INTRODUCING NEW CLAD

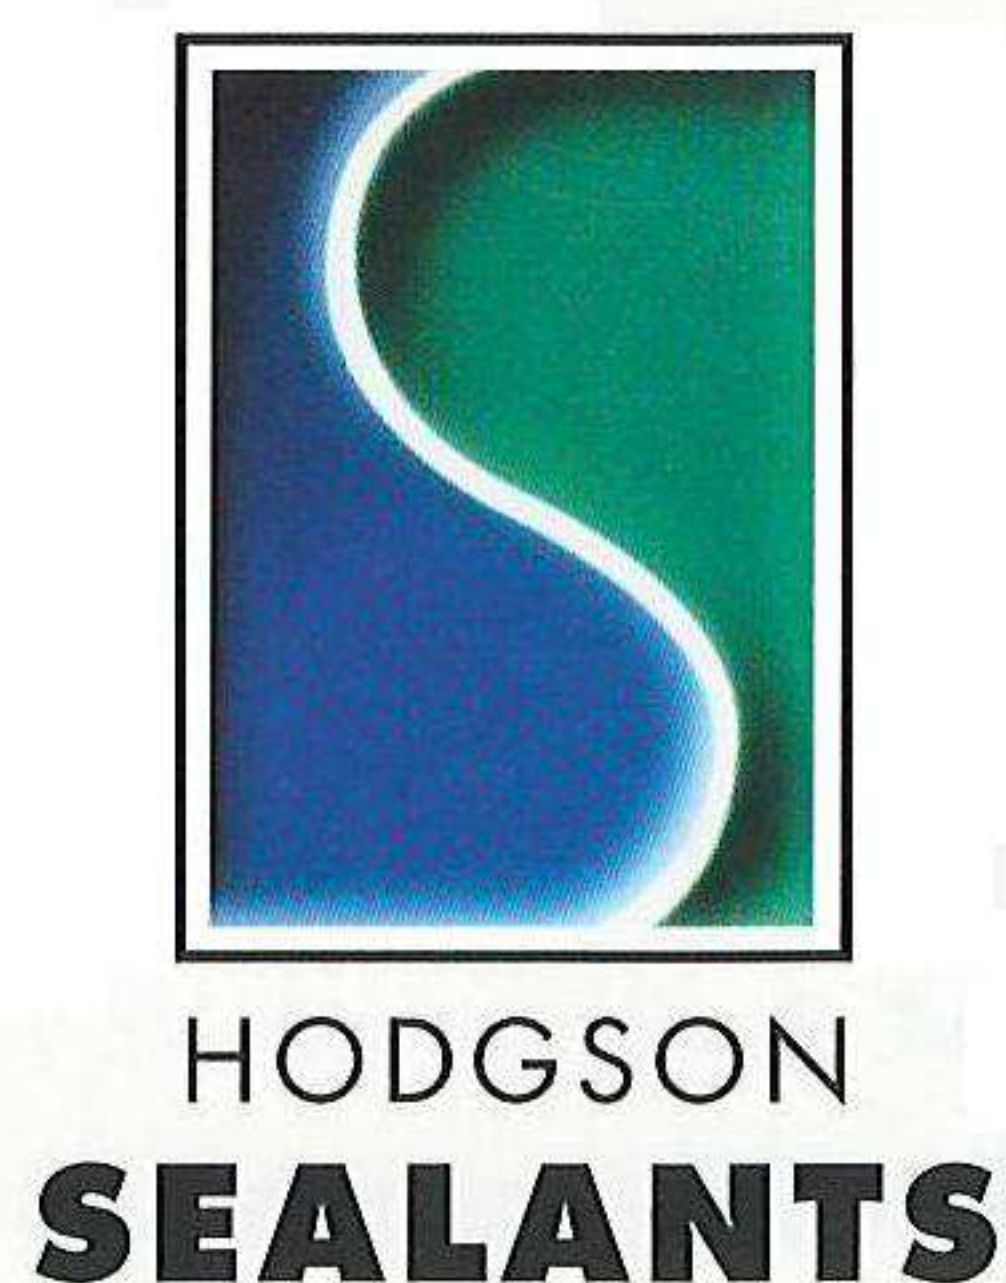

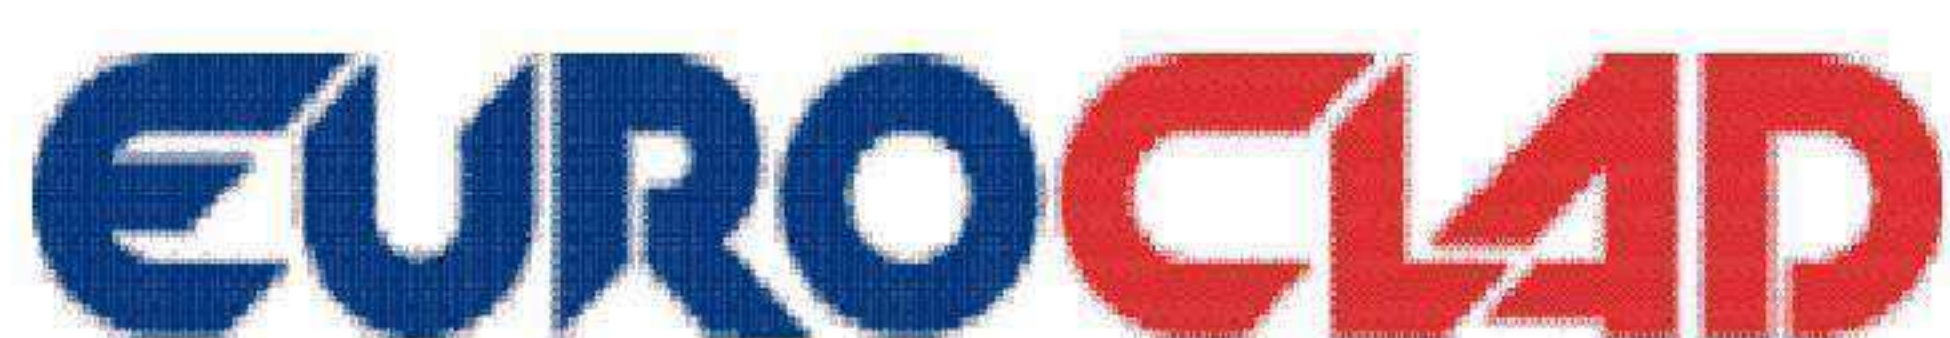

New Clad is *the* specialist supplier and your leading partner for all aspects of roofing and cladding materials. We are a major stockist and distributor, offering a wide range of quality products for all types of applications.

Whether your project is re-furbishment or new build - from a domestic garage to a complete building, with over 25 years experience in the industry, we have the ability to meet your requirements.

Give us a call or visit our premises for your one stop roofing and cladding shop - offering an unrivalled level of service, advice and knowledge.

This catalogue outlines some of the products we offer - if you have any specific requirements, do not hesitate to contact us.

New Clad are approved stockists & distributors of quality products from the U.Ks leading manufacturers including:-

Profiled Sheetting

New Clad offer a comprehensive range of profiles & material finishes.

Profiles include box & corrugated single skin sheet, liner panels, composite roof & wall panels. Materials are generally steel in 0.5mm or 0.7mm thick, although some profiles are made in aluminium.

Finishes include - Plastisol Tata colorcoat HPS200 & leathergrain, coloured polyesters and plain galvanized in prime & non-prime materials.

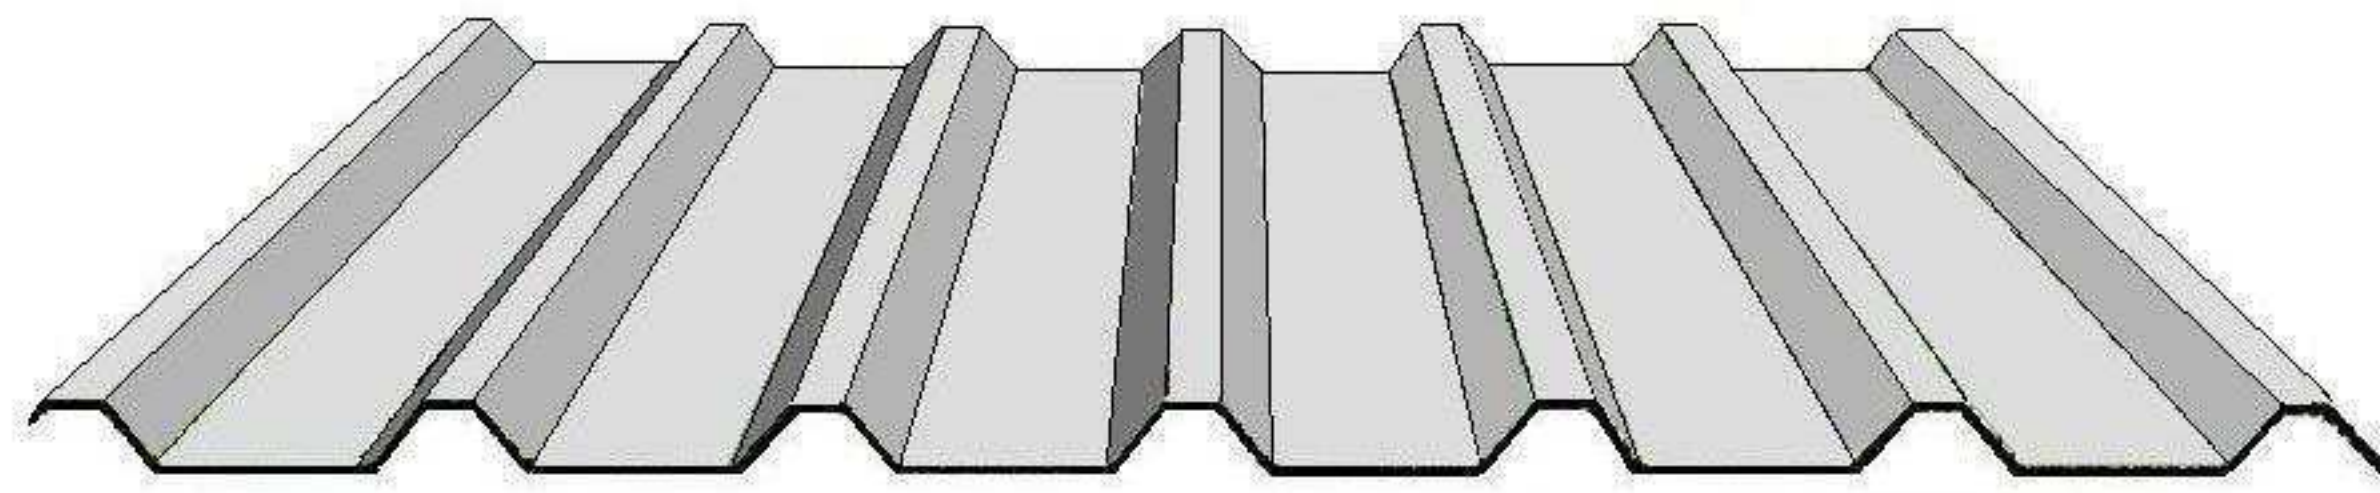

Profiled sheets can be rolled to order in any length, and a wide range of colours.

A standard range is also available from stock for immediate delivery.

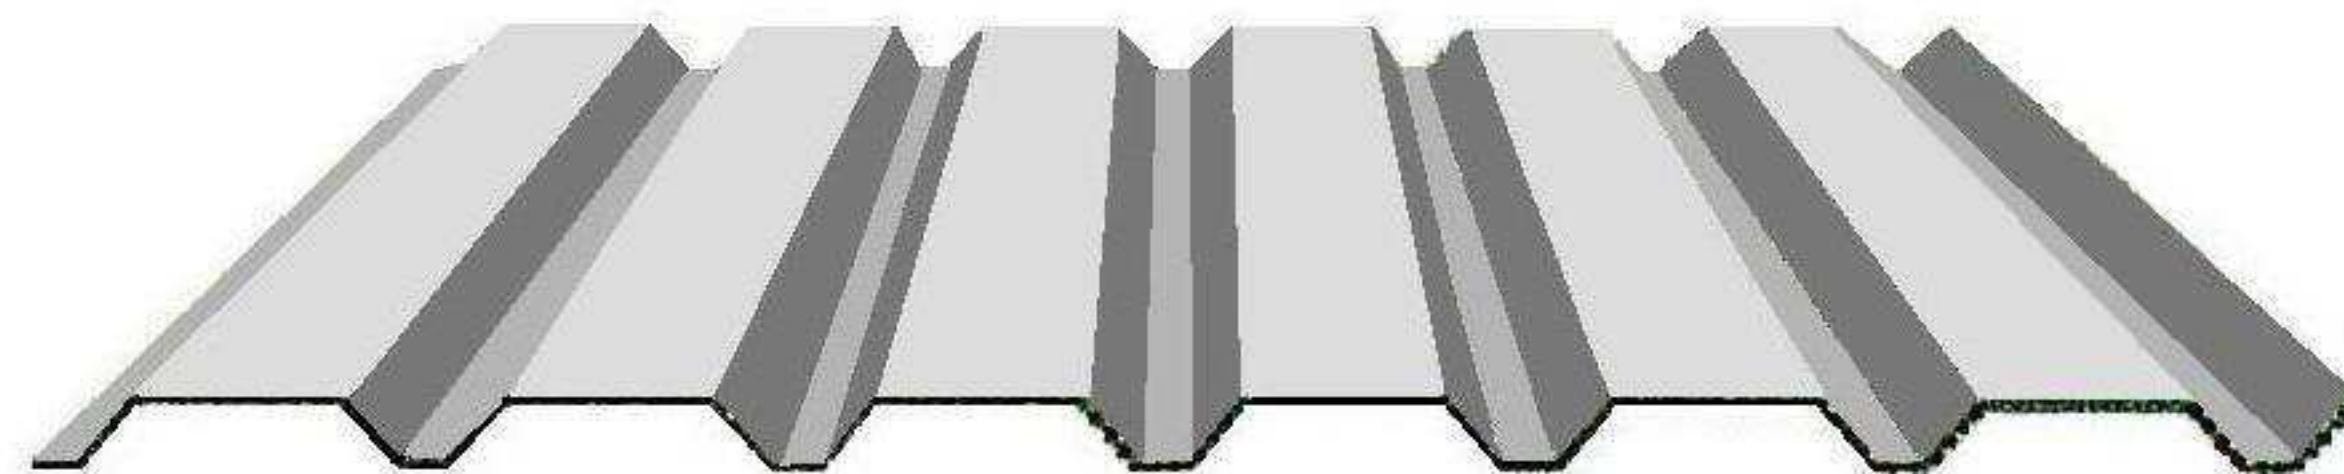

We also supply single skin sheets with an anti condensation fleece, vent air sheets and curved profiles.

