A WORD FROM DR. STEWART

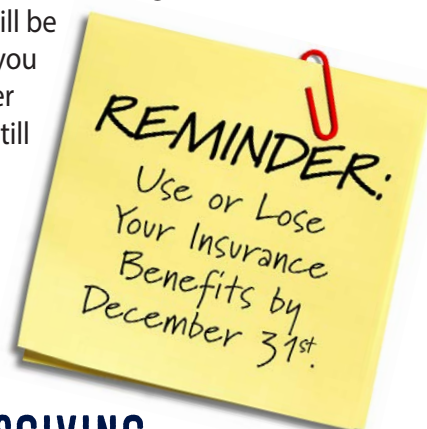

Giving Thanks!

I love this time of year! There is so much to do and see in the fall. There are harvest festivals, pumpkins, and my favorite holiday Thanksgiving is right around the corner.

What I like so much about Thanksgiving is it's such an easy holiday to enjoy. There is no pretense but to get together with family and friends, break bread and give thanks for the year gone by. Just the other day I thought about what I will be thankful for this year. One of the of the things is for all of you that I've been able to get to know and take care of for over the past 29 years. It is why I enjoy what I do and why I'm still a dentist after all this time.

I wish you all a safe and happy Thanksgiving and am thankful for each one of you.

In Health,
Dr. Stewart

TIPS FOR A SMILE-FRIENDLY THANKSGIVING

Are you thankful for your healthy smile? As you enjoy your Thanksgiving dinner, keep your teeth and gums healthy with smart food choices. Along with your turkey, fill your plate with an assortment of colorful veggies - red and orange are usually high in vitamin C which is good for your gums, while leafy greens are good sources of calcium for strong teeth. Be sure to mix up your plate to balance starches (mashed potatoes and stuffing) with protein

and fiber. The acid in wines and cranberry juice can soften your enamel, leaving it more vulnerable to decay. You can lessen their impact with sips of water and bites of other foods. All that sugar from pumpkin pie and all those other tasty desserts serves up a feast for cavity-causing bacteria. Limit your dessert portion and follow it with a glass of water. If you overindulge in stain-causing foods or drink - you can always book a cleaning with us. Most importantly, smile and enjoy the holiday!
