## Occlusion

*Fine-tune your techniques, processes and patient communication skills with our extensive DVD library.*

### Centric Relation Bite Records

This video will remove the mystique and uncertainty around making accurate centric-relation bite records, which are essential in developing a successful treatment plan. Dr. Spear demonstrates three methods in making accurate, usable bite records – one of which you're sure to incorporate into your practice.

Total time: 1:21:09

**\$139**

### Centric Relation Bite Records

This video will remove the mystique and uncertainty around making accurate centric-relation bite records, which are essential in developing a successful treatment plan. Dr. Spear demonstrates three methods in making accurate, usable bite records – one of which you're sure to incorporate into your practice.

Total time: 1:21:09

**\$139**

### The Anterior Bite Plane Appliance *Indications, Fabrication and Adjustment*

You'll construct better anterior appliances after watching this live-patient demonstration detailing the intricate steps of fabrication, try-in, adjustment and patient care instructions.

Total time: 0:59:32

**\$139**

### Occlusal Restorative Design

Edge-to-Edge Wear; Compromised Occlusions; Dual Bite Occlusions; Class III Occlusions

Total time: 1:56:55

**\$249**

### Facebook Transfer

Dr. Spear provides an informative how-to on a technique often taught in dental school, but rarely used in practice. Learn the ins and outs of how a facebook transfer can help you develop a successful treatment plan.

Total time: 0:31:49

**\$139**

### Appliances

Appliance Selection; Appliance Selection 2 – Anterior Bite Planes; Appliance Selection 3 – Built in Centric Relation; Posterior Pivot and Soft Appliances; Insertion of a Full Coverage Hard Appliance in CR

Total time: 3:29:04

**\$349**

*"I can't believe the amount and quality of content. Seriously great stuff."*

*- M.M  
Spokane, WA*

## Occlusion

### The Occlusal Appliance *Making the Correct Choice*

Dr. Spear discusses the five major types of occlusal appliances, the four reasons for using an appliance, and how to choose accordingly. Footage of an actual clinical consultation shows that diagnosis is the key to managing pain.

Total time: 1:38:41

**\$139**

### Mounting and Evaluating Models *Occlusal Analysis*

If you hated mounting models in dental school, you will love this video. Dr. Spear shows you how to get excellent casts mounted appropriately on the articulator. You'll learn easy-to-follow, step-by-step instructions that will have you and your staff mounting casts in a very short time.

Total time: 1:14:02

**\$209**

### Maxillary Night Guard *Insertion & Equilibration*

In this presentation, Dr. Spear expands upon the insertion and equilibration of a maxillary full-arch appliance. The laboratory steps in smoothing and polishing are demonstrated, as well as patient instructions.

Total time: 1:53:19

**\$139**

### Clinical Exam *Joint and Muscles*

This DVD focuses on joint and muscle examination and how to identify patients that would be "high risk" for successful treatment. Dr. Spear demonstrates how to perform a five- to 10-minute clinical exam, and what to look and listen for throughout the procedure.

Total time: 1:22:36

**\$139**

### Occlusion and Muscle

Occlusion and Muscles at Intercuspal Position; Occlusion and Muscles in Guidance Schemes; Occlusion and Bite Force – Case Study

Total time: 1:48:12

**\$249**

### Occlusion and the TMJ

Occlusion and the TMJ; Occlusion and the TMJ 2; Treating the Patient with Disc Displacement

Total time: 2:42:03

**\$299**

## Occlusion

*Fine-tune your techniques, processes and patient communication skills with our extensive DVD library.*

### Designing Functional Occlusion

Using Existing Intercuspal Position;  
Occlusion and Mandibular Movements;  
Tripods and Joint Positioning

Total time: 1:40:37 ● ○

\$249

### The Occlusal Philosophies

Occlusal Concepts and Philosophies;  
Mandibular Position and Intercuspal Position