Typical Profiles

Flashings

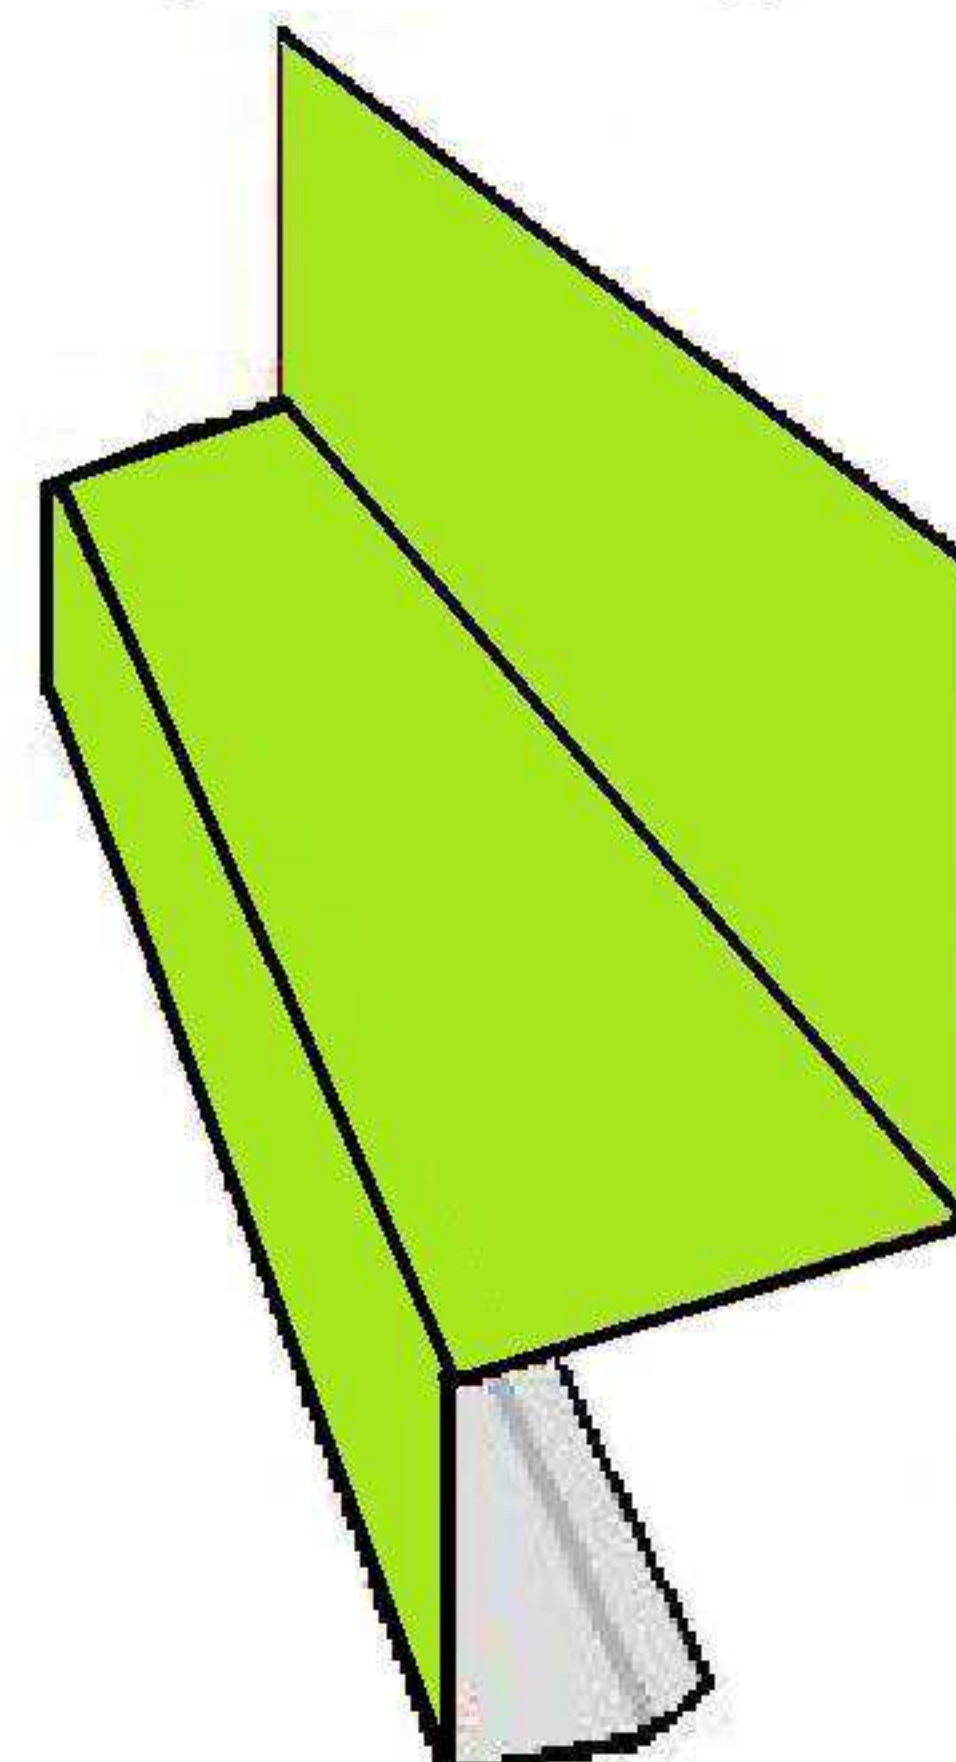

Purpose made in a range of materials and finishes to meet your on site requirements. From standard 0.7mm plastisol coated steel to 3mm Aluminium with mill or powder coated finishes in all B.S & RAL colours. With lead times as fast as two days and standard lengths of 3000mm & 3658mm, ordering flashings is easy.

