# ClickBox

Assembled in 30 Seconds!

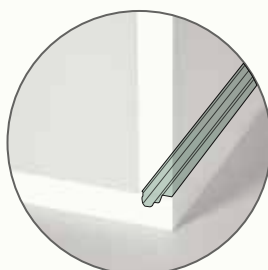

## ✓ The UNICLIC technology

The UNICLIC technology is a tongue and groove solution which enables a click connection at an angle of 90°. This revolutionary technology makes it possible to assemble flat packed kitchen cabinets by simply clicking the components together, without requiring any tool, screw or glue!

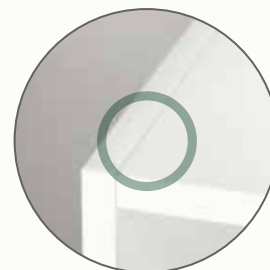

## ✓ Stronger connection

The click connection is stronger than a traditional assembly system as the joints interlock along the entire assembly length instead of only on 2 fixing points.

## ✓ No visible fittings

As there are no fittings required with UNICLIC, the technology is completely invisible.

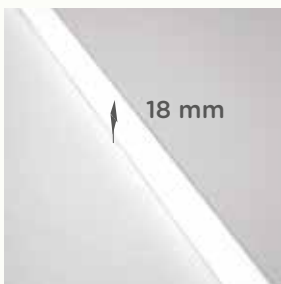

## Fast & Simple for Every Professional

- ✓ *Assemble on site.*
- ✓ *No tools, no glue, no missing fittings.*
- ✓ *Less chance of damage in transit.*
- ✓ *67% saving in vehicle space.*
- ✓ *Suitable for limited access areas.*
- ✓ *Ideal for multiple floor buildings.*
- ✓ *Less time, more profit.*