Total time: 1:44:40 ● ○

\$249

### Equilibration

Equilibration in Practice; Equilibration  
When Not Changing Anterior Teeth

Total time: 1:48:31 ● ○

\$249

*"With Spear DVDs, I learn on my own timeline and re-watch lessons as needed. I can now treat wear patients with confidence. It's like having Frank Spear on call whenever I need him."*

- Dr. K.E  
Augusta, ME

## RESTORATIVE

### Gummy Smile Considerations in Dental Esthetics

When patients identify gingival display as an area of concern, the restorative dentist must be able to determine the etiology prior to investigating treatment options. Learn to diagnose gummy smiles and the appropriate treatment therapies.

Total time: 2:34:34 ● ○

\$299

### Other Gingival Level Concerns in Dental Esthetics

Gingival levels are an important part of the esthetic picture and can be the key ingredient in some cases. This disc includes gingival levels in the esthetic zone, gingival level corrections using orthodontic intrusion, high smile lines and isolated periodontal defects.

Total time: 1:30:59 ● ○

\$209

### Biologic Width in Dental Esthetics

This course explains the concept of biologic width and applying it in diagnosis and treatment planning, and provides numerous examples that illustrate the technique of evaluation. Also includes treatment of difficult biologic width problems.

Total time: 1:00:59 ● ○

\$189

### Crown Lengthening in Dental Esthetics

Reviewing cases followed from start to finish, this course provides a comprehensive look at treating the movement of gingival margins, including facial only and circumferential osseous surgery and closed-flap laser surgery.

Total time: 2:08:44 ● ○

\$249

### Faces, Profile and Proportion in Dental Esthetics

Esthetics changed dentistry in the 20th century, and continues to be a powerful force in the 21st. Beyond cosmetic changes, this DVD explores looking at faces from an esthetic viewpoint, lips and their impact on the esthetics of the smile, facial profile and proportion, and creating realistic esthetic expectations.

Total time: 1:48:39 ● ○

\$249

### Midline Considerations in Dental Esthetics

While many believe that the midline must be in the center of the face, moving it restoratively is not always possible and not always necessary. Learn the benefits, risks and treatment plan options around midline discrepancies, and how to get predictable outcomes.

Total time: 0:56:20 ● ○

\$189

### Incisal Edge Position in Dental Esthetics

The position of the incisal edge of the maxillary central incisors is the cornerstone of esthetics, and the first step of every treatment planning process. Learn how to achieve the desired esthetics by altering tooth display and facial-lingual position, and the key role of phonetics and incisal edge position.

Total time: 1:27:01 ● ○

\$209

### Incisal Plane and Buccal Corridor in Dental Esthetics

Canted incisal planes create esthetic concerns that can be treated restoratively, but may require multidisciplinary dentistry. Learn how to recognize, evaluate and treat incisal plane problems, how to communicate edge position to the lab, and how to evaluate and treat arch width and buccal corridor concerns.

Total time: 1:16:01 ● ○

\$209

● ○ New for 2011 Content Included with Online Education Subscription

## RESTORATIVE

### Centric Relation Bite Records

This video will remove the mystique and uncertainty around making accurate centric-relation bite records, which are essential in developing a successful treatment plan. Dr. Spear demonstrates three methods in making accurate, usable bite records – one of which you're sure to incorporate into your practice.

Total time: 1:21:09

**\$139**

### Veneer Temporaries

#### Fabrication

Although creating exquisite veneer temporaries is difficult and often frustrating, it remains a vital part in communicating with both patient and lab. Watch as Dr. Spear designs, fabricates, trims, polishes, and customizes exquisite anterior veneer temporaries. After watching this DVD, you'll look forward to your next veneer case!

Total time: 1:03:39

**\$209**

### Instant Orthodontics and Esthetics

Many patients don't want orthodontics to correct alignment changes. This course covers the pros and cons of orthodontic vs. restorative solutions. Learn the six questions you must ask yourself as you decide with your patient which option is best for them.

