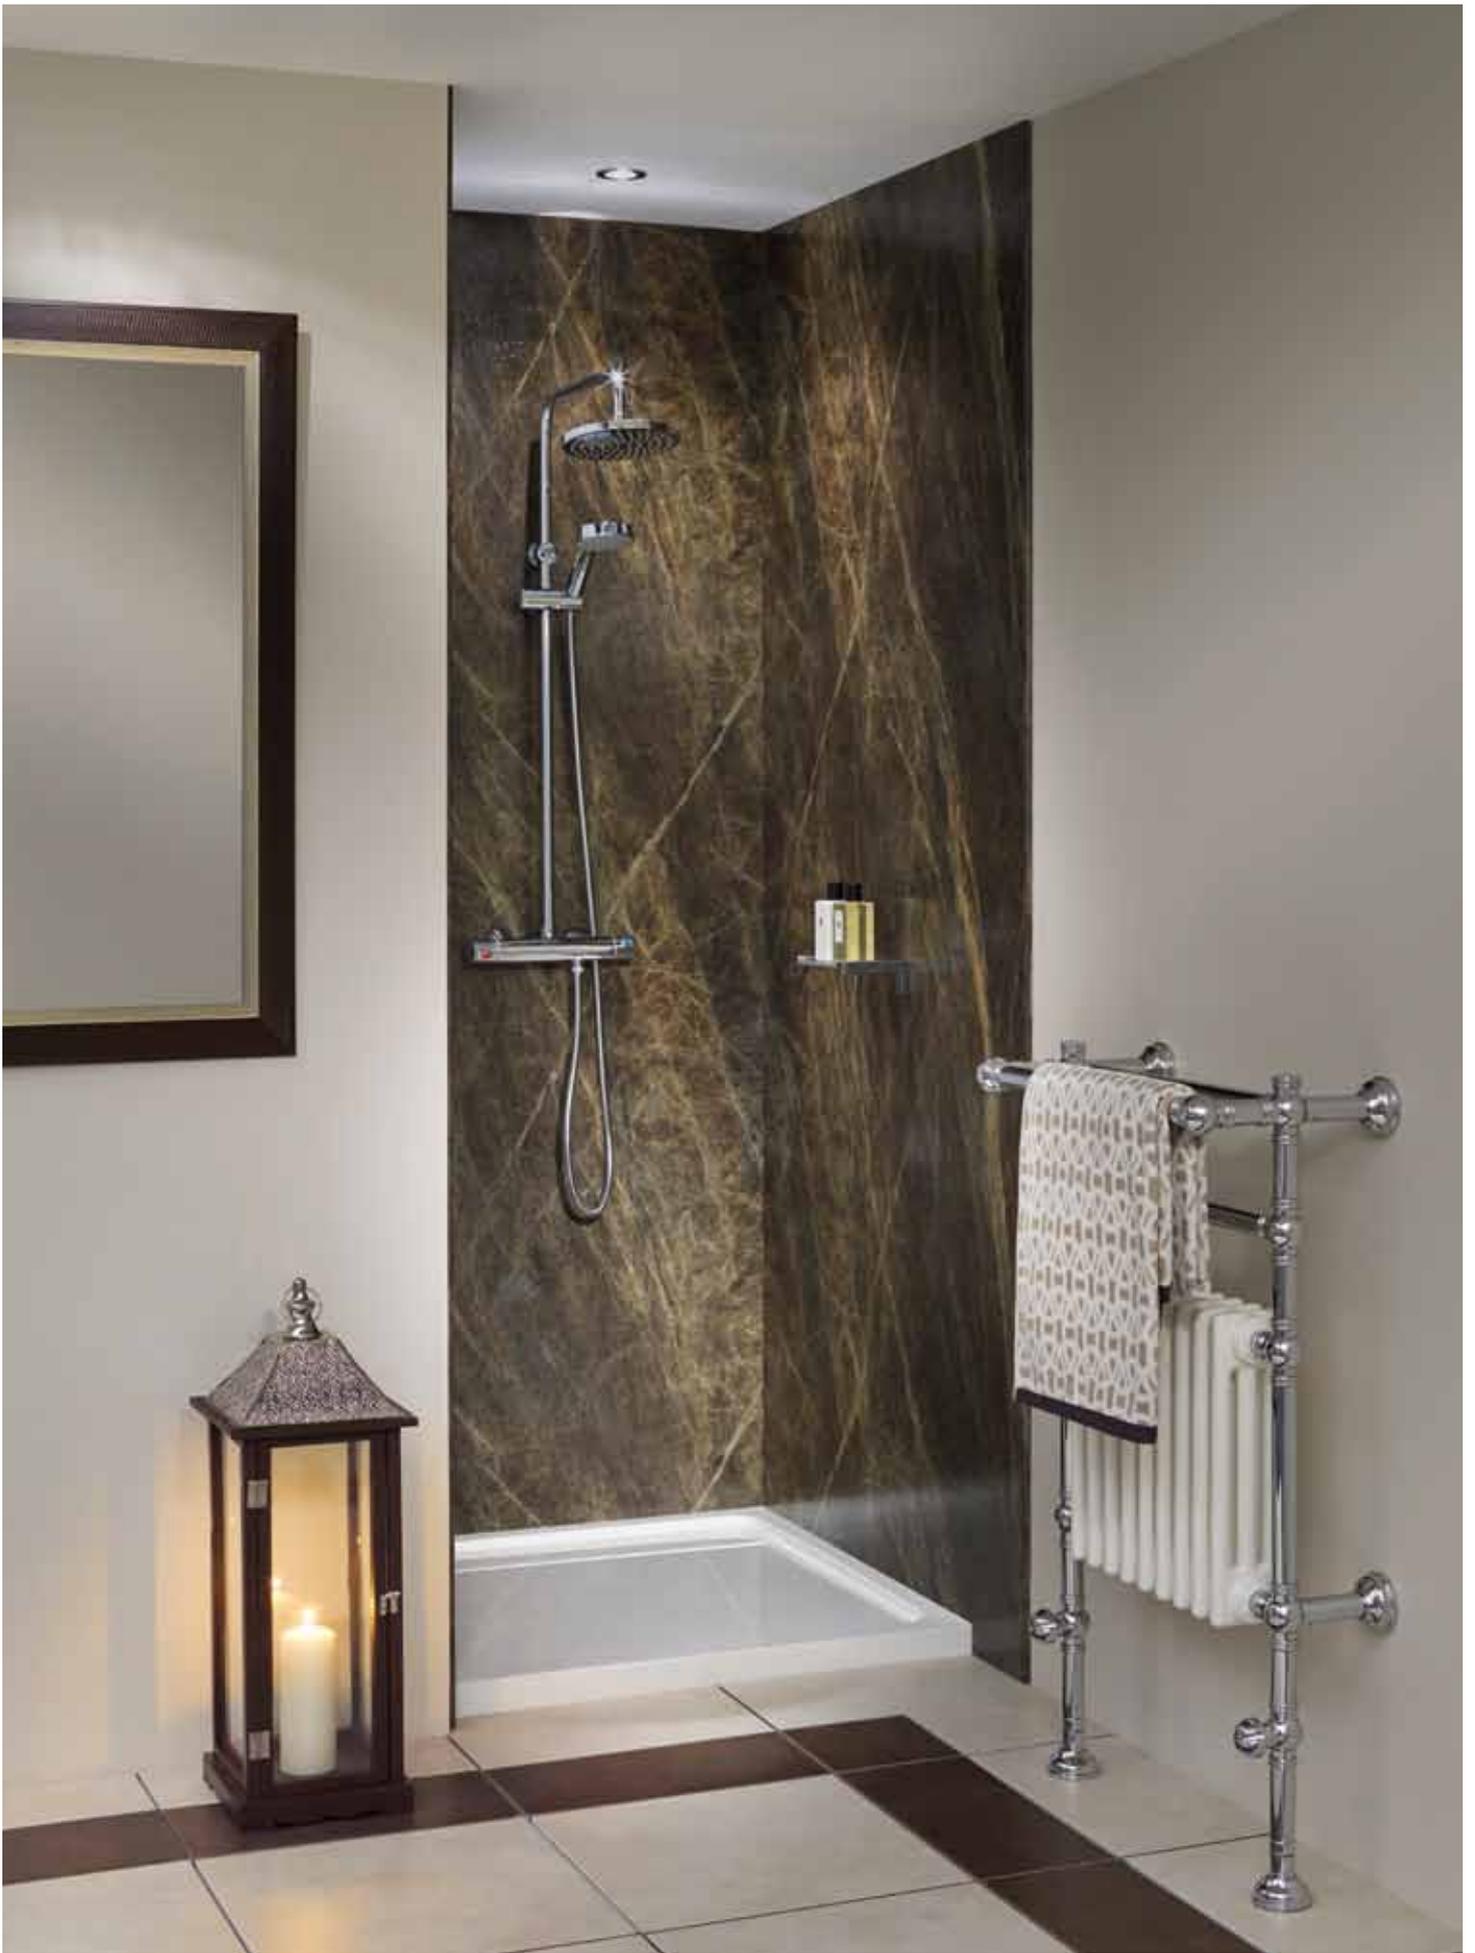

hotel at home

Create the boutique hotel look at home using the large scale printed granites and marbles available in our extensive choice of designs.

They are printed in life-like proportion and enhanced by realistic textures, mirroring the luxury of real stone but at a fraction of the price. They are also easier to clean and maintain too.

Who needs a hotel when you can have affordable luxury at home every day?

Pictured: Sequoia Slate True Scale wall panelling in Radiance texture.

spa sensation

Step into an altogether different showering experience by creating spa-style at home.

Pictured is Dolce Macchiato, a luxurious looking granite that you might find in a top end hotel, luxury penthouse or five star spa. The beauty of laminate is that you can create this look with easy installation and dramatically lower costs.

