A WORD FROM DR. STEWART

Due Diligence

As many of you have noticed in the news lately, there has been a virus on people's minds. For us here at the office, viruses are something we always have on our minds. They are very small and sneaky things and have been around us since the beginning of time. Our bodies know this and have developed immunities to many of them through the eons. There are always going to be new ones popping up that we have to adjust to. We are seeing that currently and it will run its course and become something in the past. It is evolution.

As for our office, we are and have always protected you and ourselves the best as we can from these microscopic invaders. We practice strict sterilization protocols per ADA and CDC guidelines and are diligent in minimizing any chance of contaminations from outside sources. During this time of heightened awareness, we are asking all of our patients and staff to be aware of their health and be considerate if feeling under the weather and to stay home. Other than that, it is business as usual. If you have any questions feel free to call the office, we can help.

In Health,
Dr. Stewart

PATIENT SUCCESS STORIES

Actual Google Reviews

"STOP - no need to look any further for a dentist. I've done the research for you. After recently moving to Arundel County my search for a dentist close to me resulted in a few blunders until my visit to Smile Savers Dentistry, Columbia MD today, 2/26/2020. The visit was AWESOME and so is the staff and especially, Dr. Daniel Stewart. Knowledgeable, Professionalism, Compassion, Kindness are just a few words to describe this practice. I joined the family and so should you. You will not regret it." —P.T.

"I grind my teeth really hard and the bottom teeth were really bad. I now have new teeth thanks to the patience of Dr. Stewart. Thanks to CJ and all the staff for a wonderful experience right from my first phone call. It is a very welcoming practice!" —M.B.

MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.