Total time: 0:38:22 ● ○

**\$139**

*"I can't believe the amount and quality of content. Seriously great stuff."*

*- M.M  
Spokane, WA*

### Preparing Porcelain Veneers

#### Techniques & Materials

In-office patient demonstrations reveal the decision process around designing porcelain veneers and preparing teeth appropriately to receive them. Dr. Spear discusses the advantages of a bonded matrix to evaluate the facial esthetics, phonetics and occlusion before beginning tooth preparation. The end results are esthetically pleasing, occlusally functional veneers, and highly satisfied patients.

Total time: 2:34:33

**\$139**

### Anterior Full Crown Temporaries

Anterior full crown temporaries require more than good fit, acceptable occlusion and good contact. When correctly constructed, the anterior full crown temporary serves as a guide to your technician for form, occlusion and even color. Dr. Spear demonstrates the steps necessary to make your anterior full-crown temporaries extraordinary.

**\$209**

Total time: 1:02:37

### Cementing Porcelain Veneers Techniques & Materials

Dr. Spear shares more than 20 years of practical experience in seating veneers. Setting up the operator, removing provisionals, safely trying in fragile veneers, color compensating for a perfect shade match, choosing the right bonding system, selecting the appropriate cement, and easy clean-up techniques are presented in easy steps that you can implement immediately. Special attention is paid to occlusal, esthetic and phonetic refinements that create a successful seating appointment.

**\$139**

Total time: 1:05:18

### Material Selection Indirect Anterior Restorations

Watch a comprehensive review of products, with clinical photography illustrating case examples and possibilities. A sample of topics includes: homogenous and non-homogenous materials, failure/success rates and CEREC inLab®.

Total time: 2:54:12  
3 DVD SET

**\$425**

### Endodontically Treated Teeth Esthetic Management

Dr. Spear discusses the restoration of the endodontically treated tooth. The historical role of posts is compared to current guidelines for post placement. Post types are reviewed, as are cementation, build-up materials and internal bleaching.

Total time: 0:52:15

**\$209**

### Preparing Anterior Esthetic Crowns

Watch as Dr. Spear leads you through the entire process of creating naturally beautiful anterior crowns, including preparation, design, model demonstration and live patient video.

Total time: 1:59:54

**\$139**

### Cementing Anterior Esthetic Crowns

Dr. Spear discusses anterior crown cementation with both metal ceramic and all-ceramic crowns. Cement choices are reviewed, and two cases are demonstrated using light and dual-cured resin cement and resin-reinforced glass ionomer cement.

Total time: 0:53:07

**\$139**

## IMPLANTS & BRIDGES

### Multiple Missing Anterior Teeth *Esthetic Management*

Dr. Spear addresses the esthetic challenges posed by replacing multiple teeth. Several cases are reviewed, demonstrating different treatment options, including implant placement, pontics use and retaining strategic teeth to support hard and soft tissues.

#### 2 DVD SET

Total time: 1:54:20

**\$325**

### Immediate Single Tooth Implants *Treatment Planning*

Retaining soft tissue esthetics after extraction can be a major challenge of single-tooth anterior implants. Learn effective strategies for achieving optimal appearance with less treatment time and discomfort.

Total time: 0:56:39

**\$209**

### Single Tooth Anterior Implants *Placement Considerations*

Placement is integral to the single tooth anterior implant, affecting the final esthetic result and soft tissue longevity. This DVD examines placement considerations, including surgical guide construction and adjunctive procedures.

Total time: 0:54:35

**\$209**

### Single Tooth Implant *Implant Temporaries*

Why is an implant temporary key to molding soft tissue? How does good contour create ideal gingival levels? Learn techniques associated with provisional fabrication using direct composite, a denture tooth and a matrix, as well as the advantages of screw-retained provisionals.

Total time: 0:51:23

**\$139**

### Ovate Pontics *Soft Tissue Restorative Considerations*

Master the challenge of managing ovate pontic design to achieve exceptional results. Dr. Spear shares his preferred approach to communicating ovate pontics to the technician.

