## A WORD FROM DR. STEWART

### Oral Health Awareness Month

April is a special month in the world of oral hygiene as it's Oral Health Awareness Month. It makes this month the perfect time for me to remind my patients on the important, and long-reaching, impacts of having good oral hygiene. This also means it's a great month for you to look back on the last time you had a checkup or cleaning with us and determine if you are due to set up an appointment to make sure your oral health is in order.

Along with making sure you have good overall oral hygiene, Oral Health Awareness Month focuses on the risks and reality of oral cancer and how to prevent and screen for it. We offer oral cancer screenings with the VELscope® Vx as part of your routine cleaning and exam. While the VELscope® Vx does not diagnose cancer, it alerts us to areas of concern earlier than ever before. If we do happen to find a suspicious area during the exam, we'll talk to you about the next steps. And if the screening shows normal, healthy tissue can instantly give you peace of mind! Hope to see you in the office soon.

In Health,  
Dr. Stewart

## THERAMINTS ARE HERE!

Are you looking for a sugar-free alternative to your every day mint? We are now carrying TheraMints. TheraMints are an excellent choice for people with a history of cavities, those who frequently consume sugars and starches, those with orthodontic braces, and those who use medicines that reduce saliva. TheraMints won't promote tooth decay like store brand mints sweetened with sugar! Give us a call with any questions or stop by and get yours today for only \$20 a bottle.

## APRIL SPECIAL

## SMILE SAVERS SUCCESS STORY

### Actual Patient Testimonial

*"I came to Smile Savers Dentistry as an emergency visit and actually called the day before to Dr. Stewart's personal cell phone to ask if he can see me ASAP because I was in pain and the next day I was seen and he performed a miracle. Basically since that day my dental health has been in great hands. What Dr. Stewart has in Smile Savers is basically an outpatient dental surgical center with top notch technology and surgical team. Everyone here at Smile Savers treated me as they would treat their own family. Never seen that type of care delivered in any other dental office. They are not just a dental center they are my dentist for life now." — M.T.*

### MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.
