

Our Commitment Towards a Sustainable Future...

"Through our partnership with J.J. Richards & Sons,

Pacific Hygiene Systems

is committed to an environmentally sustainable future."

**Our non-recyclable waste is delivered to the Ti-Tree
bioenergy facility where it is converted into clean energy.**

Our waste helps to:

- Provide a renewable energy source to power 16,000 households
- Reduce damaging greenhouse gas emissions to the atmosphere
- Reduce the need to mine non-renewable fossil fuels
- Rehabilitate an old coal mine site
