SMILE PROVOKING FUN FACTS

- National Smile Week is celebrated August 5-11... *although we celebrate smiles every day!*
- August is also related to the word "auger," a hole digging tool, because farmers dug for next season at this time every year.
- The IBM Personal Computer was released on August 12, 1981.
- A snail's mouth is no larger than the head of a pin, but it can have over 25,000 teeth!

A WORD FROM DR. STEWART

Updated Dental Technology at Smile Savers

As you all know, even though I have been practicing for over 30 years now, I still haven't lost my thirst for new and better dental technologies. Through the years I have strived to keep up with the best and latest technologies so I can provide the best that dentistry has to offer to you. In fact, I am only one of the few dentists in Maryland that has been trained and can offer laser periodontal therapy for those suffering with late stage periodontal disease (LANAP). LANAP helps heal the bone and grow it back without stitches or painful surgery.

This month I am going to add to that technology. What has been difficult for dentists through the years is that X-rays were only two dimensional and we were diagnosing a three dimensional subject. We were missing things because of that, and treatment planning was very complex. Well that will now be solved. I am purchasing a state-of-the-art 3-D CT scanner. Now nothing will be missed and procedures that were routinely sent out for a specialist can be done right here in our office. *Now that is service!*

I am looking forward this technology. Our dentistry services will be even safer, more predictable and less invasive than ever before! Hope to see you in the office soon.

In Health,
Dr. Stewart

ANOTHER SUCCESS STORY

"The office feels like family."

"For years I was very self conscious about my smile because I had a poorly placed cap. I went to Smile Savers Dentistry for a cracked tooth. I now smile a lot more. Dr. Stewart fixed my smile and I could not be any more happier. The staff is amazing.

They are all great, they know you by name and just have a great disposition.

The office feels like family."

MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.