Typical flashing details

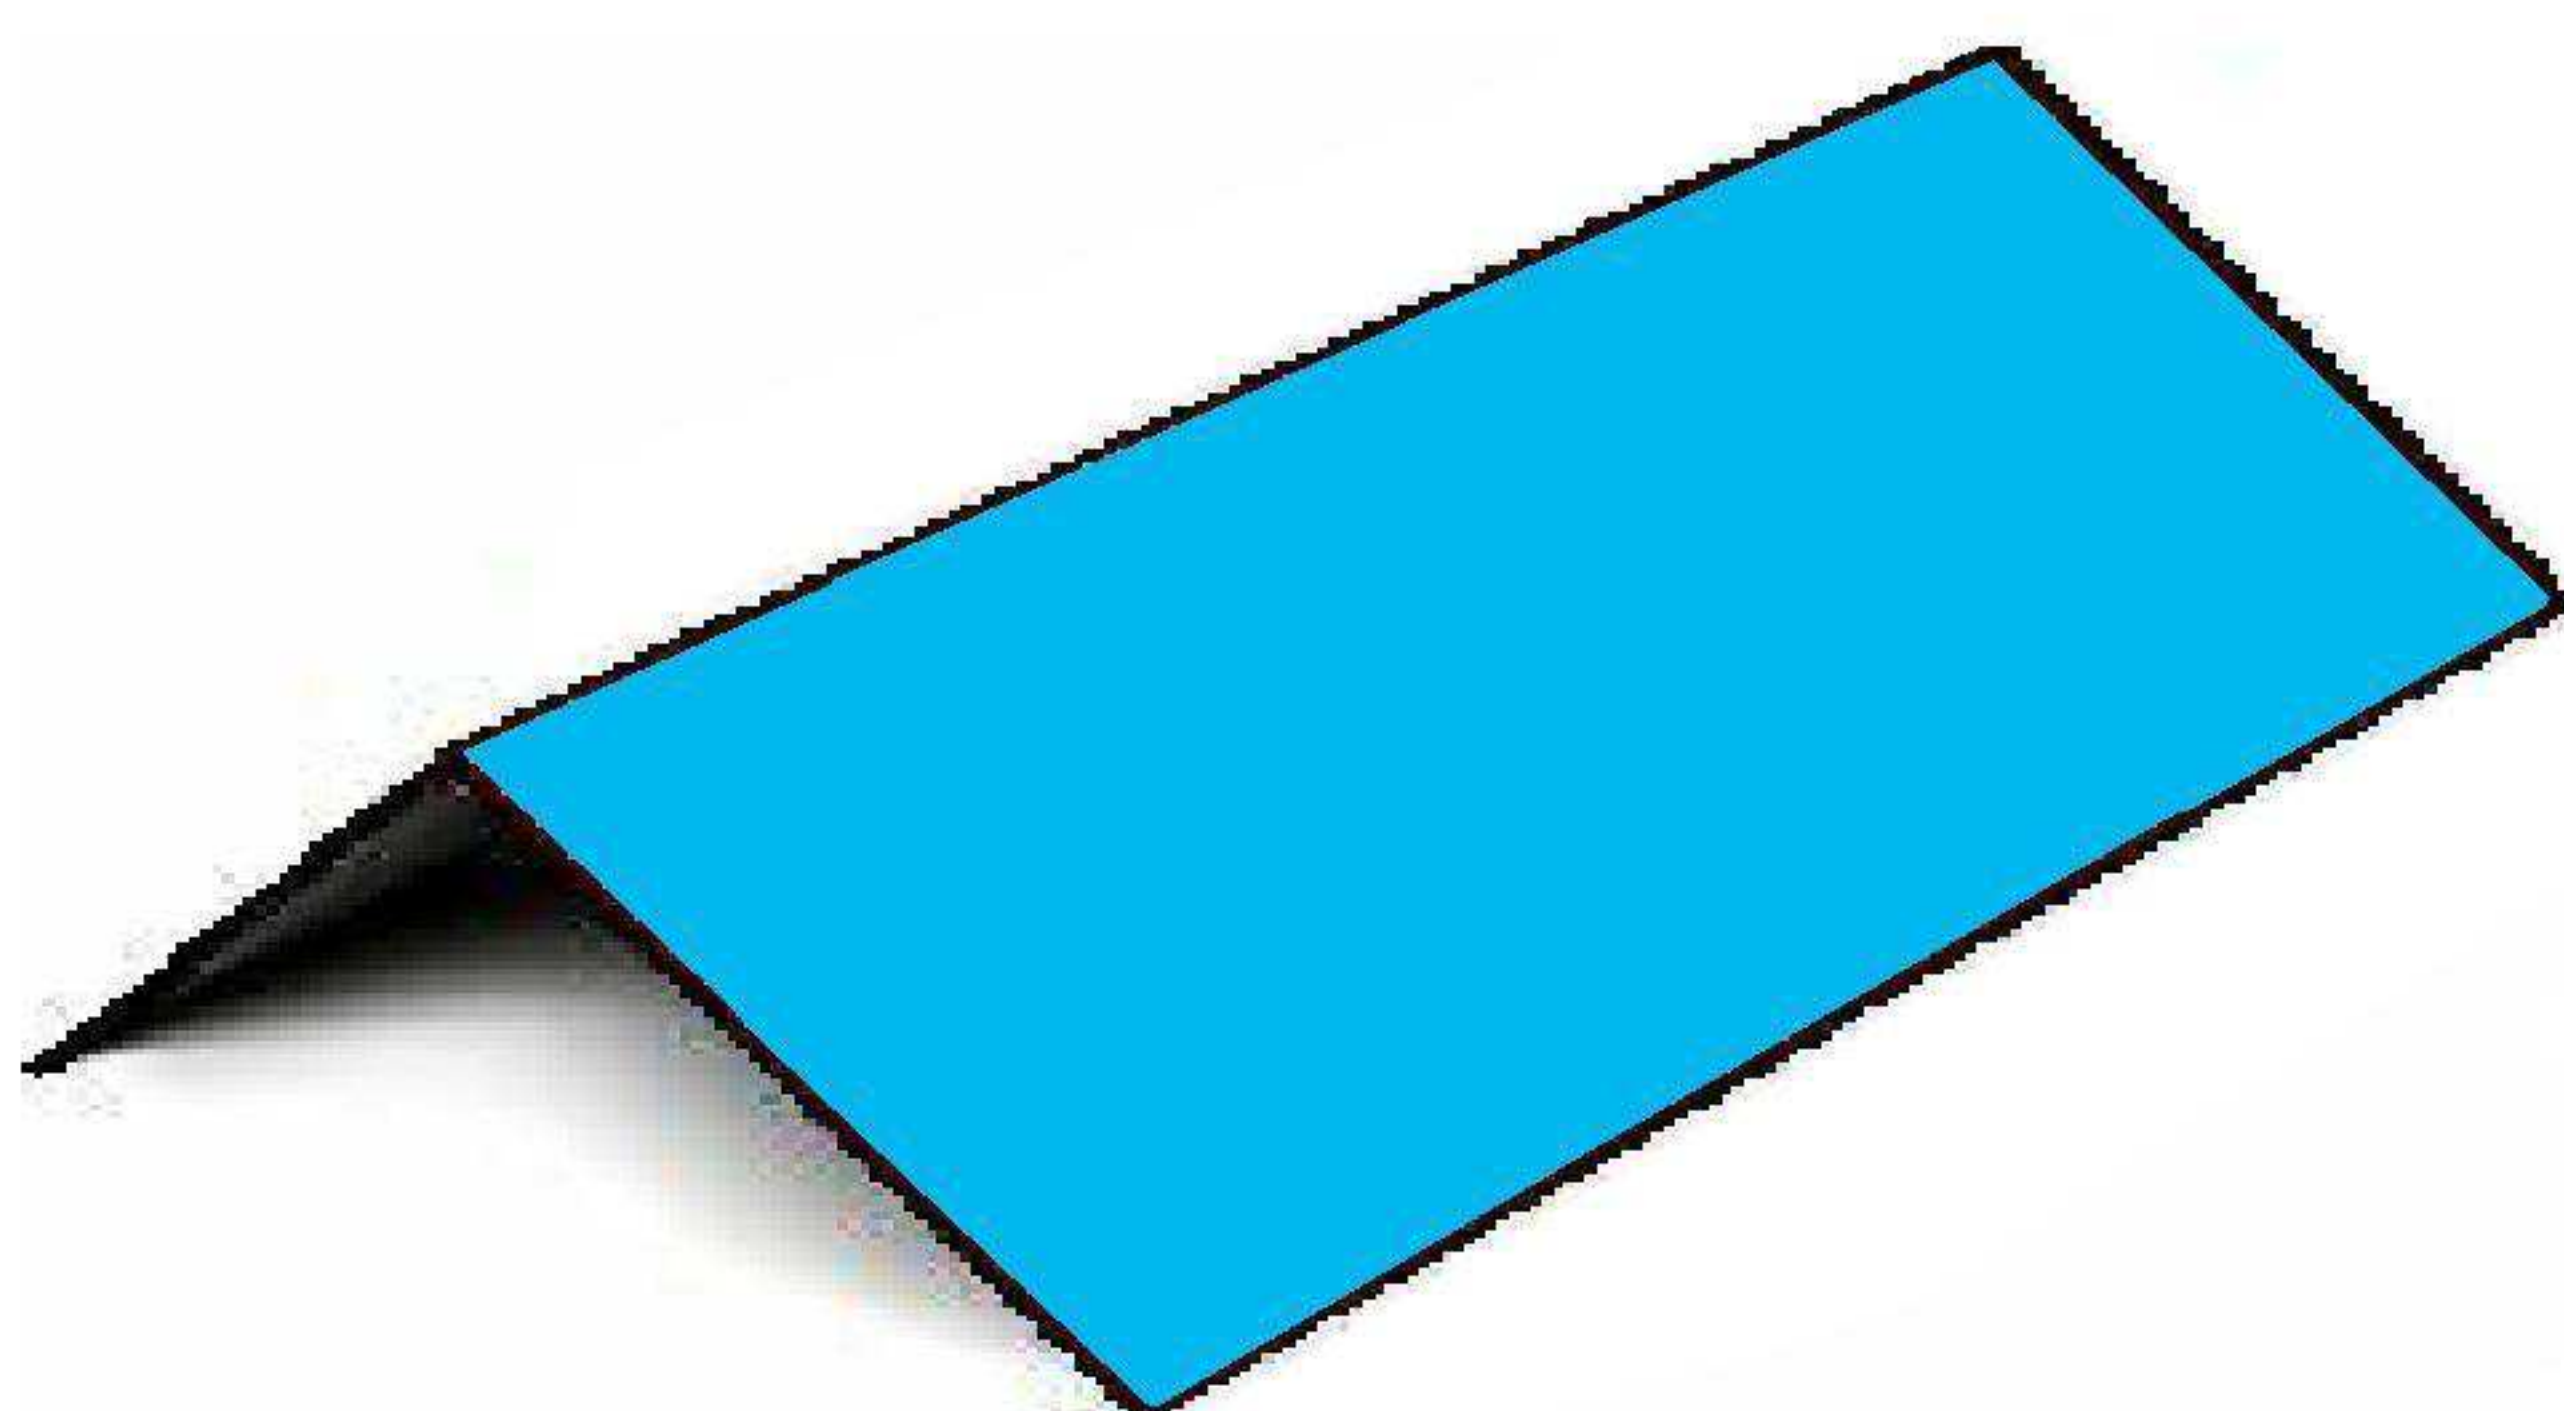

Barge flashing

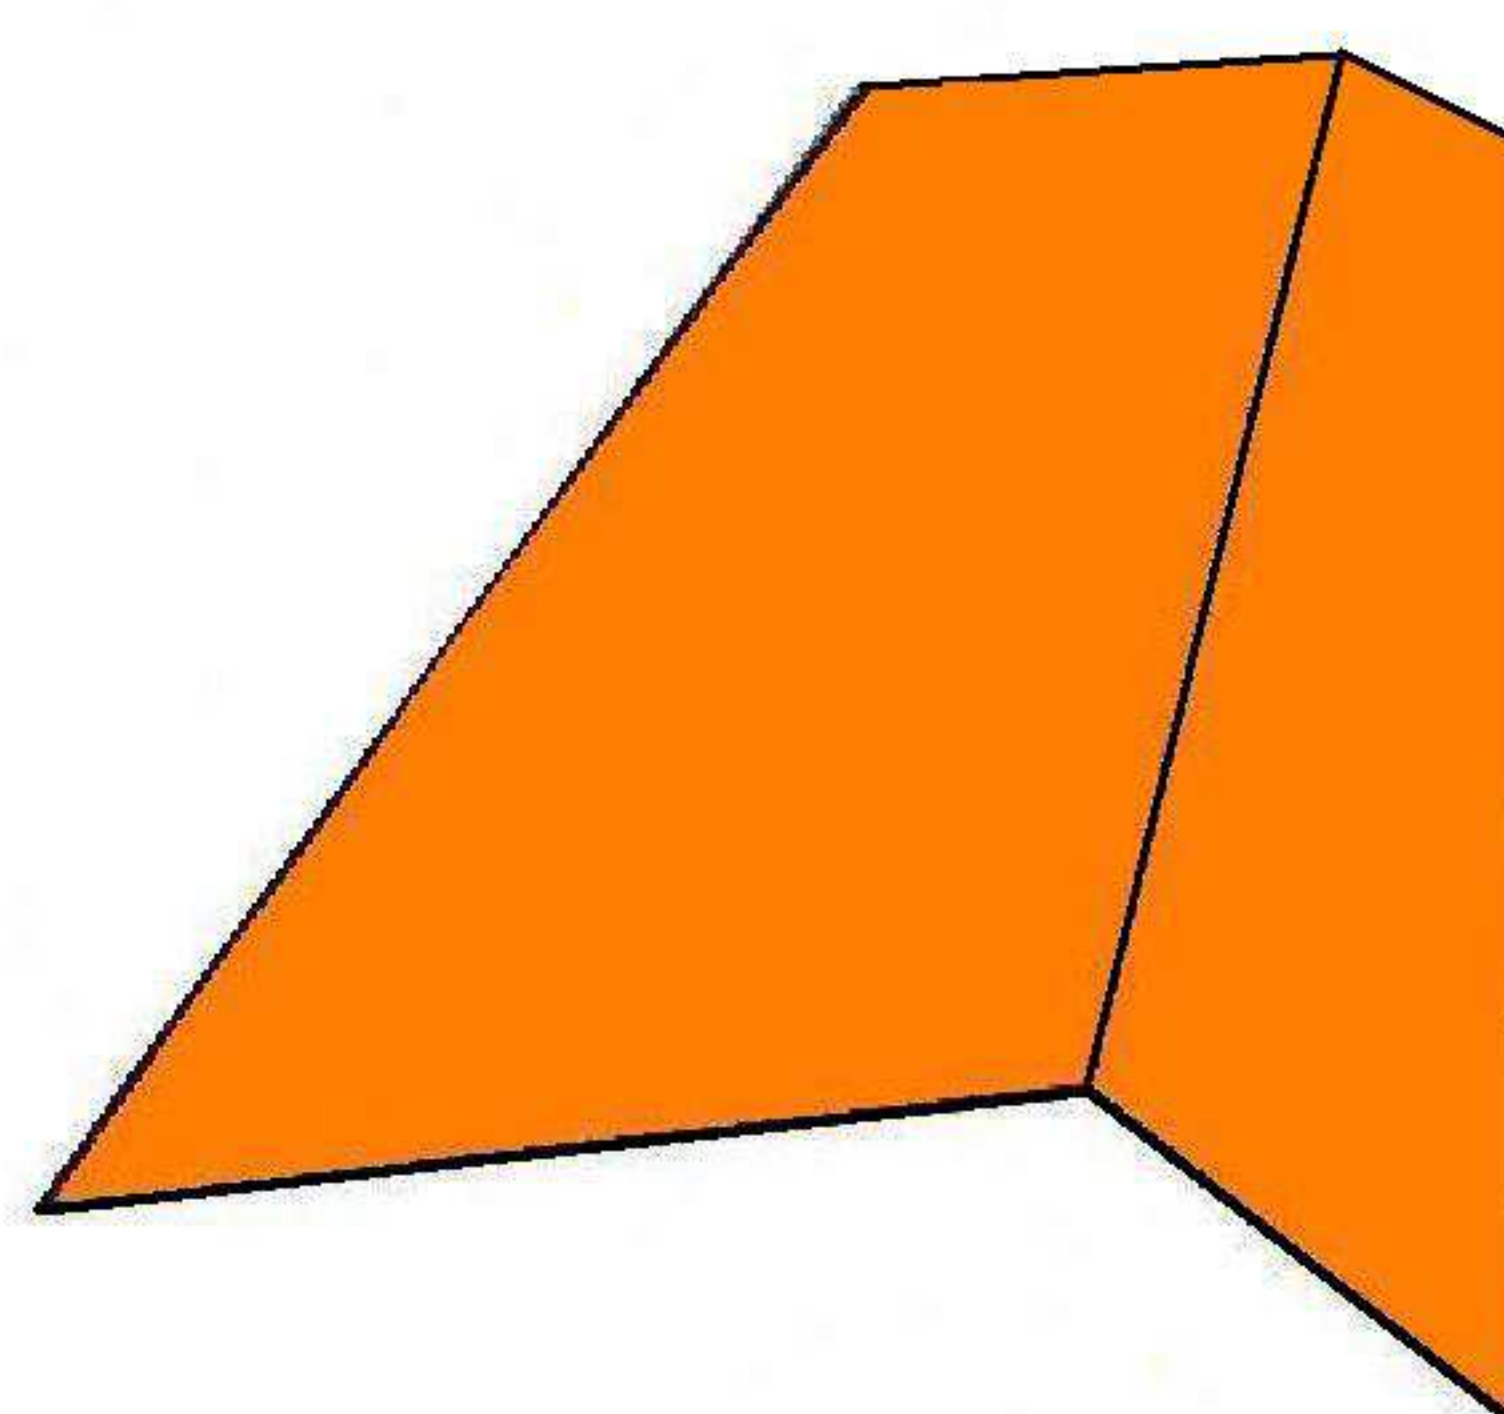

Drip Flashing

Ridge Flashing

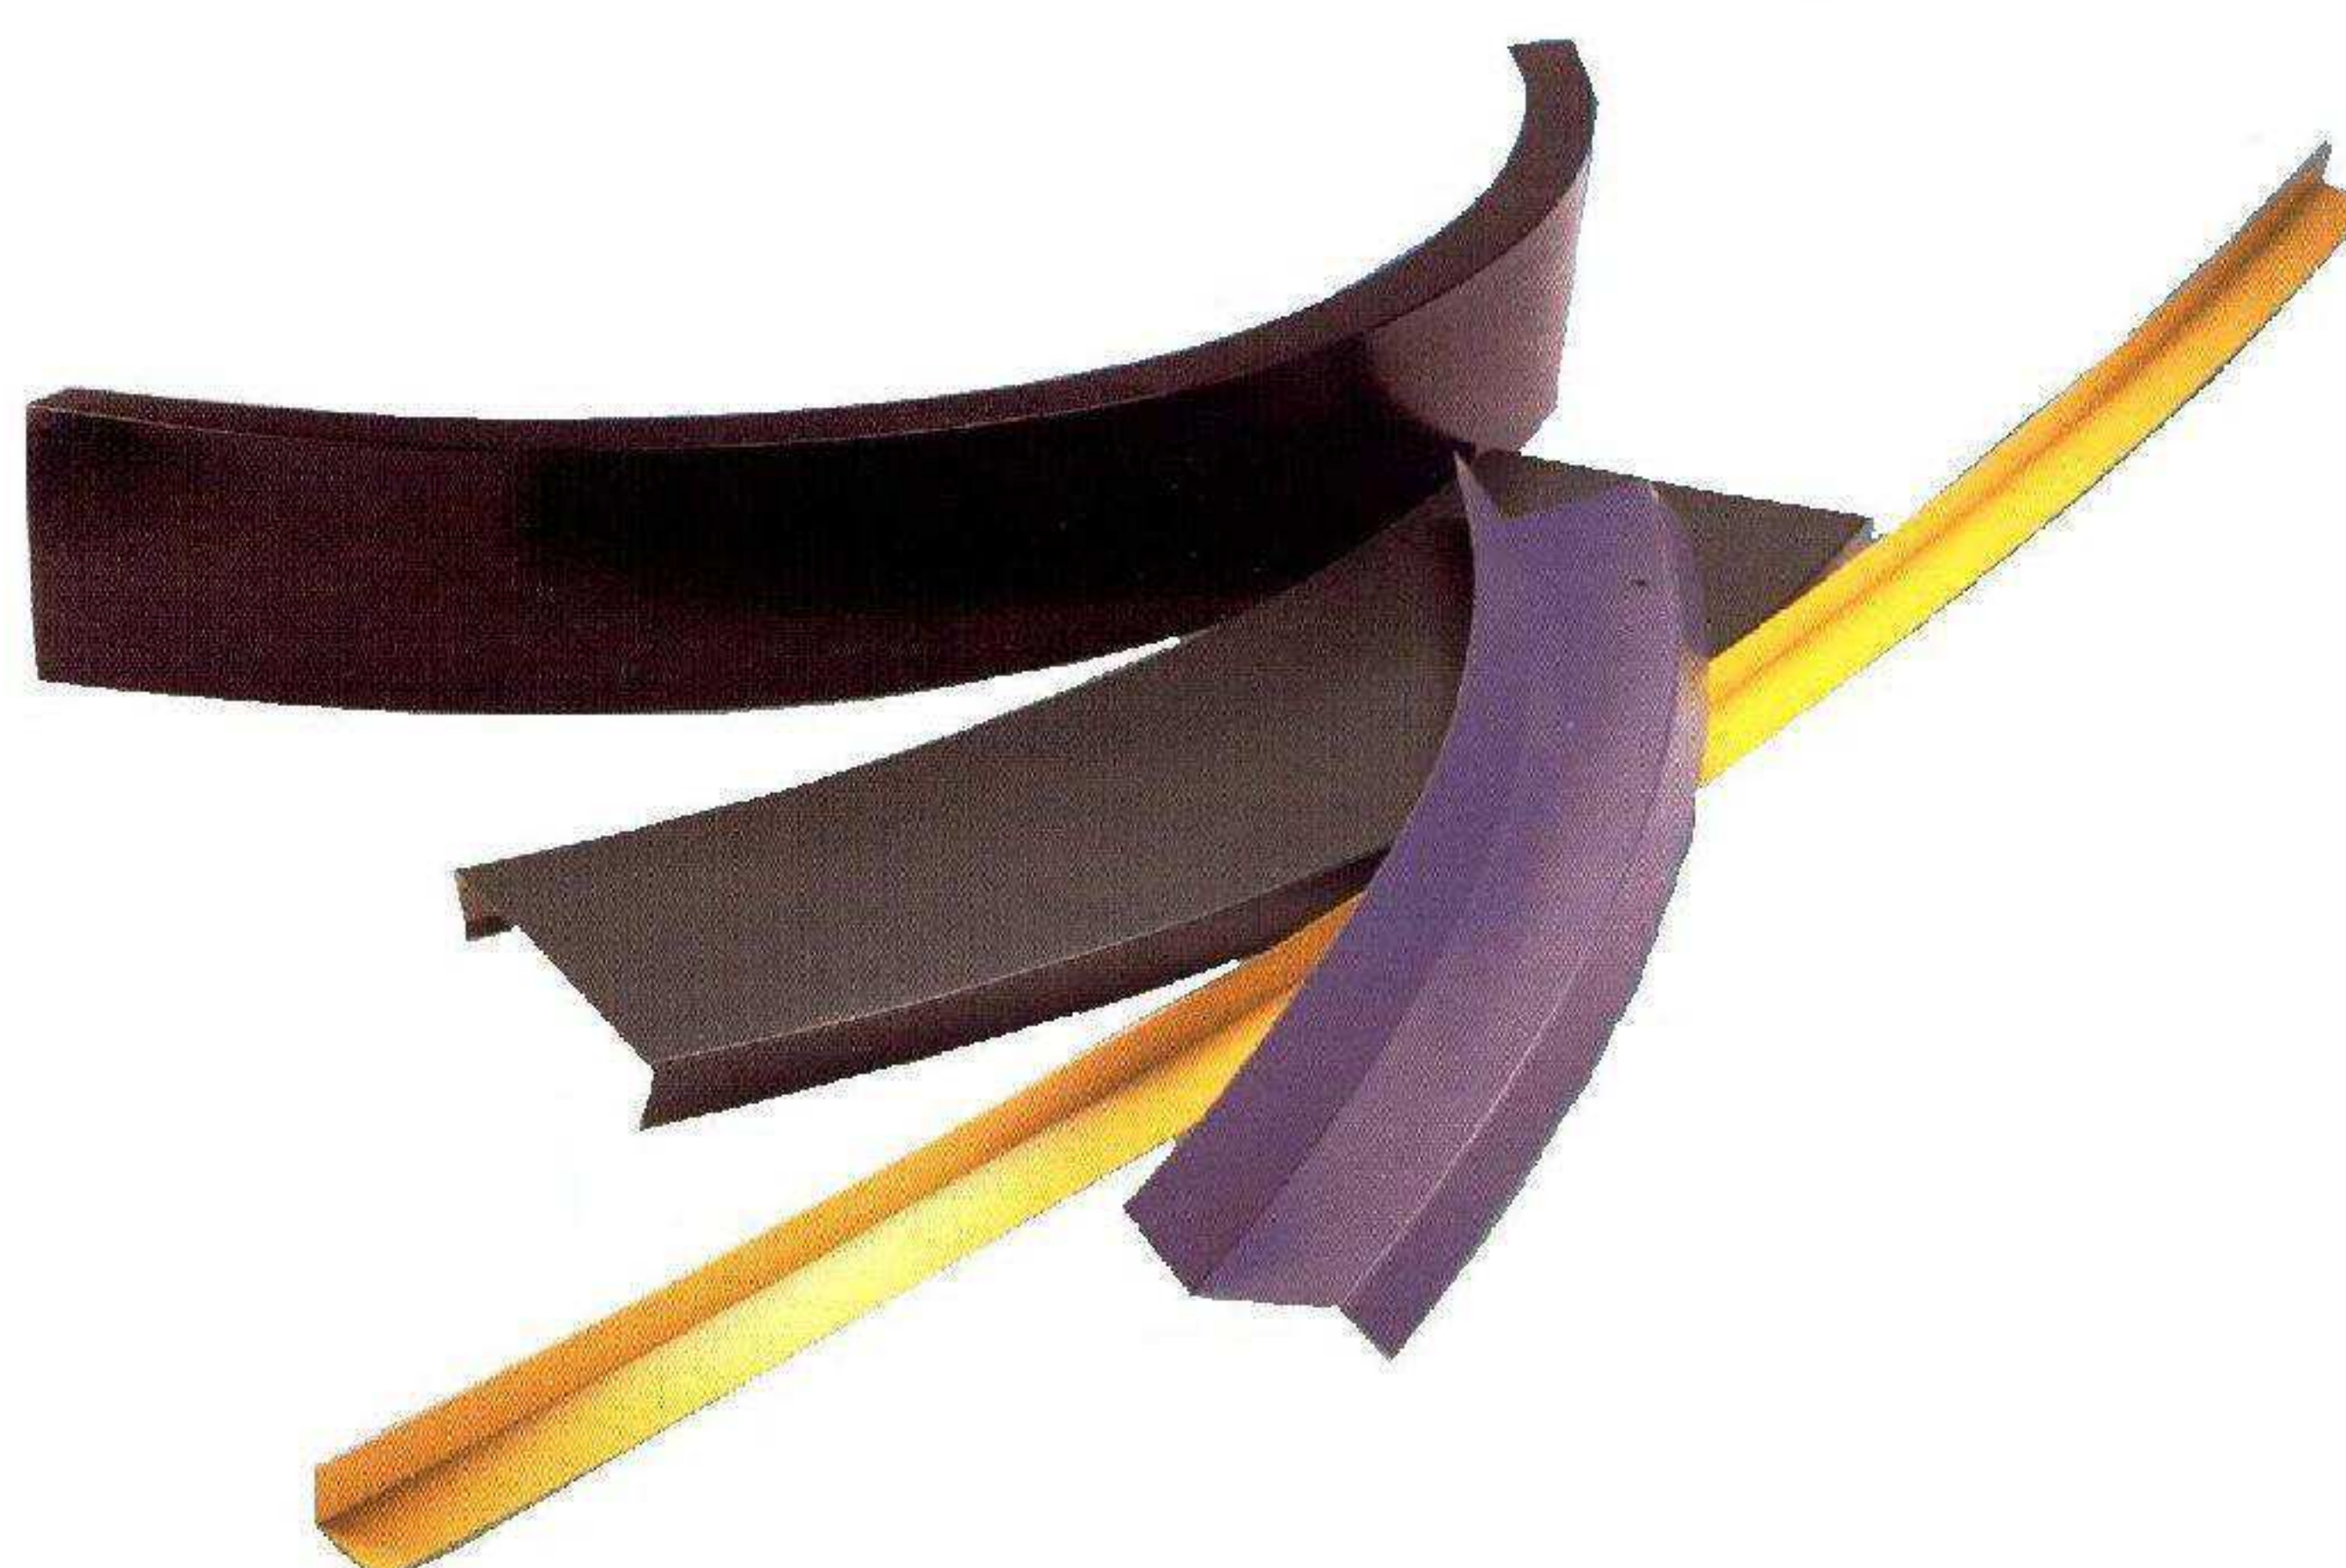

Eaves Flashing

Fabrications

A wide range of fabricated items are available, including Louvres, Soakers, Upstands & curved flashings, all custom manufactured to order in various materials & finishes.

