SMILE PROVOKING FUN FACTS

- April is named after the Greek goddess of love, Aphrodite.
- Human saliva has a boiling point three times that of regular water.
- Bananas are curved because they grow towards the sun.
- Movie trailers were originally shown *after* the movie, which is why they were called trailers.
- Cherophobia is the fear of fun.

★★★★★ Patient Success Stories

"I went to Smile Savers Dentistry with an acute abscess, I thought I was dying. Their professionalism and expertise is absolutely outstanding. I can't believe how much patience they had with me seeing as how I haven't seen a dentist in years. I will advise anyone to go see them, they are the absolute best!!" - F.T.

A WORD FROM DR. STEWART

Oral Cancer Awareness Month

April is **National Oral Cancer Awareness Month**. Oral cancer is a rare disease but statistics show it is on the rise. It is most commonly found in those with risk factors of high alcohol use and tobacco use — both smoking and chewing. Even though most of us don't fall into this risk category, we here at **Smile Savers Dentistry** routinely scan for signs of the disease every time you have a dental exam because this disease is insidious. We have even invested in imaging technology, the Veloscope, that picks up early changes not able to be seen by the naked eye if we see a suspicious area.

So what can you do at home to help screen yourself?

Most lesions occur in 3 areas so focus on them: The sides of the tongue, the underneath of the tongue (floor of the mouth) and thirdly the back of the throat. With good light, inspect these areas routinely. If you see areas that are red and angry, mixed with a white slimy patchy area that does not go away within two weeks, then give us a call!

Most times what one finds is usually benign but don't second guess yourself if you are worried. It is much better being safe than sorry. Make an appointment and calm any worries.

Hope this helped!

MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.

We are always accepting new patients.

Our oral health plays in to our overall health. The case for good oral hygiene keeps getting stronger and stronger! If you know someone who might be in need of a new dentist, we would love for you to refer them to our office. Just pick up one of our Care to Share cards the next time you are here. This card entitles them to \$50 off an exam, X-rays and consultation.
