SMILE PROVOKING FUN FACTS

- July celebrates summer with National Picnic Month, National Grilling Month, National Hot Dog Month (National Chili Dog Day on the 25th!) and National Ice Cream Month, so it's no surprise it's also National Anti-Boredom Month.
- The elephant grinds its molars and grows new ones. This happens six times in a lifetime.
- Neither strawberries, blackberries nor raspberries are actual berries. But the banana is a berry; scientifically speaking, as are eggplants, grapes and oranges.

A WORD FROM DR. STEWART

Why Invisalign

I see more and more patients who want their teeth straightened with Invisalign. By now you know that one of the top advantages of these clear aligners is that the Invisalign trays are removable, which enable you to take great care of your teeth and gums while straightening your teeth. And if you're taking good care of your teeth and gums, you're most likely taking care of the rest of your body!

With Invisalign, having a healthy, confident smile and reducing your risk for tooth decay and gum disease go hand in hand. When your teeth are in proper alignment, it helps the gums fit more securely around the teeth and this allows for the strongest and healthiest defense against potential periodontal problems.

Properly aligned teeth can also alleviate the issues that can be caused by an improper bite which include speech or chewing difficulties, jaw problems, and increased wear on the tooth enamel. Invisalign effectively addresses all of these issues, so you'll have increase the likelihood of improved oral health along with the confidence of a great smile!

Whether its a simple fix or complex shifts, Invisalign clear aligners can straighten it out – up to 2x faster! There's also a painless pre-surgical procedure I offer that can speed up Invisalign treatment by 60% called Propel. Propel will help both your teeth shift and tissues heal faster than they ever could with the Invisalign treatment alone.

Simply put, Invisalign is the world's leading clear aligner through pioneering research. Invisalign offers more comfortable and better-fitting aligners, as well as new aligner features that treat more kinds of cases!

MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.
