

Ed Olsen, Sales Professional

Ed is a SunPower by EmPower Solar client whose solar energy system works so well, he decided to join our team. Ed is a strong advocate for renewable energy. He is a Chevy Volt owner, who powers his car with solar energy.

Ed began his career as a salesperson for Century-21, where he quickly became a top producing agent. He took his career to the next level by becoming an associate broker and earning many prestigious sales awards. He then entered the real estate appraisal profession, and eventually opened American Home Appraisals, which he owned and operated for 8 years.

Ed has taught real estate and appraisal courses for the Realty Institute, Baruch College and the Columbia Society of Appraisers at Hofstra University. Ed eventually became a National USPAP Instructor and was highly regarded as an expert in the appraisal field. Having appraised many properties with environmental issues, Ed knows firsthand the importance of renewable energy.

Ed is a fitness enthusiast who has worked as a personal trainer; he even had his photo posted in Flex Magazine! He is an experienced drummer and has played with many Long Island musicians.

About SunPower by EmPower Solar

SunPower by EmPower Solar is an award-winning solar engineering and installation company in operation since 2003. The company has grown to over 65 skilled employees responsible for more than 1,200 high-performance installations across Long Island and New York City. EmPower provides rooftop solar, battery backup power, and electric vehicle charging stations for residential, commercial, and nonprofit clients.

SunPower by EmPower Solar's vision is a new energy paradigm powered by clean and renewable energy. The company is driven by the fundamental belief that renewable energy will lead to a more prosperous, healthy and civil world. Our mission is to EmPower our clients to control energy costs, reduce their environmental footprint, and achieve energy independence.

Our success stems from our commitment to the "EmPowering Way" philosophy: professionalism, teamwork, excellence, client focus, and commitment to clean energy.