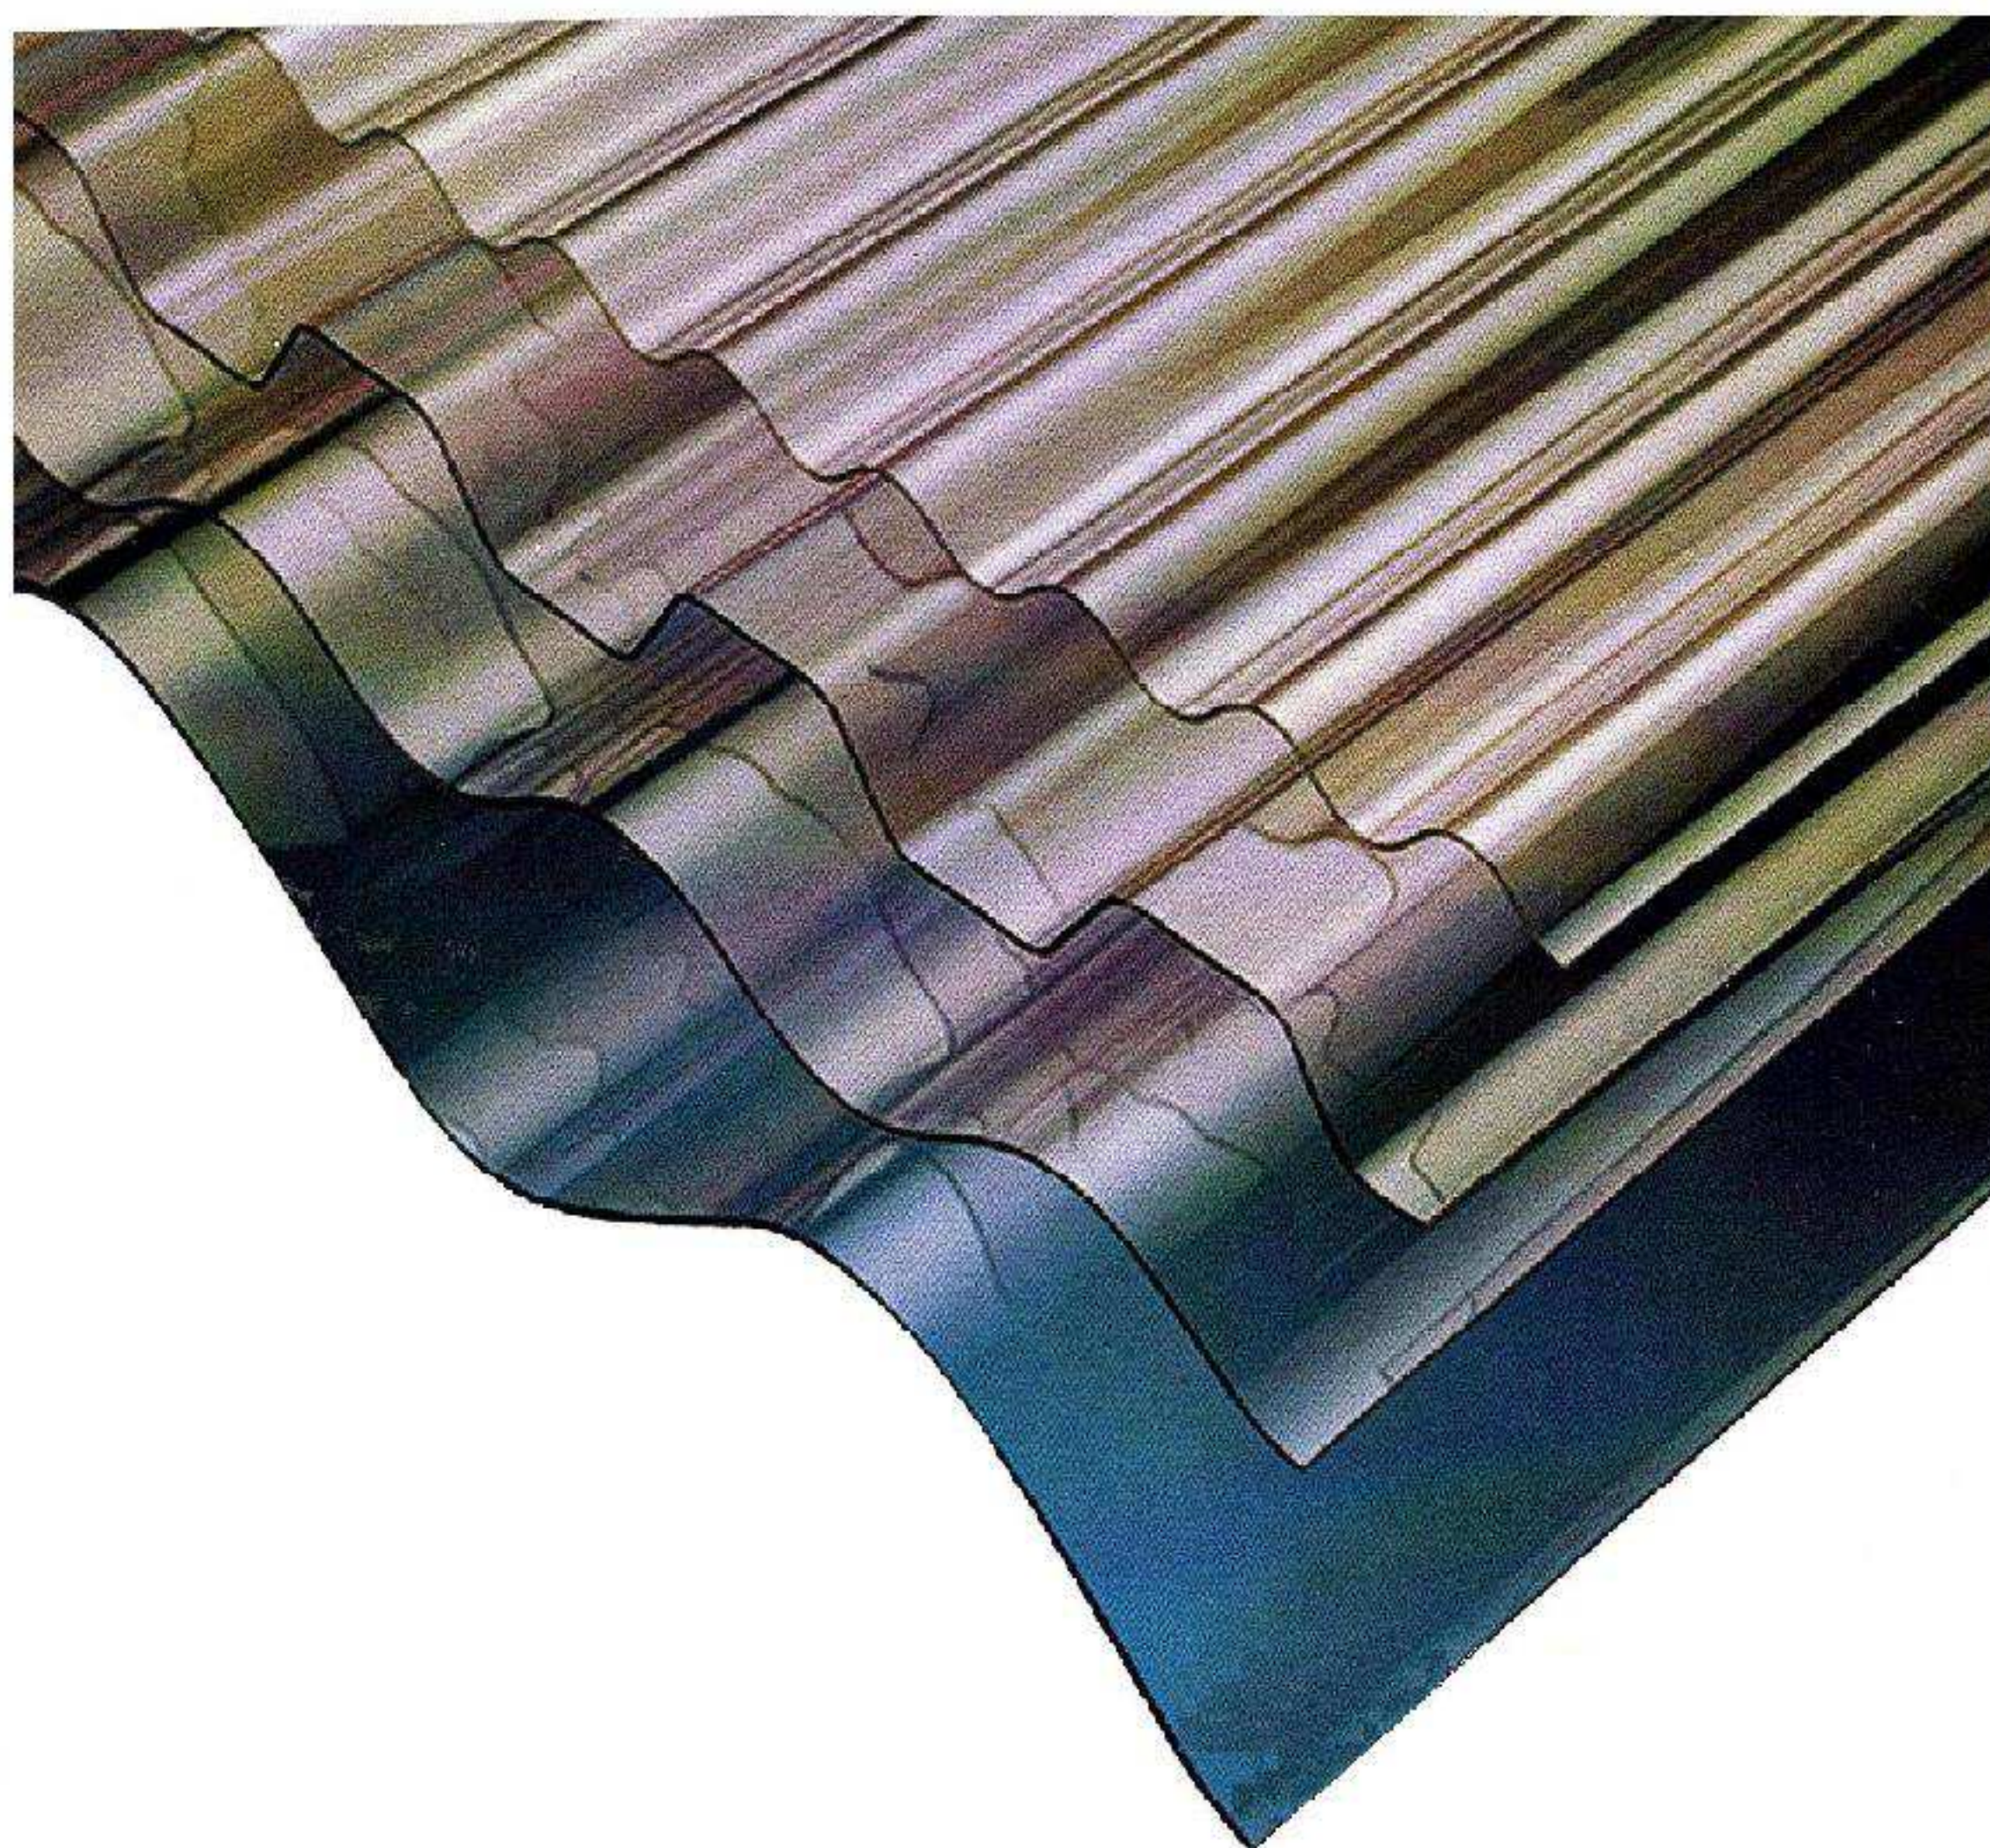

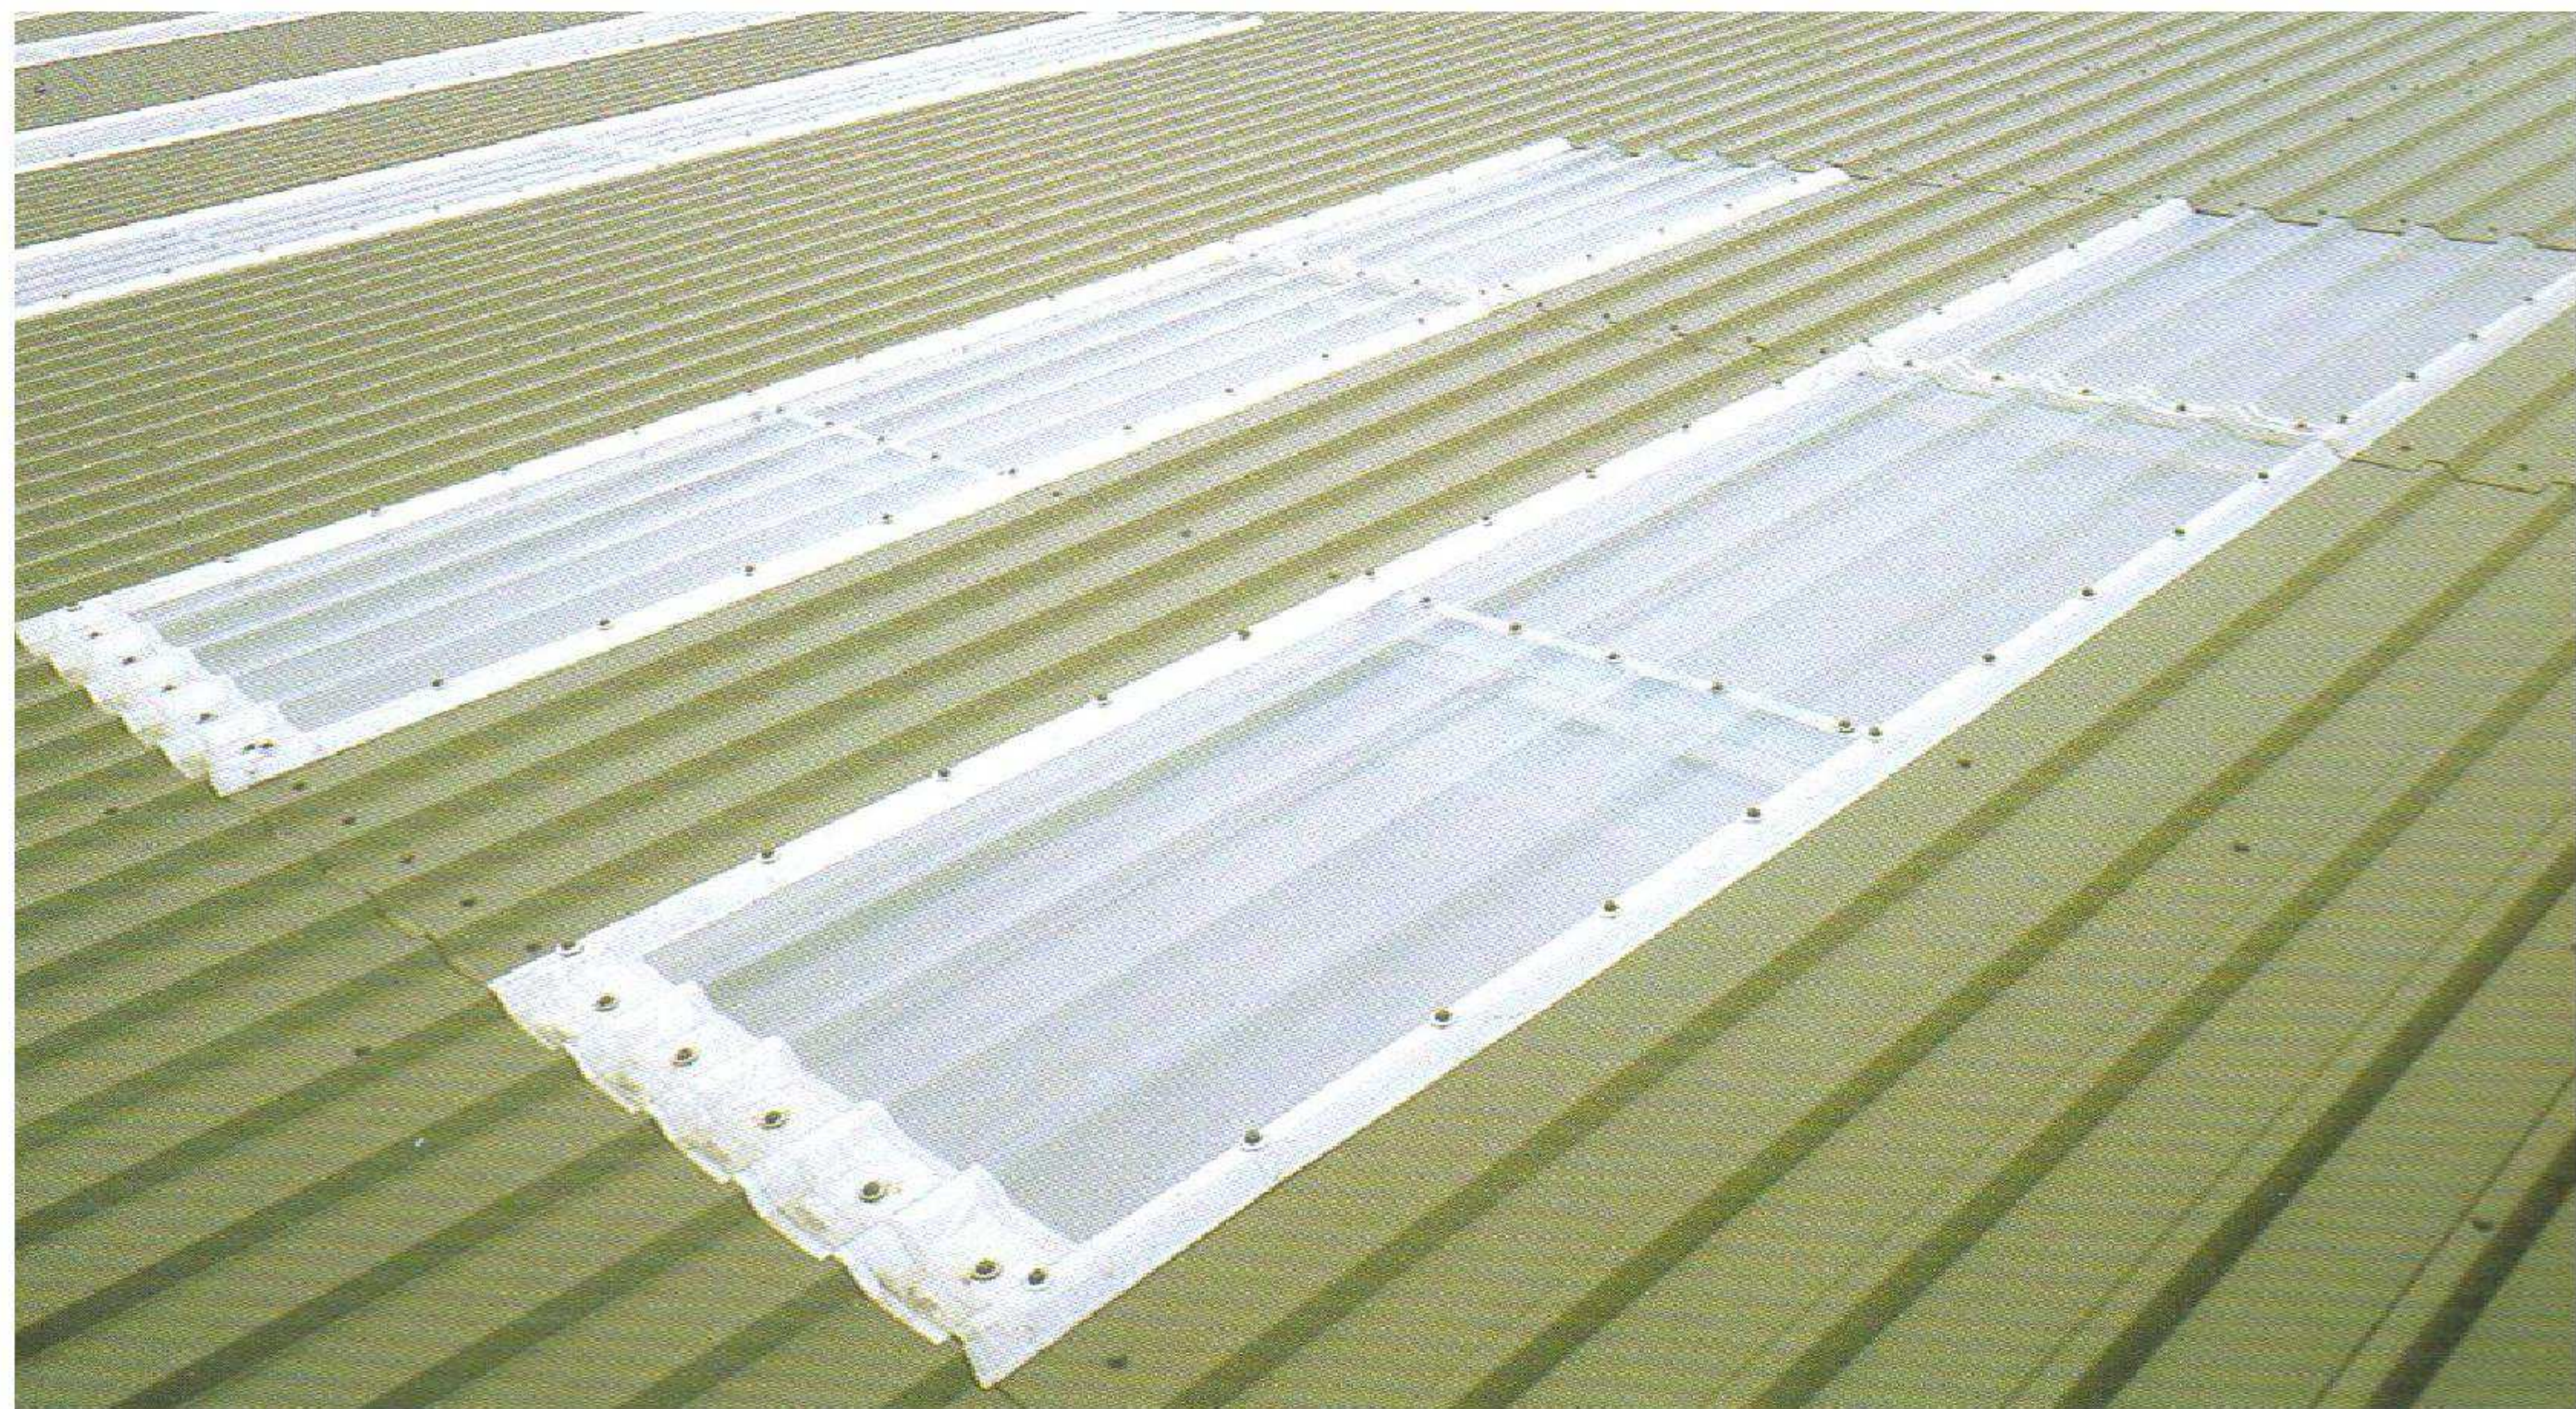

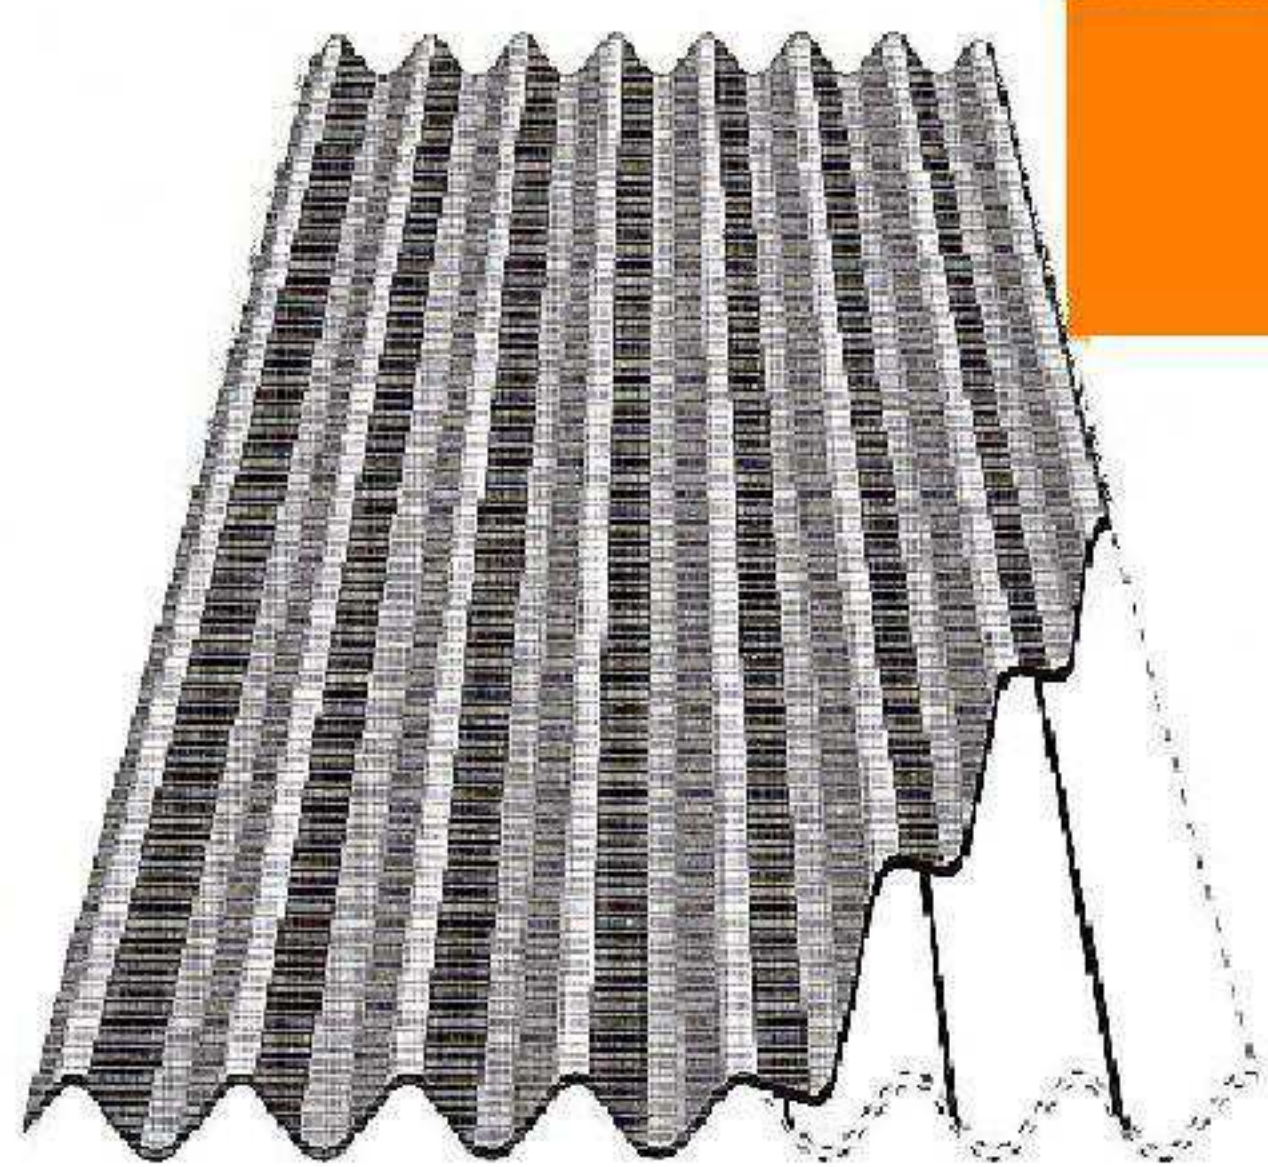

Rooflights

Rooflights provide natural daylight into a wide range of buildings. New Clad recommends the use of GRP (Glass Re-inforced Polyester) rooflights for their quality, strength & light transmission levels. As an approved stockiest & distributor of Filon products, we can supply over 800 different profiles in various fire ratings & sheet weights to comply with all building & H.S.E regulations.

