- Hawaii has a special October event called "the Aloha Festival," sometimes described as the "Mardi Gras of the Pacific."

## SUCCESS STORIES

"Wonderful, friendly, and professional staff, hygienist, and dentist. They accommodate your schedule and are very helpful." —R.R.

"Having never had a tooth pulled without going under complete anesthesia as I did when they pulled my wisdom teeth at age 19, I have to say I was scared about the extraction. But Dr. Stewart did it with absolutely no pain or discomfort whatsoever! It was over before I knew it. I'm really happy with everything so far and the staff is wonderful!" —R.C.

"Great experience. Dr. Stewart works quickly and efficiently while considering his patient's well being. He replaced some old metallic fillings and put in two crowns. My teeth look brand new." —S.P.

## SPOOKY TIMES AT SMILE SAVERS DENTISTRY

### Halloween Costumes and Pumpkins, Oh My!

October is one of our favorite months at Smile Savers Dentistry. Dr. Stewart and the staff are looking forward to our annual costume contest on the 31st, as well as our pumpkin carving contest. Once again, we'll need your votes! If you don't have an appointment, or can't stop by the office on Halloween, make sure you visit our Facebook page to cast your votes!

### Halloween Trick or Treat Tips

It's OK to eat that candy on Halloween but it's important to have a plan. Eat Halloween candy (and other sugary foods) with meals or shortly after mealtime. Avoid hard candy and other sticky sweets that stay in your mouth for a long time. Snacking can increase your risk of cavities, and it's double the trouble if you keep grabbing sugary treats throughout the day from the candy bowl. Drink water - it can help prevent tooth decay! And of course, remember to brush and floss!

### MISSION STATEMENT

Our mission is to help people put their past bad dental experiences behind them. We accomplish this through care, understanding and knowledge. We strive to make our patients comfortable and relaxed, and free of all excess pain. When a patient comes to us, possibly frightened or embarrassed about dental problems or a lack of regular dental care, our goal is to make them immediately comfortable. Over time, we aim to completely remove their fears of dentistry and to fully restore each of our patients to optimum dental health. We know that in doing so, we are helping each of our patients toward the goal of a healthier and happier life.