Total time: 0:54:43

**\$139**

## CASE PRESENTATION

### The Process in Detail

*"How do I get my patients to accept treatment?"*

Dr. Spear examines one of the major challenges of dentistry as he shares his immense experience in increasing case acceptance. Learn how to create curiosity during exam and treatment planning so that your patients will accept your best dentistry. This DVD will change your practice success. More importantly, it will change your own satisfaction in dentistry.

**3 DVD Set  
ONLY \$350**

Total time: 2:50:19

Case Presentation

## WORN DENTITION

Worn Dentition

### Evaluation and Diagnosis of the Wear Patient

This comprehensive course spans evaluation and diagnosis of the wear patient, etiologies of wear, research on bruxism, erosion and corrosion and wear patterns. Plus chapters on wear and eruption patterns and changes caused by wear.

Total time: 2:51:38

**\$299**

### Integrating Esthetics and Function in Wear Patients

A complete look at integrating esthetics and transferring functional information in wear patients. Plus, using EFSB to treatment plan, sharpening your observation and reference skills to identify options for each specific case.

Total time: 1:45:10

**\$249**

### Interdisciplinary Management of Wear Patients

Learn the necessary steps that must be taken and communicated to the interdisciplinary team to ensure success. Includes evaluation, diagnosis and appropriate treatment options for overbite, overjet, intrusion, crown lengthening and gingival level problems.

Total time: 2:26:48

**\$299**

### Occlusal Guidance and Design in Wear Patients

Looking at cases from start to finish, this course includes trial therapy and evaluation when attrition is present, restoring anterior teeth in patients with broad patterns of wear, occlusal design with pathway onto end-to-end wear and cross-over wear.

Total time: 2:40:23

**\$299**

### Trial Therapy and Holding Patterns in Wear Cases

This course follows a patient through the diagnostic and treatment process necessary to solve extreme tooth wear. Also, the concepts and applications of crown lengthening, and the essentials of creating excellent anterior gingival esthetics.

Total time: 1:26:41

**\$209**

### Material Selection for Wear Patients

This comprehensive disc includes: Laminated vs. monolithic and strength vs. esthetics in indirect restorations, the esthetics of posterior restoration design and indirect ceramic materials, and posterior chairside CAD/CAM and lab composites.

Total time: 2:51:41

**\$299**

### Appliance Selection for Wear Patients

This course illustrates the process of discovery and the treatment of an asymmetrical smile created by apically positioned gingival margins and papillae. Learn how decisions are based on a blend of facially generated treatment planning and discussions with the patient.

Total time: 0:36:38

**\$139**

### Implant Utilization for Wear Patients

A complex look at implants and attrition, including when implants MUST provide anterior guidance, number of implants/splinting/screw vs. cement, connecting teeth and implants and high-risk patients.

Total time: 3:14:24

**\$349**

● ○ New for 2011

## DVD MULTI-TITLE PACKAGES

Dr. Spear has chosen the titles in our multi-disc sets for comprehensive learning in seven specific areas of study.

### OCCUSION PACKAGE

#### 7 Titles Included:

- Occlusal Philosophies
- Designing Functional Occlusion
- Occlusion and the TMJ
- Occlusion and Muscle
- Occlusal Restorative Design
- Appliances
- Equilibration

**ONLY**  
**\$946<sup>50</sup>**

Reg. \$1,893

Total time: 15:16:03

### WORN DENTITION PACKAGE

#### 8 Titles included:

- Evaluation and Diagnosis of the Wear Patient
- Integrating Esthetics and Function in Wear Patients
- Interdisciplinary Management of Wear Patients
- Occlusal Guidance and Design in Wear Patients
- Trial Therapy and Holding Patterns in Wear Cases
- Material Selection for Wear Patients
- Appliance Selection for Wear Patients
- Implant Utilization for Wear Patients
