FTA Role in Bid Protests
Under the Federal Transit Administration's Circular 4220.1F, the Federal Transit Administration's (FTA's) appeals process for reviewing protests of a recipient's procurement decisions are:
1. Requirements for the Protester. The protester must:

   a. Qualify as an "Interested Party." Only an "interested party" qualifies for FTA review of its appeal. An "interested party" is a party that is an actual or prospective bidder or offeror whose direct economic interest would be affected by the award or failure to award the contract at issue.
1. Subcontractors. A subcontractor does not qualify as an "interested party" because it does not have a direct economic interest in the results of the procurement.

2. Consortia/Joint Ventures/Partnerships/Teams. An established consortium, joint venture, partnership, or team that is an actual bidder or offeror and is acting in its entirety, would qualify as an "interested party" because it has a direct economic interest in the results of the procurement. An individual member of a consortium, joint venture, partnership, or team, acting solely in its individual capacity, does not qualify as an "interested party" because it does not have a direct economic interest in the results of the procurement.

3. Associations or Organizations. An association or organization that does not perform contracts does not qualify as an "interested party," because it does not have a direct economic interest in the results of the procurement.

b. Exhaust Administrative Remedies. The protestor must exhaust its administrative remedies by pursuing the Transit Agency's protest procedures to completion before appealing the Transit Agency's decision to FTA.

c. Appeal Within Five Days. The protestor must deliver its appeal to the FTA Regional Administrator, Region 111, 1760 Market Street, Suite 500, Philadelphia, PA 19103-4124 within five (5) working days of the date when the protestor has received actual or constructive notice of the Transit Agency's final decision. Likewise, the protestor must provide its appeal to the same address within five (5) working days of the date when the protestor has identified other grounds for appeal to FTA. For example, other grounds for appeal include the Transit Agency's failure to have or failure to comply with its protest procedures or failure to review the protest.

Hold Harmless
The Vendor agrees to protect, defend, indemnify and hold the Transit Agency, its officers, employees and agents free and harmless from and against any and all losses, penalties, damages, settlements, costs, charges, professional fees or other expenses or liabilities of every kind and character arising out of or relating to any and all claims, liens, demands, obligations, actions, proceedings or causes of action of every kind and character in connection with or arising directly or indirectly out of this Contract and/or the performance hereof. Without limiting the generality of the foregoing, any and all such claims, etc., relating to personal injury, infringement of any patent, trademark, copyright (or application for any thereof) or of any other tangible or intangible personal or property right, or actual or alleged violation of any other tangible or intangible personal or property rights, or actual or alleged violation of any applicable statute, ordinance, administrative order, rule or regulation, or decrees of any court, shall be included in the indemnity hereunder. The Vendor further agrees to investigate, handle, respond to, provide defense for and defend any such claims, etc., at his/her sole expense and agrees to bear all other costs and expenses related thereto, even if such claim is groundless, false or fraudulent.

Compliance with Laws and Permits
The Vendor shall give all notices and comply with all existing and future federal, state and municipal laws, ordinances, rules, Regulations, and orders of any public authority bearing on the performance of the Contract, including, but not limited to, the laws referred to in these provisions of the Contract and the other Contract documents. If the Contract documents are at variance therewith in any respect, any necessary changes shall be incorporated by appropriate modification. Upon request, the Vendor shall furnish to the Transit Agency certificates of compliance with all such laws, orders, and regulations.

Severability
In the event any provision of the Contract is declared or determined to be unlawful, invalid or unconstitutional, such declaration shall not affect, in any manner, the legality of the remaining provisions of the Contract and each provision of the Contract will be and is deemed to be separate and severable from each other provision.

Debarment and Suspension
Vendor agrees to comply, and assures the compliance of any other participant at any tier of the project, with Executive Orders Nos. 12549 and 12689, "Debarment and Suspension," 31 U.S.S. § 6101 note, and U.S. DOT regulations, "Nonprocurement Suspension and Debarment," 2 CFR Part 1200, which adopts and supplements the provisions of U.S. Office of Management and Budget (U.S. OMB) "Guidelines to Agencies on Governmentwide Debarment and Suspension (Nonprocurement)," 2 CFR Part 180. The vendor agrees to, and assures that any other participant at any tier of the project will review the "Excluded Parties Listing System" at https://www.sam.gov before entering into any other arrangement in connection with the project. By signing and submitting its bid or proposal, the bidder certifies as follows:

The certification in this clause is a material representation of fact relied upon by the Transit Agency. If it is later determined that the bidder knowingly rendered an erroneous certification, in addition to remedies available to the Transit Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment. The bidder agrees to comply with the requirements of 2 CFR Part 1200, while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder further agrees to include a provision requiring such compliance in its lower tier covered transactions.

Prompt Payment
The Vendor agrees to pay each sub-contractor under this prime contract for satisfactory performance of its contract no later than 15 days from the receipt of each payment to the prime vendor that the Vendor does not qualify under the Clause requiring the payment of a contractor under FTA. The Vendor agrees further to return retainage payments to each subcontractor within 15 days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of the Transit Agency. This clause applies to both DBE and non-DBE subcontractors.

Federal Regulation Changes
Vendor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Master Agreement (Form FTA MA(19) dated October 1, 2012) between the Transit Authority and FTA, as they may be amended or promulgated from time to time during the term of this Contract. Vendor's failure to comply shall constitute a material breach of this contract.

FTA Terms
The preceding provisions include, in part, certain Standard Terms and Conditions required by DOT, whether or not expressly set forth in the preceding contract provision. All contractual provisions required by DOT, as set forth in FTA Circular 4220.1F, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. The Vendor shall not perform any act, fail to perform any act, or refuse to comply with any Transit Agency requests which would cause Transit Agency to be in violation of the FTA terms and conditions.

The estimated tire usage above is based on our last twelve months of usage, ending February 28, 2015.

The Authority had a partial success in using less recap tires and more new tires. This trend between the two may or may not continue. The Authority is still evaluating this.

The Authority’s fleet expansion in fiscal year 2015 -2017 which will represent a 10% increase to tire usage in the 12R22.5 size and a 33% increase to the 275/70R22.5 size.

The Authority has 10 buses on order, where the manufacturer is calling for 225/75RX16E tires. It is not known if the RX is different from the R, but the expected usage of the tire size will increase the use of this tire size and decrease the use of the tire sizes the buses these replace over the next three years. No change in use estimates are in the above estimates, but may cause some variance.

As mentioned in Attachment 3, the Authority is required to buy tires that are made in America whenever possible, which insures quality tires and American jobs.
