

## **Maintenance COV-19 survey**

*please answer the following safe distance questions*

### **Before maintenance visit:**

1. Does anyone in the home have a fever or experiencing flu/cold symptoms?
2. Has anyone in the home been out of the country in the last 30 days?
3. Has the problem work area been disinfected as best as possible?
4. While the vendor is working can all occupants maintain a safe distance (10-15 feet)?
5. Did the vendor sanitize his hands before entering the unit?

### **After maintenance visit:**

1. Did the maintenance person clean and sanitize work area before leaving?