We offer single skin & double skin options, factory assembled double & triple skin units & barrel vault profile units.

We also supply polycarbonate & PVC sheeting & Roof domes in various sizes.

Fibre Cement Sheets & Accessories

Fibre cement sheeting is a cost effective roofing option, it is virtually maintenance free, it will not rust or rot. Its vapour permeability reduces condensation and has excellent noise & thermal properties.

New Clad holds stock of Big Six & Profile Three in natural grey complete with all fittings, ridges & bargeboards etc. Coloured materials are also available to order.

We also stock all current obsolete profiles i.e. Monad, Trafford Tile, Major Tile & Double Six. For the profiles that are no longer produced we can offer a Filon "DR" product: double re-inforced GRP material as a direct replacement sheet.

Fixings

New Clad offer a wide range of tech screws and fixings to meet all your requirements. We can offer carbon steel and stainless steel fixings, with a choice of 16mm, 19mm and 29mm bonded washers, colour moulded heads, push on caps and drive sockets.

Light section drill screws (for drilling steel between 1.2mm and 3.5mm in thickness).

We offer a good range of sizes for this application, from 25mm to 160mm.

Heavy section drill screws (for drilling steel between 4mm and 12.5mm in thickness).

Standard lengths are available from 38mm to 150mm.

Stitching screws (for stitching sheet laps)

We offer two sizes of stitchers, 22mm for normal applications & 25mm supastitchers for repair work.

Timber fixings (for fixing steel sheets to Timber purlins).

These fixings are available in a variety of lengths fully threaded. We can also offer high thread versions to suit composite panels.

Composite panel fixings

Our range of composite panel fasteners will cover panels from 25mm through to 125mm into light section steel, along with 35mm through 115mm into Heavy gauge steel.

All the above fixings can be offered with a plain hex head or with a moulded colour head to suit your requirements.

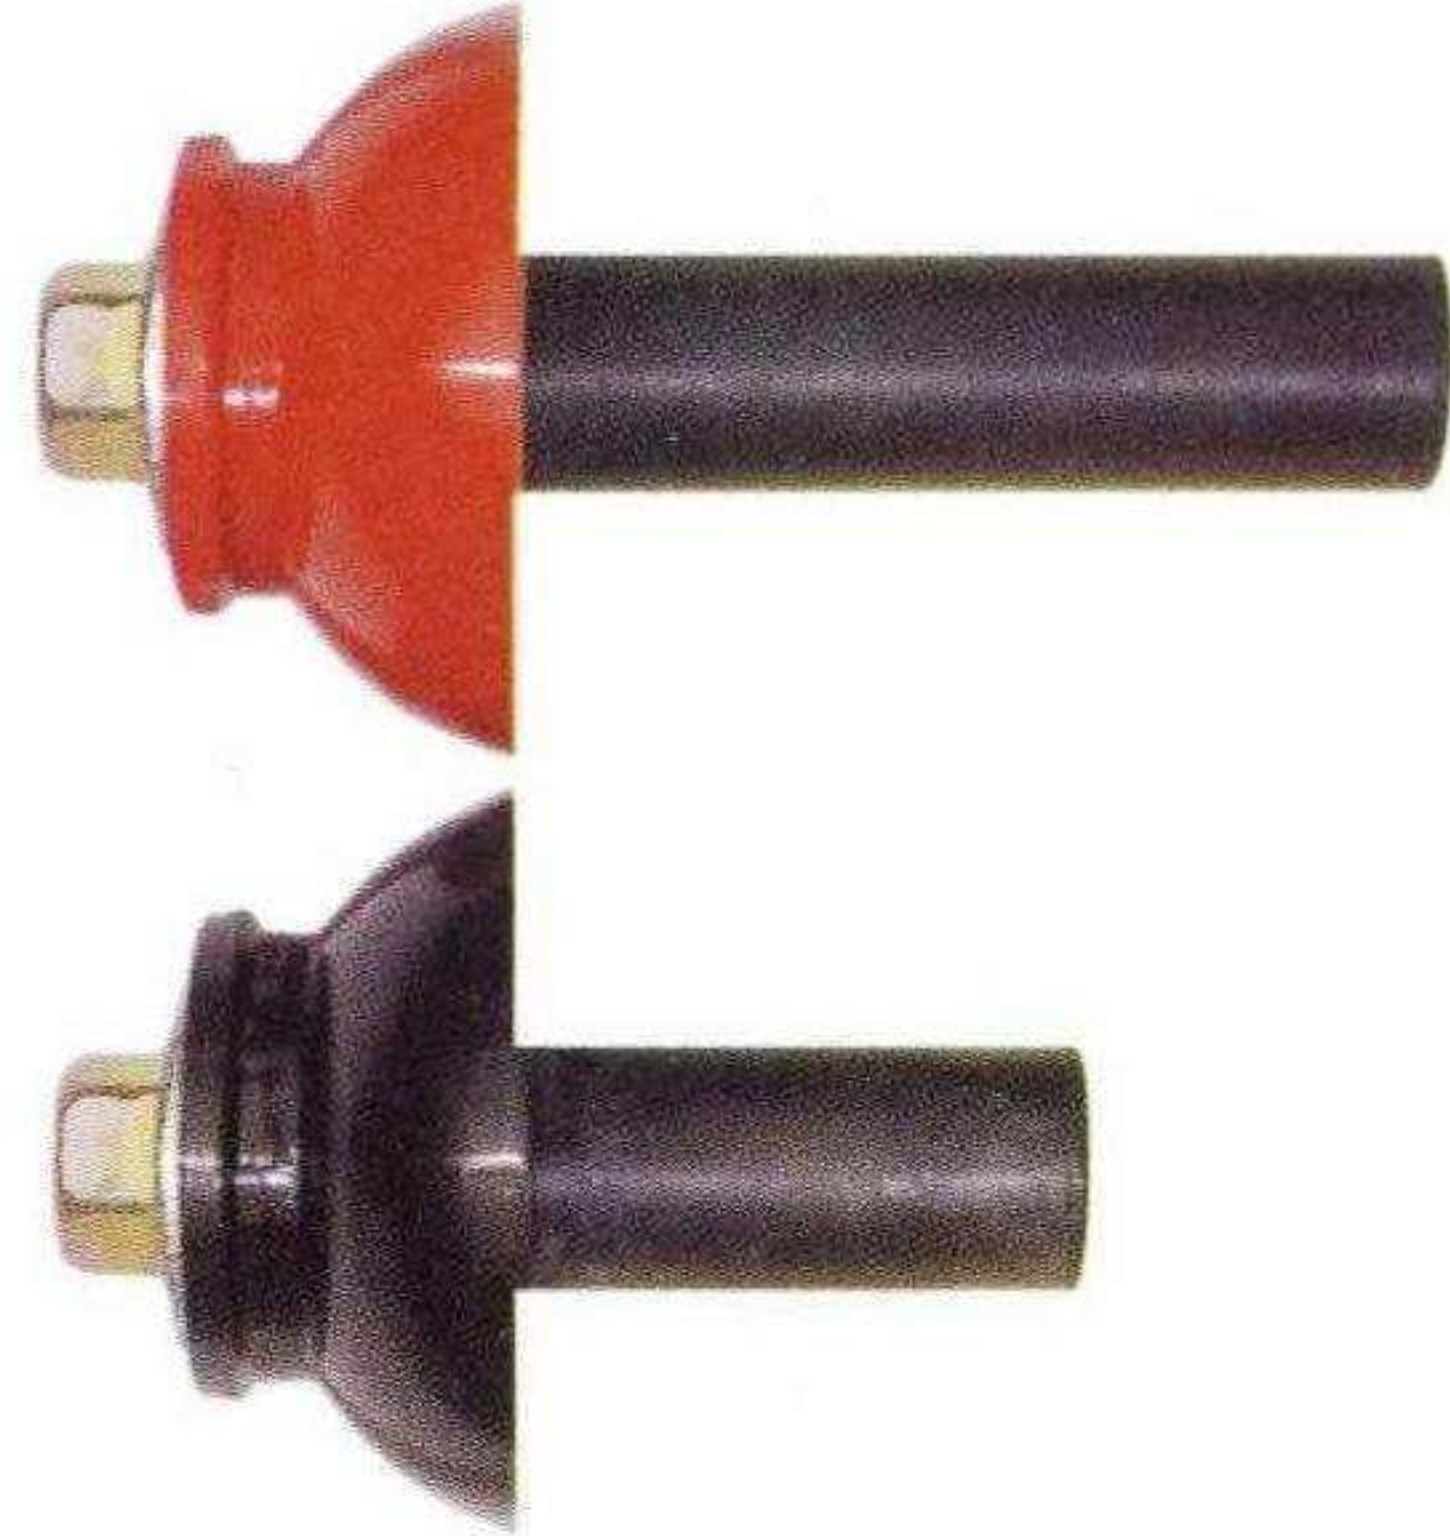

Coloured push on hex caps are available for plain hex head. Fixing sockets are available for both options.

Fixings

Topfix screw (for fixing fibre cement sheets)

We can offer these fixings in a range of lengths to suit light, heavy or timber purlins and are supplied complete with a 'baz' type washer.

Laplocks

Available in 25mm or 38mm used for fixing the lapping detail on fibre cement sheets & Box profile sheets.

Pakfix screw (for fixing timber to steel)

Available in various lengths with counter-sunk heads to suit light & heavy section purlins.

Tapcon screw (for fixing into masonry)

We offer these fixings in both hex & countersunk heads, in various sizes from 32mm through 125mm.

Masonry drill bits also available for standard chuck & SDS drills.

Rivets

We offer Rivets for a wide range of applications, some the Rivets we supply are listed below:-

Pop Rivets

Coloured Rivets (to match flashing or sheet colour)