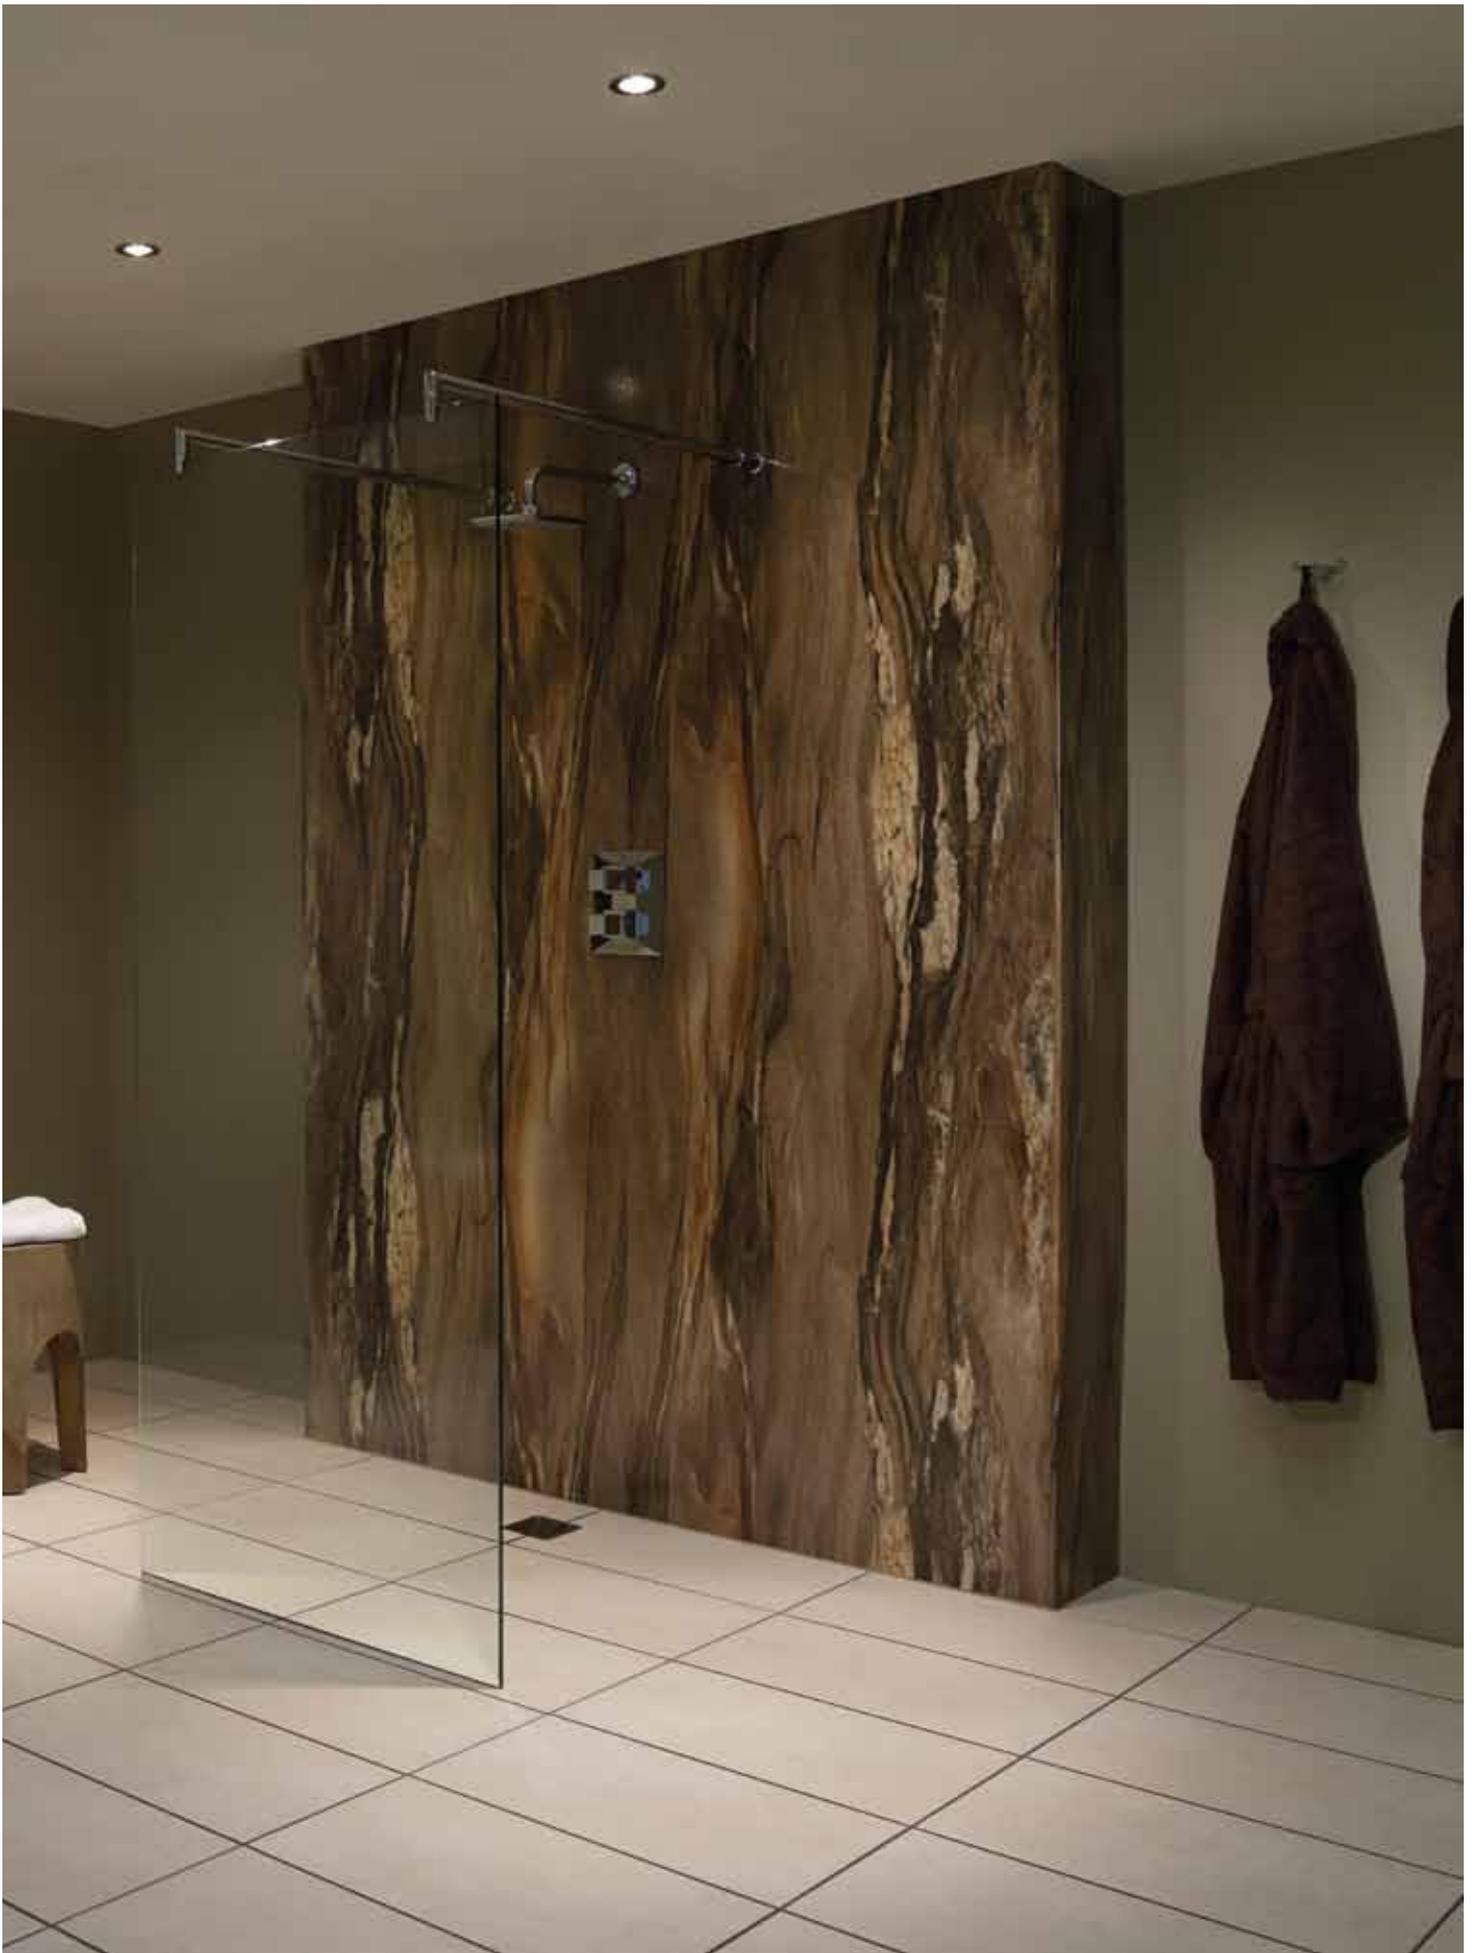

Just don't tell anyone. Let it be your secret luxury.

