A WORD FROM DR. STEWART

30 Years and Counting!

As I was driving to work a few weeks ago, I realized that this year is going to be my 30th year in business. Wow, that's a lot of dentistry. No wonder why I don't have much hair left and a hunched back! I extrapolated out how many patients I've seen over the years and it works out to be that of Ravens' stadium seating capacity, 71,000. Wow, that is an accomplishment in itself!

As a part of the celebration this year I decided to offer monthly specials to thank all of you for making this milestone a reality. You will be receiving updates periodically electronically and keep an eye out for them in our monthly newsletter, starting this month!

In Health,
Dr. Stewart

NIGHTTIME TIPS FOR IMPROVING YOUR ORAL HEALTH

A lot can happen to your mouth in eight hours — especially when you're sleeping. There are actually several ways to maintain your oral health while you sleep. Brushing and flossing before you go to sleep at night helps protect against plaque buildup, tooth decay, and gum disease. Consider switching to an electric toothbrush. The rotating and oscillating movement removes plaque from your teeth more efficiently than a regular toothbrush. Rinse with a therapeutic mouthwash. They contain special ingredients that strengthen teeth and will help keep your teeth free of plaque and your gums safe from gingivitis. Lastly, if you find that you are grinding overnight, come see us about a custom fitted night guard.

MARCH SPECIAL 10% OFF DENTAL CROWNS during the month of March.

Must present coupon at time of appointment. The crown(s) must be purchased during the month of March.

Cannot be combined with other offers.

PATIENT SUCCESS STORY

"Smile Savers rocks. I haven't been to a dentist for over 10 years due to fear of dentists. Pretty much forced to go due to tooth pain and from day 1 - I never felt afraid. I was at ease with the dentist and all the staff. They made sure that I felt comfortable and just relaxed during procedures. My teeth aren't the greatest but they are on the way now - thanks to Smile Savers. Also, being a deaf patient, I never felt uncomfortable facilitating communication with anyone. They made sure I understood every single word and thing they were doing. I will not go to a different dentist. Definitely not. I won't get the same experience that I get here." - T.M.
