SMILE PROVOKING FUN FACTS

- 88% of us remember people with beautiful smiles whenever we meet new people.
- Mosquitos are most prevalent during summer months. They don't have teeth to bite or feed with. However, they have 47 sharp edges resembling a tooth shape.
- The Eiffel Tower actually grows in the heat of the summer. Due to the iron expanding, the tower grows about 6 inches every summer.

A WORD FROM DR. STEWART

We're Committed to Your Care & Comfort

There are few investments as worthwhile as maintaining a regular schedule of care for your teeth. Here's why: when you see us regularly to keep your teeth clean, you greatly reduce your risk of cavities. If you do get a cavity, we can correct it while it's small. When you follow this healthy pattern year after year, it is entirely possible to prevent bigger—and more expensive—problems from ever developing.

Let me assure you that when you come to our offices for care, we will do all we can to make you comfortable, answer your questions and keep you informed every step of the way. My staff and I are committed to providing the highest standard of care in a warm and friendly environment.

I've learned from my years in practice that properly scheduled dental care results in far fewer problems, less expense and less pain! Call us today so we can get you on the road to perfect dental health.

In Health,
Dr. Stewart

PREVENTING MAJOR DENTAL PROBLEMS

We're always here to help you if major dental problems arise but honestly, we'd rather help you prevent them. We have the tools to help prevent problems like cavities, abscessed teeth and gum disease in our office. We also want to educate you on the best at-home care procedures because that's the foundation of preventive care.

Preventive care includes regular cleanings to remove every trace of tartar from your teeth. Regular examinations and x-rays. All are vital so we can detect small problems and keep them from getting bigger.

We're going to look for cavities, worn teeth, broken dental work and swollen or puffy gums. We're also going to screen you for signs of oral cancer. Working together, we have an excellent chance of preventing dental problems which cause pain to both you and your wallet.

WE DON'T JUDGE.
WE DON'T LECTURE.
WE JUST HELP.

PATIENT SUCCESS STORIES

"My teeth are phenomenal..."

"Smile Savers are amazing professionals. When I first met with them wasn't sure what I was facing. I had some serious issues to address with my teeth and oral health. They took their time to examine me and explain everything I was facing in the future health of my teeth. Every step was well executed, and I felt that they truly cared about my teeth, as a patient and ultimately my future health. My teeth are phenomenal, and I am very happy with the final results. I recommend Smile Savers for your future care and health. Thank you to the entire team. You saved my life!!" —S.B.L., Owings Mills

MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.