Pictured right: Dolce Macchiato True Scale wall panelling in Radiance texture.

100% watertight joint between the panels

ageless and timeless

More and more people are planning their next bathroom to be future-proof with level access wetrooms for ease of use as we grow older.

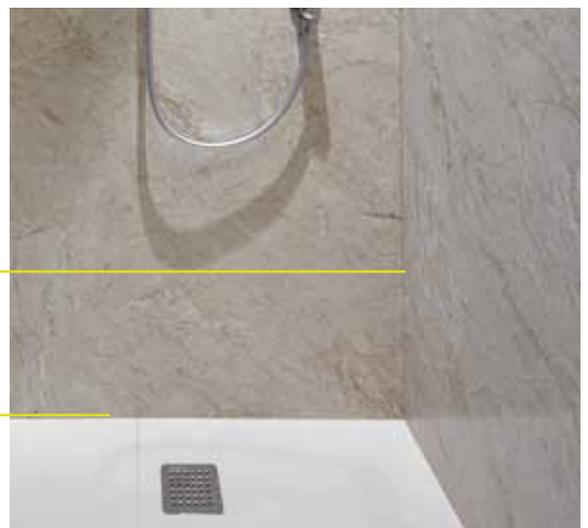

Easy maintenance also goes with easy mobility. Nuance panels are ideal for panelling out spacious wetrooms. They are fitted watertight floor to ceiling and can extend outside of the shower area too for enhanced practicality. With no extrusions and invisible joints, the large decorative surfaces are fast and easy to clean.

With Nuance there is no age limit on style.

Pictured left and detail: Ivory Marble wall panelling in Radiance texture and White Shell solid surface worksurface and upstand.

No metal trims guarantee a superior look and easy maintenance

Seamless, 100% watertight joint with our specially developed BB Complete adhesive

100% waterproof

With Nuance you can be 100% confident that your panels will be 100% waterproof.

That's because our panels are not made with wood, but with a patented polyurethane core that is impervious to water. Add to that the high performance laminate surface, plus installation with our waterproof adhesive and sealant, and you have a shower area that is guaranteed for 15 years to cope with thousands of hours of showering.

Nuance is also unique because it doesn't require any trims or extrusions to help its performance. It's totally waterproof already, and without them you also get a far superior looking finish.

Pictured left and detail: Silver Travertine wall panelling in Honed texture.

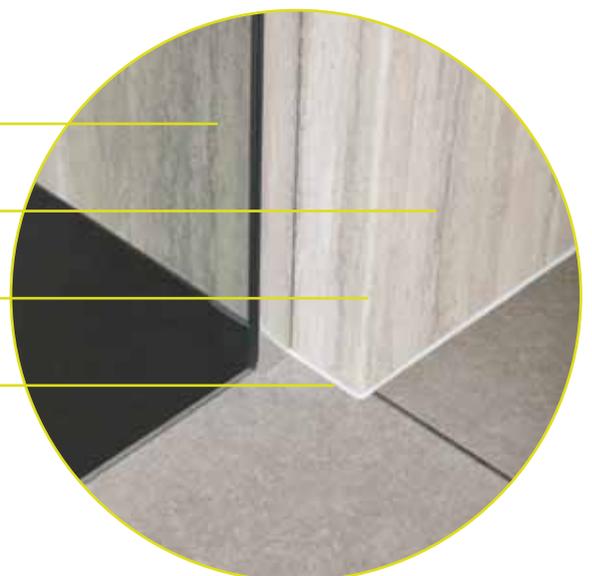

Perfect postformed edge is easy to clean and 100% waterproof

100% waterproof: Exclusive and patented polyurethane core is totally impervious to water and will not swell or degrade

Quality surface: High pressure laminate surface offers exceptional performance and easy maintenance

Elegant detail: The postformed edge provides a neat finishing detail without the need for extrusions to spoil the look

Flush fit: Panels are fitted flush with the shower tray or tile floor using our BB Complete waterproof adhesive. No extrusions needed and no risk of water penetration

perfect flexibility

Our range of Nuance panels gives real flexibility to shape the perfect bathroom. The postformed panels and the standard tongue and groove panels can be linked together to create walk-in wetrooms and work with larger shower enclosures. And you can now finish a wall wherever you please with the versatile 160mm finishing panel. Here we show you what's on offer.

