Success Stories

"I came in as an emergency patient after having a broken post and crown. Not only was there no judgement for the condition of my teeth (terrible) ... there was an active, friendly effort to make me feel comfortable and welcome. I am thrilled with the care and the quality of dental work."

VJL, Columbia

"The best dentist I have ever been to, hands down. Dr. Stewart and his staff have taken care of me time and time again. I can't thank them enough for all of the work they've done and would recommend them to anyone who is looking for superior quality care and a staff that treats you like family."

You've Entered the No Judgement Zone - Don't Let Fear Keep You From Good Health

Too often when a new (sometimes emergency) patient comes in, we are told it has been two, three ... maybe even up to 5 years since their last cleaning or exam. When asked why they have waited so long, there are two main reasons we are given. They have either had a bad prior experience with another dentist ... or it has been so long since their last visit that they were too embarrassed to come in, so they continued to put it off until something was obviously wrong.

The simple fact is, that as dentists, we really do see a lot of bad teeth all of the time. Although you may think that your teeth need a lot of work, this is not new or unusual to what we see, sometimes on a daily basis. If shame, embarrassment or even guilt is keeping you away from making an appointment, you've got a lot of company. That being said, don't let any of those issues get in the way of getting the dental help that you need and deserve.

At **Smile Savers Dentistry**, we don't judge, yell or lecture. Our friendly and caring dental staff wants all of our patients to be healthier and happier during and after their treatment. We believe that a healthy mouth helps to make a healthy body. We'll help you take care of your oral health and keep your teeth looking beautiful and feeling healthy for as long as you are a patient of ours. And after visiting our office, you can then feel proud that you overcame something that once seemed impossible!