Bulbtite Rivets

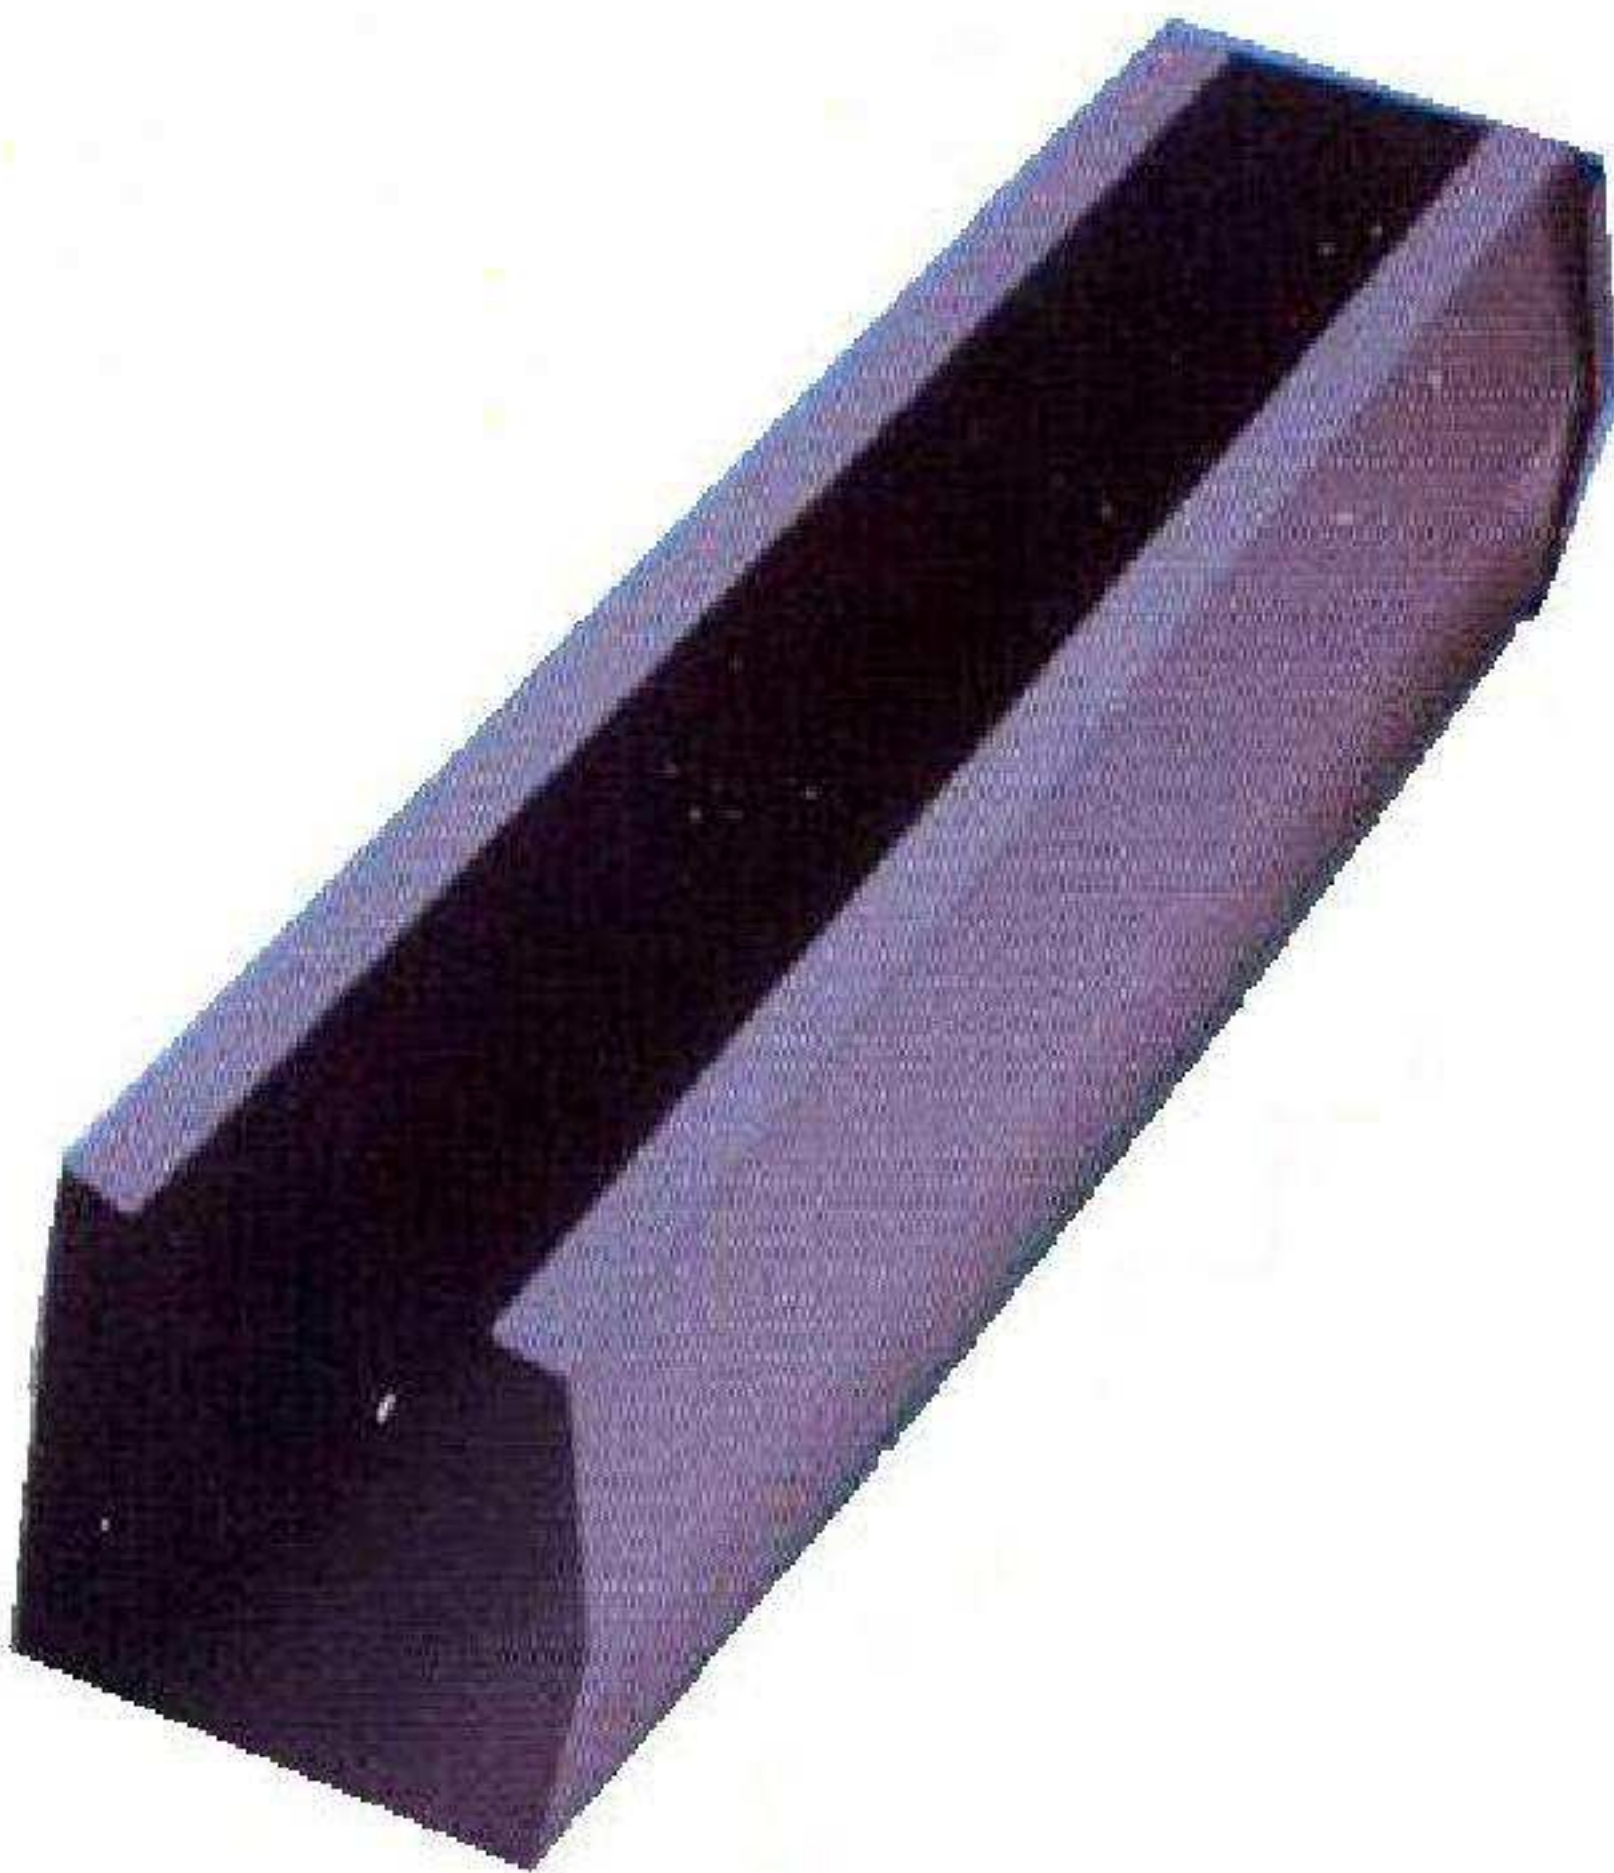

And more to suit most other applications.

Rainwater Goods

PVC Rainwater systems

We hold large stocks of 160mm half round gutter, 110mm & 160mm diameter downpipes & fittings in grey. We also stock a limited range in black, although most other sizes & colours are available to order.

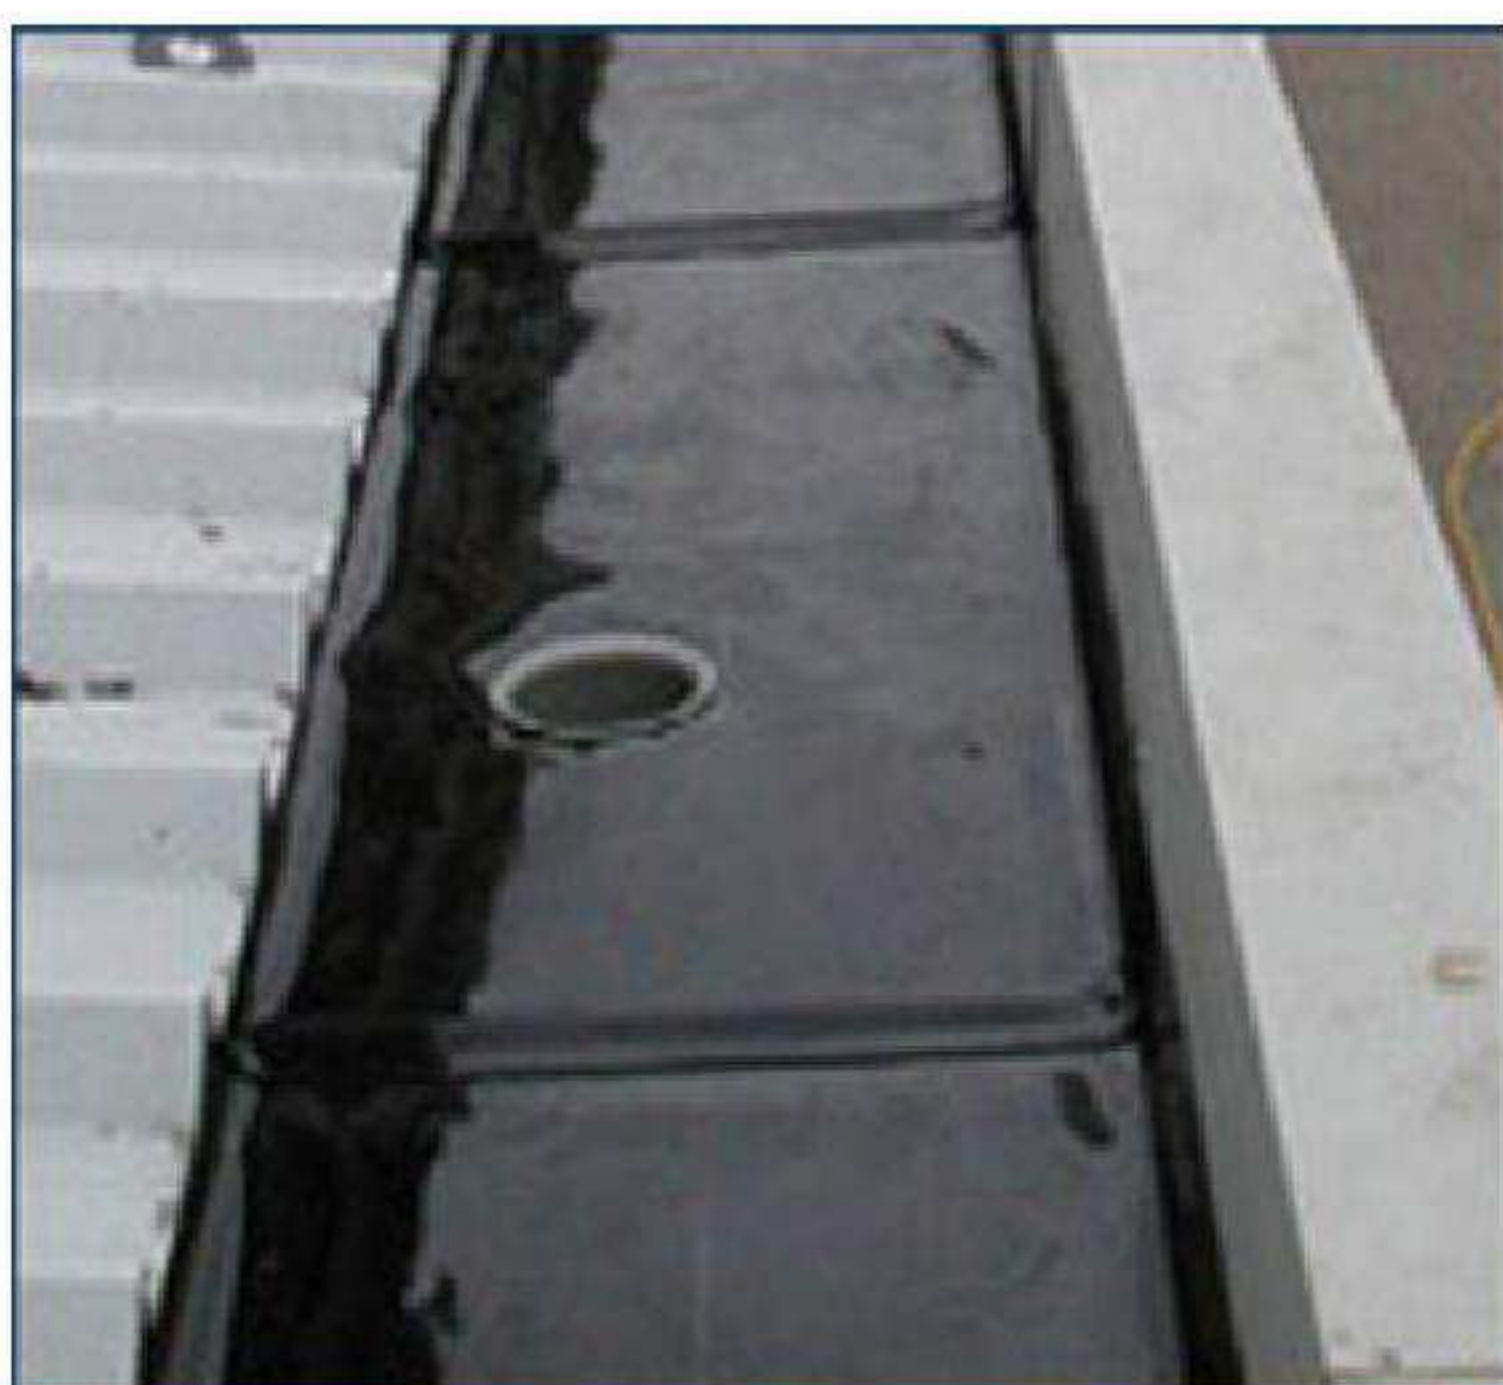

Trimline Gutter

Fabricated to order usually in 0.7mm thick plastisol coated steel to suit your requirements. Downpipes are available to suit in square or round detail, plastisol coated, powder coated to suit all B.S or RAL colour ranges.

Steel Gutter

Single skin & insulated variations up to 3mm thick galvanized steel available in box, boundary wall or valley details all produced to order to your specifications.

Plygene Gutter Liner

Rubberized liner manufactured to any detail and length for lining out any existing leaking gutters.

Ashgrid & Purlins

Ashgrid Bar & Bracket System

We hold large stocks of Ashgrid bars and brackets from 80mm to 280mm. The system is designed to create a cavity in built up systems for thermal insulation.

