SMILE PROVOKING FUN FACTS

- Each year March and June end on the same day of the week.
- Twitter turns 15 on March 21st. The first tweet, by one of its creators, was "just setting up my twttr."
- Smiling helps you live longer. Every time you smile, your body produces greater amounts of antibodies, giving you an immunity boost.

A WORD FROM DR. STEWART

Keep Your Smile Shining Bright

With spring just around the corner, let us help you get and maintain the smile you've always wanted. Every patient's smile is unique and so is their wish list. For some, a single procedure like Invisalign is the solution. For others, a full-smile makeover is the best option to restore both appearance and function. You may fall right between the two.

It's important to know that dentistry can restore and even improve your smile with crowns to support compromised teeth. A crown is like a new covering that protects the tooth. It restores it to its natural shape and size, while strengthening it and improving its appearance.

Take advantage of our March Special. We'll help you decide which treatment is right for you. Call us and schedule your appointment today!

In Health,
Dr. Stewart

Patient Success Story

"I've been going to Smile Savers for over 6 years and it's been a great experience. I had a complicated Invisalign procedure as well as multiple crowns and veneers placed and I have had no issues. In fact, Dr. Stewart was one of the only dentists in the area that was able to offer me the Invisalign option due to the complexity of what had to be done, and it has worked out great. I have been going for routine dental exams twice a year and the staff is very friendly and enjoyable, and the entire office space is very clean and professional. I would recommend Smile Savers for anyone in the Howard County area that is looking for a fun but high-quality experience for them and their teeth!" —P.F.
