

## SL52 CURTAIN WALLING SYSTEM

Designed to offer a flexible, high performance solution, the SL52 Curtain Walling System is a capped solution that enables specifiers to create impressive façades that not only enhance the aesthetics of a building but also provide the functionality and performance required to meet and exceed current standards.

### DESIGN FEATURES

- 52mm capped high rise curtain walling system
- Glass loads of up to 400kg
- Can be faceted, curved or angled
- Various drainage methods including mullion and zonal
- Wide range of face caps to meet your design requirements
- Fully integrated vent options including POV, TBT, Top Hung, Side Hung, Fixed Light
- Large range of box sizes to optimise small to large spans of glazing
- CWCT Certified

### OPTIONS

- Standard, Steel-hook and Alu-steel framing options available
- Glazing and infill range from 6mm - 50mm
- Fully integrates with all AluK window and door ranges
- Available in single or dual colour option, polyester powder coating and anodised finishes

### CONFIGURATIONS

- Flexible design allows SL52 to be tailored to suit your project needs
- Multiple construction options including traditional shearblock T-connectors, front loaded transoms with sprung T-connectors and special profiles that achieve semi-united off-site construction
- Concealed mullion drainage options and visible zonal drainage option
- Varying mullion depths allowing a wide range of achievable Ixx values
- Wide range of mullion depths ensures maximum structural optimisation

## SL52 CURTAIN WALLING TECHNICAL SPECIFICATIONS

The SL52 system is thermally broken and has been designed to offer flexibility in specification and installation. A complete range of configurations and options are available to meet the needs of your project's aesthetics and performance. These include a wide selection of cap designs and the incorporation of fixed lights,

opening vents and an extensive range of doors. The system is available in any RAL colour and can be dual colour (inside and out) if required. Anodised finishes are also available with marine grade guarantees on request.

SPECIFICATIONS	CAPPED SYSTEM
<b>Performance &amp; Accreditation</b>	
Uf-Value (Double Glazing)*	1.297 W/m²K - 1.334 W/m²K
Uf-Value (Triple Glazing)**	1.206 W/m²K - 0.88 W/m²K
Green Guide Rating	B - C Rated
Acoustic Performance (dB)	Rw (C;Ctr) 37 (-1;-4) dB
Air Tightness (Pa)	Class 4
Water Tightness (Pa)	Class E1050
Wind Load (Pa)	Class E2400
Security	npd
CWCT Certified	Yes
<b>Configurations</b>	
Opening	Open In & Open Out
Top Hung	●
Side Hung	●
Fixed Light	●
Tilt & Turn	●
Parallel Opening Vent	●
Single Door	●
Double Door	●
Sliding Door	●
<b>Size Limits</b>	
Max Vent Weight	—
Top Hung	90 Kg
Side Hung	130 Kg
Fixed Light	200 Kg
Tilt & Turn	130 Kg
<b>System Features</b>	
Frame Options	52mm
Dual Colour Option	●
Multi-Point Locking	●
Glazing Options	Capped
Glazing Thickness	6mm - 50mm
