NEW BUSINESS:

A. Medicaid Funding Reductions, Service Elimination & Budget Changes

The General Manager stated that effective July 1, 2005 that a new reimbursement policy would be in affect for Medicaid passenger trips. The trip would now be reimbursed at the rate of $.41 cents per mile instead of the $10.00 per trip rate that is currently being used. The General Manager reviewed the correspondence from the State of West Virginia, and the impact on Mountain Line Transit will be a loss of $90,000 dollars of revenue per year.

Bob Roberts stated that we need to draft a letter to the public that because of the change in the reimbursement policy from the Department of Health and Human Resources for Medicaid transportation the Transit Authority will have to make changes in the service that we provide.

The General Manager stated that the Transit Authority has some decisions that need to be made, such as are we going to stop the Medicaid transport service on July 15, 2005 or are we going to allow the service to run until July 31, 2005 which would give the public a 30 day notice. The General Manager would like to do a press release that outlines the crisis, the cut backs, the time tables, and the contacts for the delegates, the Governor office and the Secretary of the Department of Health and Human Service, and to notify PACE Tech.

Bob Roberts recommended that the Board approve that service be continued until July 31, 2005 to give the individuals who are using the service a chance to find another form of transportation with the Transit Authority absorbing of the cost of transportation above the amount that can be billed.

The General Manager stated that what he needed was for the Transit Authority Board to give him permission to inform the public that the Transit Authority would take the loss and operate under the new established regulations applied by the Department of Health and Recourses and would absorb the cost of transportation until July 31, 2005 to allow passengers time to make other arrangements for their transportation needs.