2 Tongue and groove panels

Our T&G panels in 600mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 600mm tongue and groove

Available in 25 matching designs and 5 made-to-order designs, see pages 32-34.

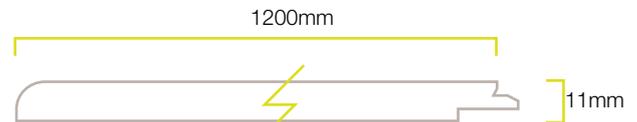

4 160mm Finishing panels

This panel allows you to finish a run of T&G panels both vertically and horizontally with a neat postformed edge detail, instead of using extrusions.

Size 2420 x 160mm one finished radius edge and one tongue

Available in 25 matching designs and 5 made-to-order designs, see pages 32-34.

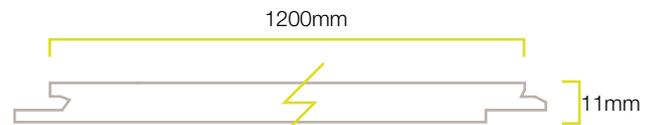

1 Postformed panels

The most versatile of our panels for shower enclosures and bath panels.

Features one finished radius edge and one tongue to link to T&G panels.

Size 2420 x 1200mm one finished radius edge and one tongue

Available in 25 ex-stock and 5 made-to-order designs, see pages 32-34.

3 Tongue and groove panels

Our T&G panels in 1200mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 1200mm tongue and groove

Available in 25 matching designs and 5 made-to-order designs, see pages 32-34.

5 Feature panels

With 2 pre-finished edges, the ideal panel to finish behind WCs and pedestal basins. It's especially good for cloakrooms and en-suites.

Size 2420 x 580mm with 2 pre-finished radius edges

Available in 25 matching and 5 made-to-order designs, see pages 32-34.

perfect match

Nuance offers much more than a shower panel. Here, we show you the products that give you a full design solution for worksurfaces and ways to finish off behind the washbasin and furniture.

lamine half-height walls

A laminate panel can be turned horizontally and fixed to the wall for an easy, waterproof finish behind bathroom furniture, vanity units and WCs. The top edge is postformed giving a sleek look.

Size available: 2420 x 1200mm with a pre-finished postformed edge

Available in 25 matching and 5 made-to-order designs, see pages 32-34.

Pictured: Vanilla Quartz wall panel in Gloss texture.

feature panel

With 2 pre-finished edges, the ideal panel to finish behind WCs and pedestal basins. It's especially good for cloakrooms and en-suites.

Size available:
2420 x 580mm with two pre-finished
radiused edges

Available in 25 matching and 5 made-
to-order designs, see pages 32-34.

**Pictured: Rococo Noir wall panel in
Frosted Gloss texture.**

laminated worksurface

A matching laminate worksurface gives a smart and integrated design look.

Sizes available:
3000 x 360mm for semi-recess basin
3000 x 600mm for countertop and sit-on
basins

Available in 21 matching designs to wall
panels, see pages 32-34.

**Pictured: Ivory Marble wall panel in
Radiance texture with Ivory Marble laminate
worksurface and upstand.**

laminate upstands

Upstands ready-made at 160mm high are an ideal way to finish off behind vanity units and worksurfaces. The top edge is postformed for a smooth, easy maintenance detail.

Size available: 2420 x 160mm with pre-finished radius edge

Available in 25 matching and 5 made-to-order designs, see pages 32-34.

