A WORD FROM DR. STEWART

Summer Sun Brings Summer Fun: 3 Tips for Healthy Summer Smiles

The next few months can throw off your usual dental routine. Here are three ways to prevent summertime tooth decay:

1. Stay on routine- brush and floss at least twice a day
2. Drink water and snack smart- try to limit sugar intake
3. Make your back-to-school/end of summer dental visit early

Compared to other parts of the body people often ignore problems in the mouth. Bleeding and tender gums, oral pain, and mouth infection are common problems which are often ignored but can affect quality of life.

Oral problems can affect the way a person speaks, eats, and socializes. By visiting Smiles Savers Dentistry on a regular basis, problems can be diagnosed earlier and there is a better treatment outcome.