Pictured: Dolce Vita True Scale wall panelling and upstand in Radiance texture.

solid surface worksurface

Solid surface is a high performance, sleek material that will enhance your bathroom with a designer touch.

Sizes available:
2400 x 360mm for semi-recess basins
2400 x 600mm for countertop and sit-on basins
2400 x 100mm for a finishing upstand or drop-skirt

Available in 3 colours of Black, White and Brown, see pages 32-34.

The worksurfaces are sanded and finished on 3 edges for ease of installation.

Pictured: Ivory Marble wall panel in Radiance texture with White Shell solid surface worksurface and upstand.

Drawings, descriptions and panel uses are set out in the 'perfect flexibility' section on pages 22-25.

Worksurfaces

Laminate worksurfaces come with a matching 1500mm edge strip

Solid surface worktops are factory sanded and finished on 3 sides

Additional edging, jointing and finishing kits are available

Panels

Patterns are not designed to match across tongue and groove joints

This can be more obvious in designs such as Aqua Bubble and Rococo Noir

Made to order designs

Made to order and special designs have a minimum order requirement

Deliveries are typically 4 weeks from order - please contact our sales office for further details

BB Complete adhesives

Available in 290ml standard cartridge - 1 required per 2420 x 1200mm panel

A neutral colour cartridge is used for bonding to walls at a lower cost

The use of BB Complete is a condition of our guarantee. See page 35.

Panel Trims

Nuance panels are waterproof so do not require trims

However, if you have a preference to use them then they are available in bright polished, white and black

Types: Internal, external, straight 'T' joint, and end cap

Shower and bath seal in white only

The company reserves the right to change specifications at any time, without notice. Every effort has been made to achieve faithful representations of our products in this brochure, but due to printing limitations we recommend that samples of actual material are requested before purchasing.

guaranteed to last

Nuance is uniquely designed as an extrusion-free panelling system giving you the benefit of large expanses of decorative surfaces that are appealing to look at and also easy to clean.

The panels are totally impervious to water but all joints must be sealed and protected against moisture ingress. This applies to walls, at the floor level and where panels sit on a shower tray.

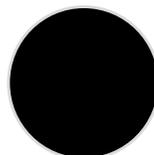

Our BB Complete adhesive has been specifically developed for this job. Polyurethane based, it is a technically superior bonding and seaming adhesive originally developed for the aircraft and automotive industry. It is flexible, super-strong and does not break down over time like silicone, giving the assurance of a professional long-lasting fit. BB Complete must be used to validate the 15 year guarantee.

BB Complete is available in 16 colours to match in with the full Nuance range of designs. They are available in a standard cartridge gun size of 290ml. For bonding panels to walls and where the adhesive is not seen, there is a cost-effective neutral colour.

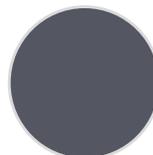

To validate the 15 year guarantee BB Complete adhesive must be used.

made in Great Britain

Bushboard is proud to be the largest independent manufacturer of postformed panel products in the UK, producing nearly 1 million components every year at our factory in Wellingborough.

You can be confident that when buying Nuance, you are making an investment in a quality assured product.

Nuance products come with a 15 year guarantee against manufacturing defects.

ISO 9001: 2008 FM 584991 - Quality
ISO 14001:2004 EMS 584992 - Environmental

The internationally recognised ISO standards underscore our commitment to manufacturing quality and environmental standards.

Nuance products are manufactured in our factory at Wellingborough and we are proud to support the Made in Britain campaign.

Care & Maintenance

Nuance worksurfaces and panels are so easy to maintain. On a day-to-day basis all you need to do is wipe them down with a moist cloth and your favourite mild detergent. For more stubborn marks leave the detergent to soak on the surface for a little while before rinsing thoroughly. Do not use abrasive cleaners and bleaches.

Full details can be found in our Care & Maintenance leaflet. One of these is included with every Nuance product purchased but if you need a copy please call our Customer Service Team or log on to our website.