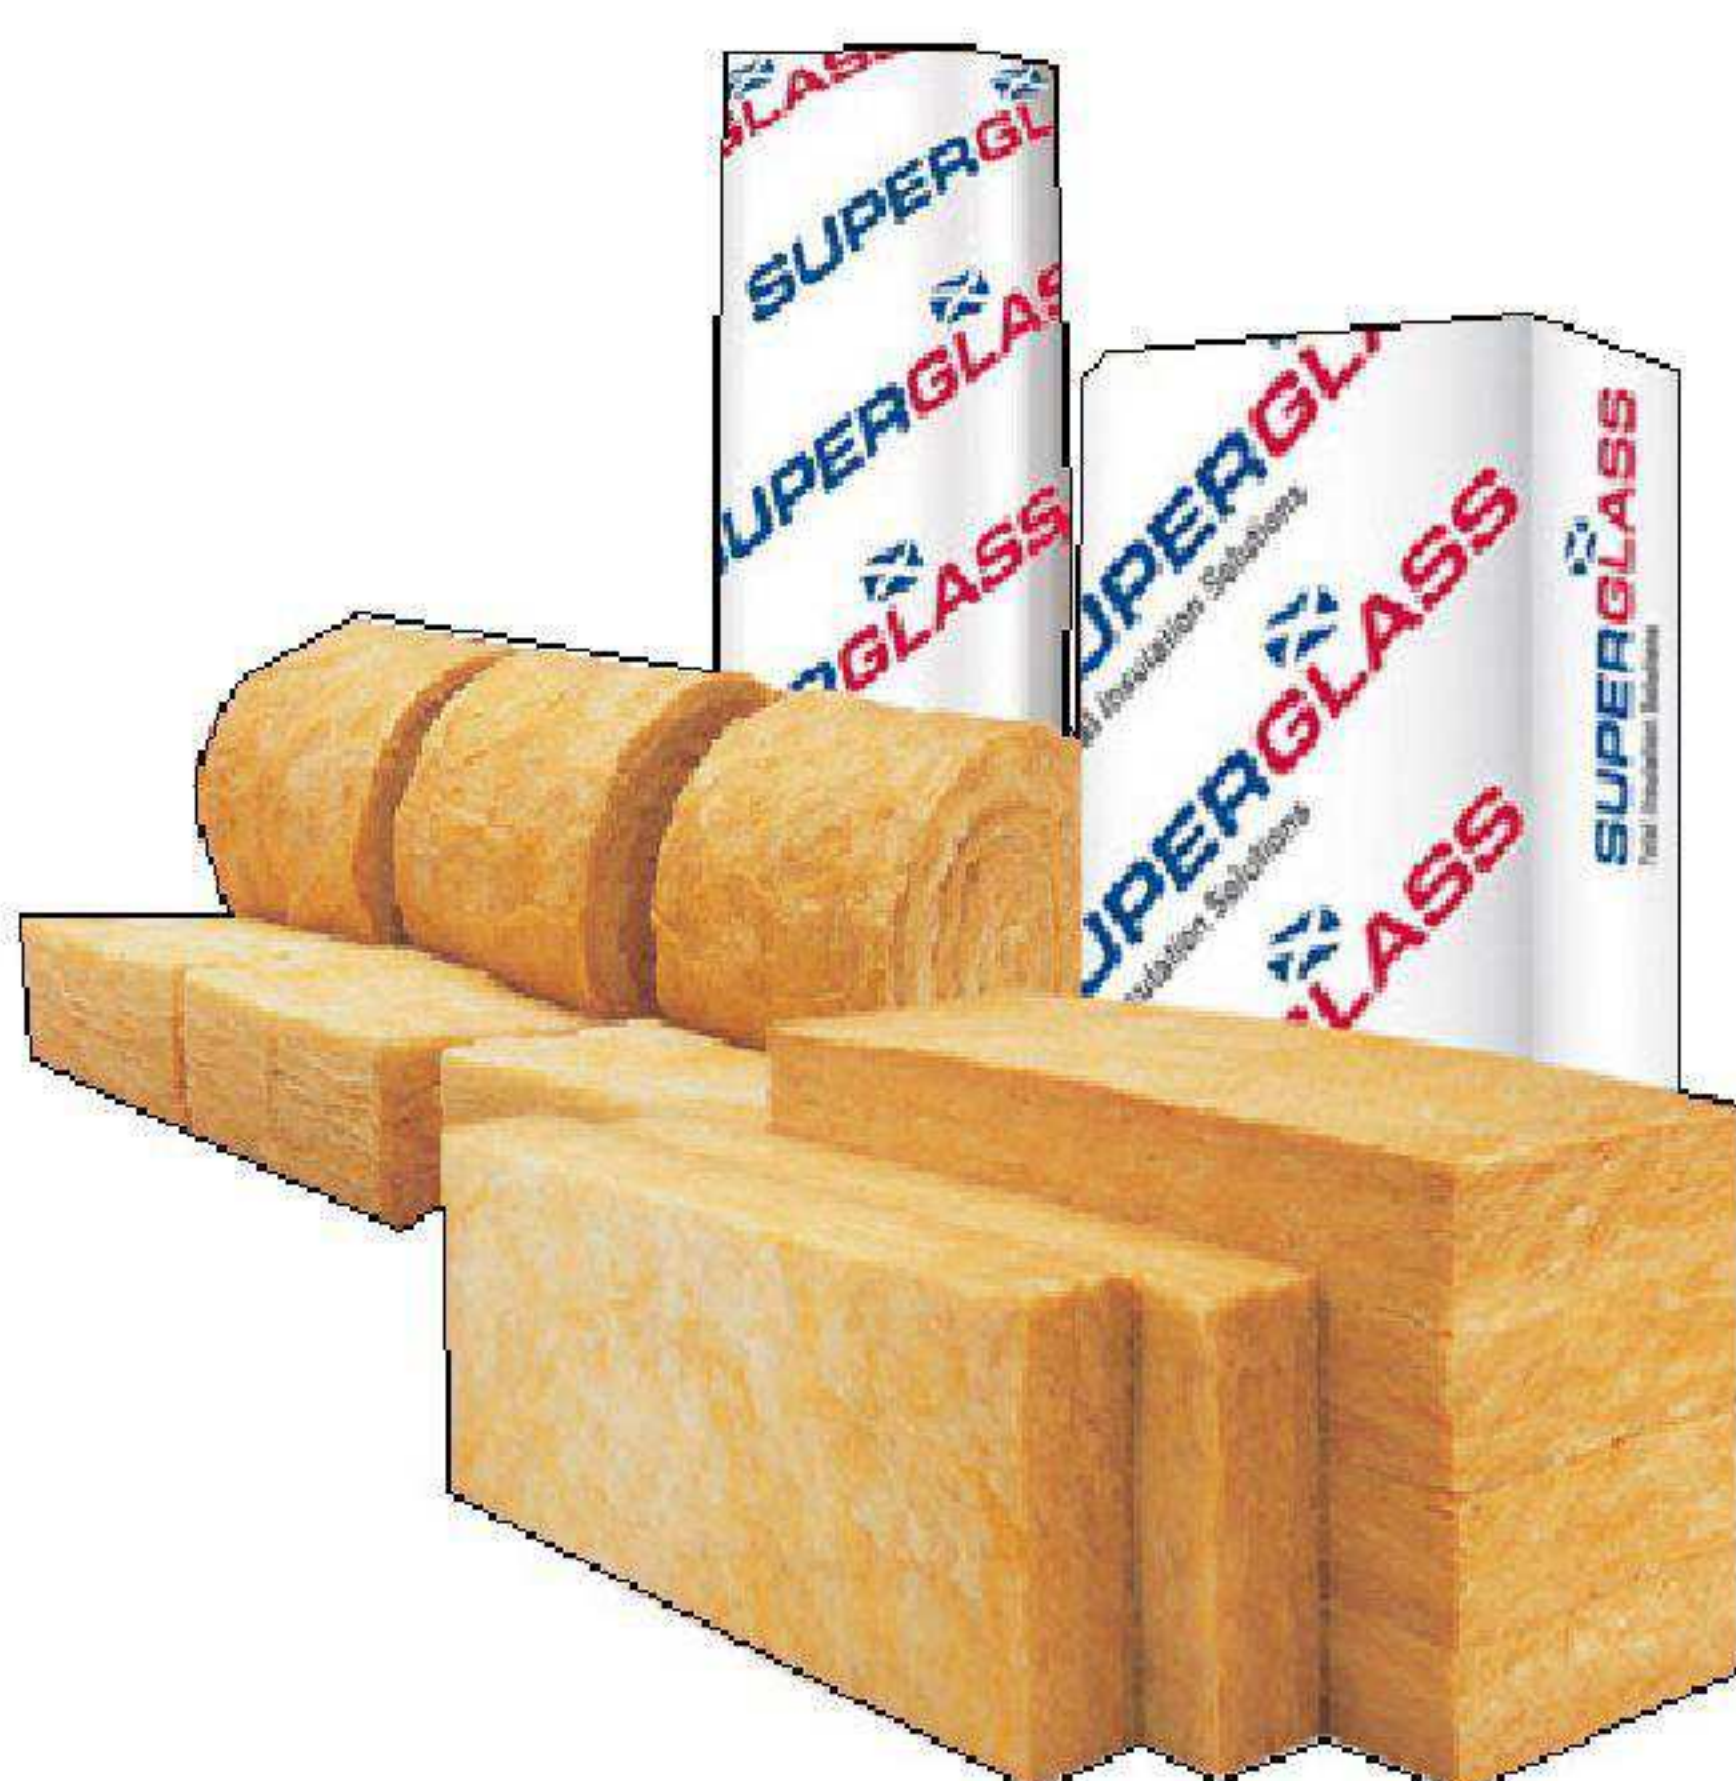

Zed & C Section Purlins

Produced to order in a range of sizes & steel thickness' rolled to length. Available with all fittings—sleeves, anti sag bars etc.

Mini Zed Spacers

Stocked in 3000mm lengths, 50 & 60mm deep in 1.6mm galvanized steel. Universally punched to accommodate any liner system. Widely used as a spacer for over roofing projects.

Insulation

Available to suit all types of built up systems, fibreglass & rockwool in a range of thickness' to suit building regulations.

Traditional Fasteners

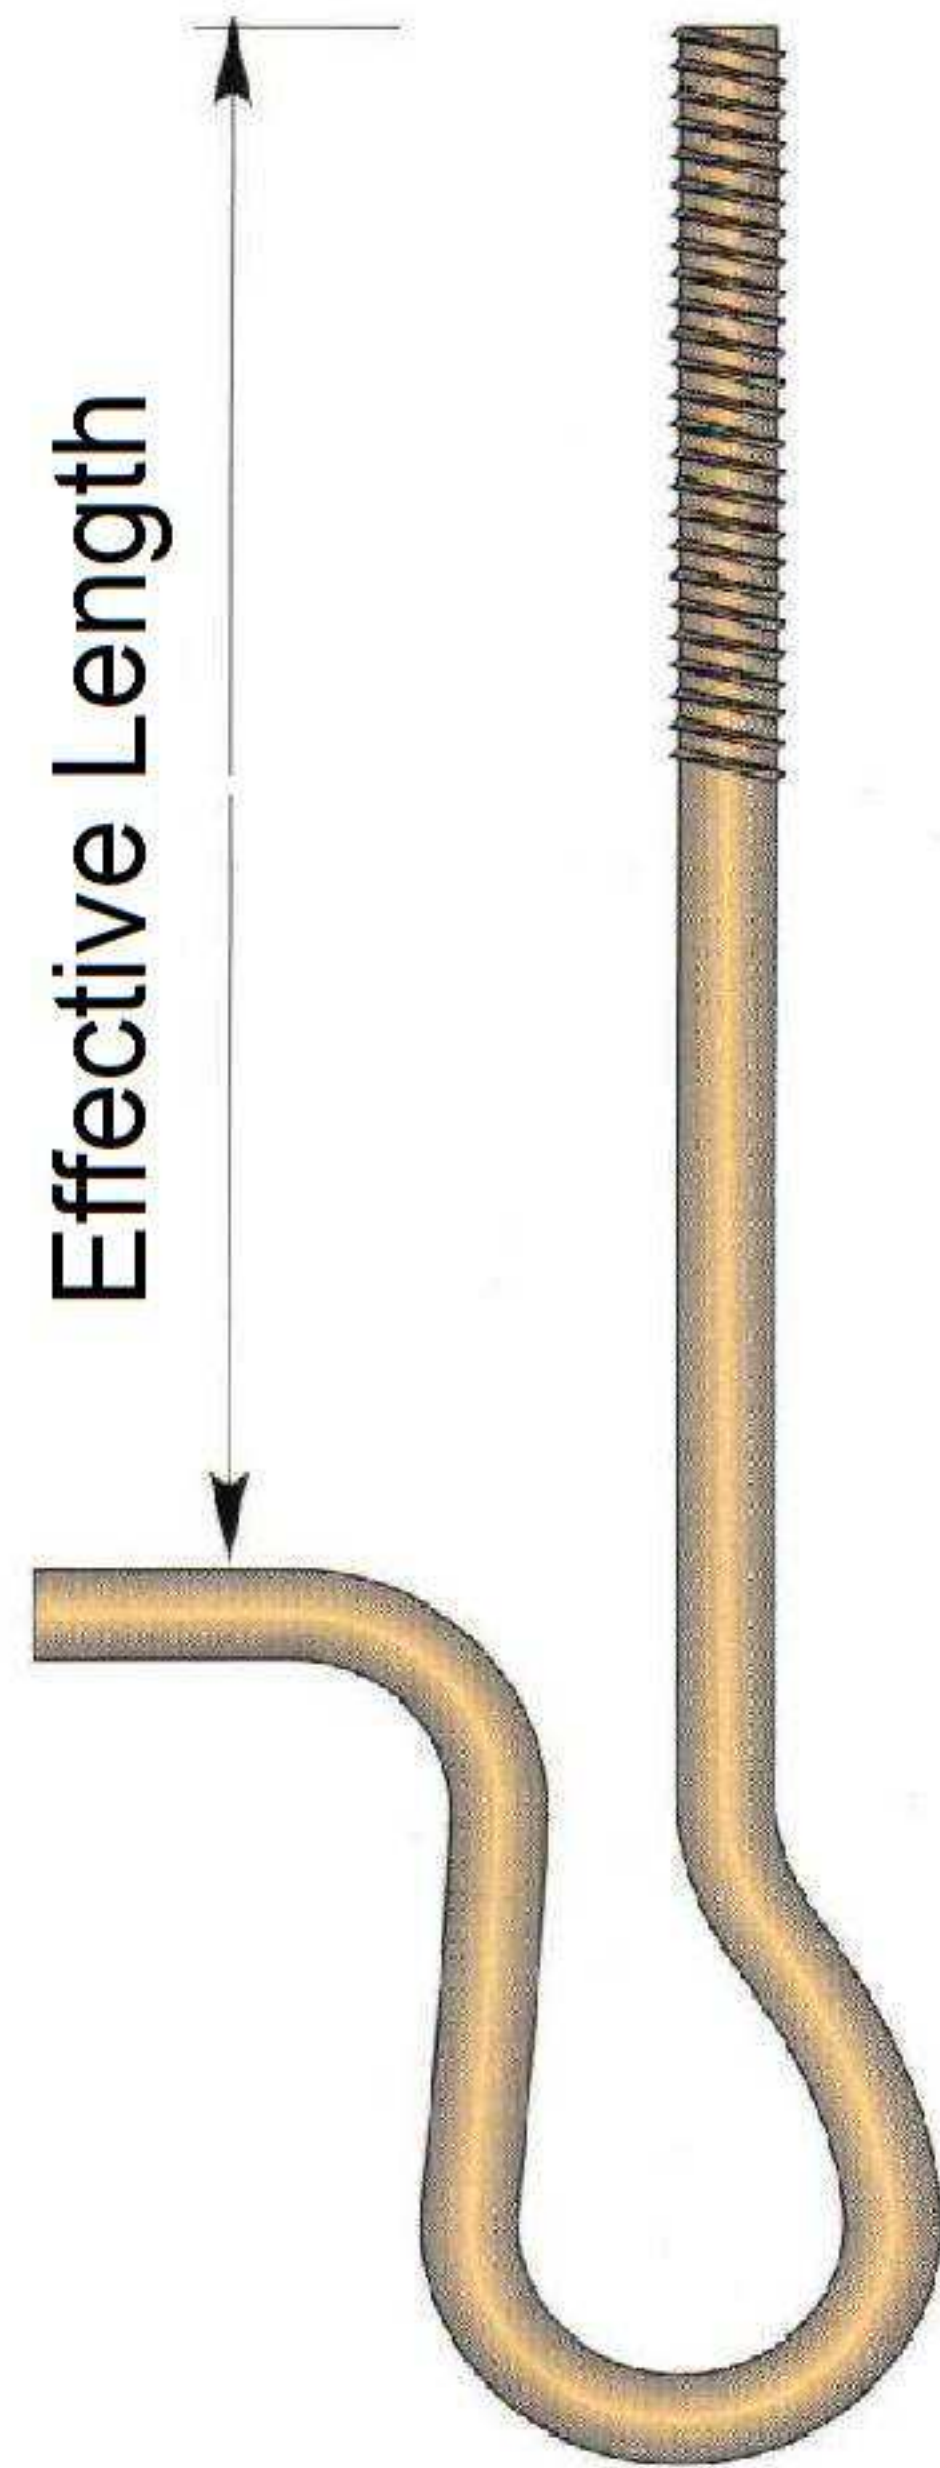

We hold stocks of traditional wire product fasteners in a large range of sizes to suit all applications.

Typical Examples

Crook Bolts

J Bolts

Roof Bolts

Drive Screws

Bonded Washers

Galvanised Washers

Spat & Sela Washers & Caps

Colour Caps

Sealants & Accessories

Cartridge Sealant

We supply various tubed sealants including silicones, butyl rubber mastics, polyurethane sealants and much more.

Strip Sealant

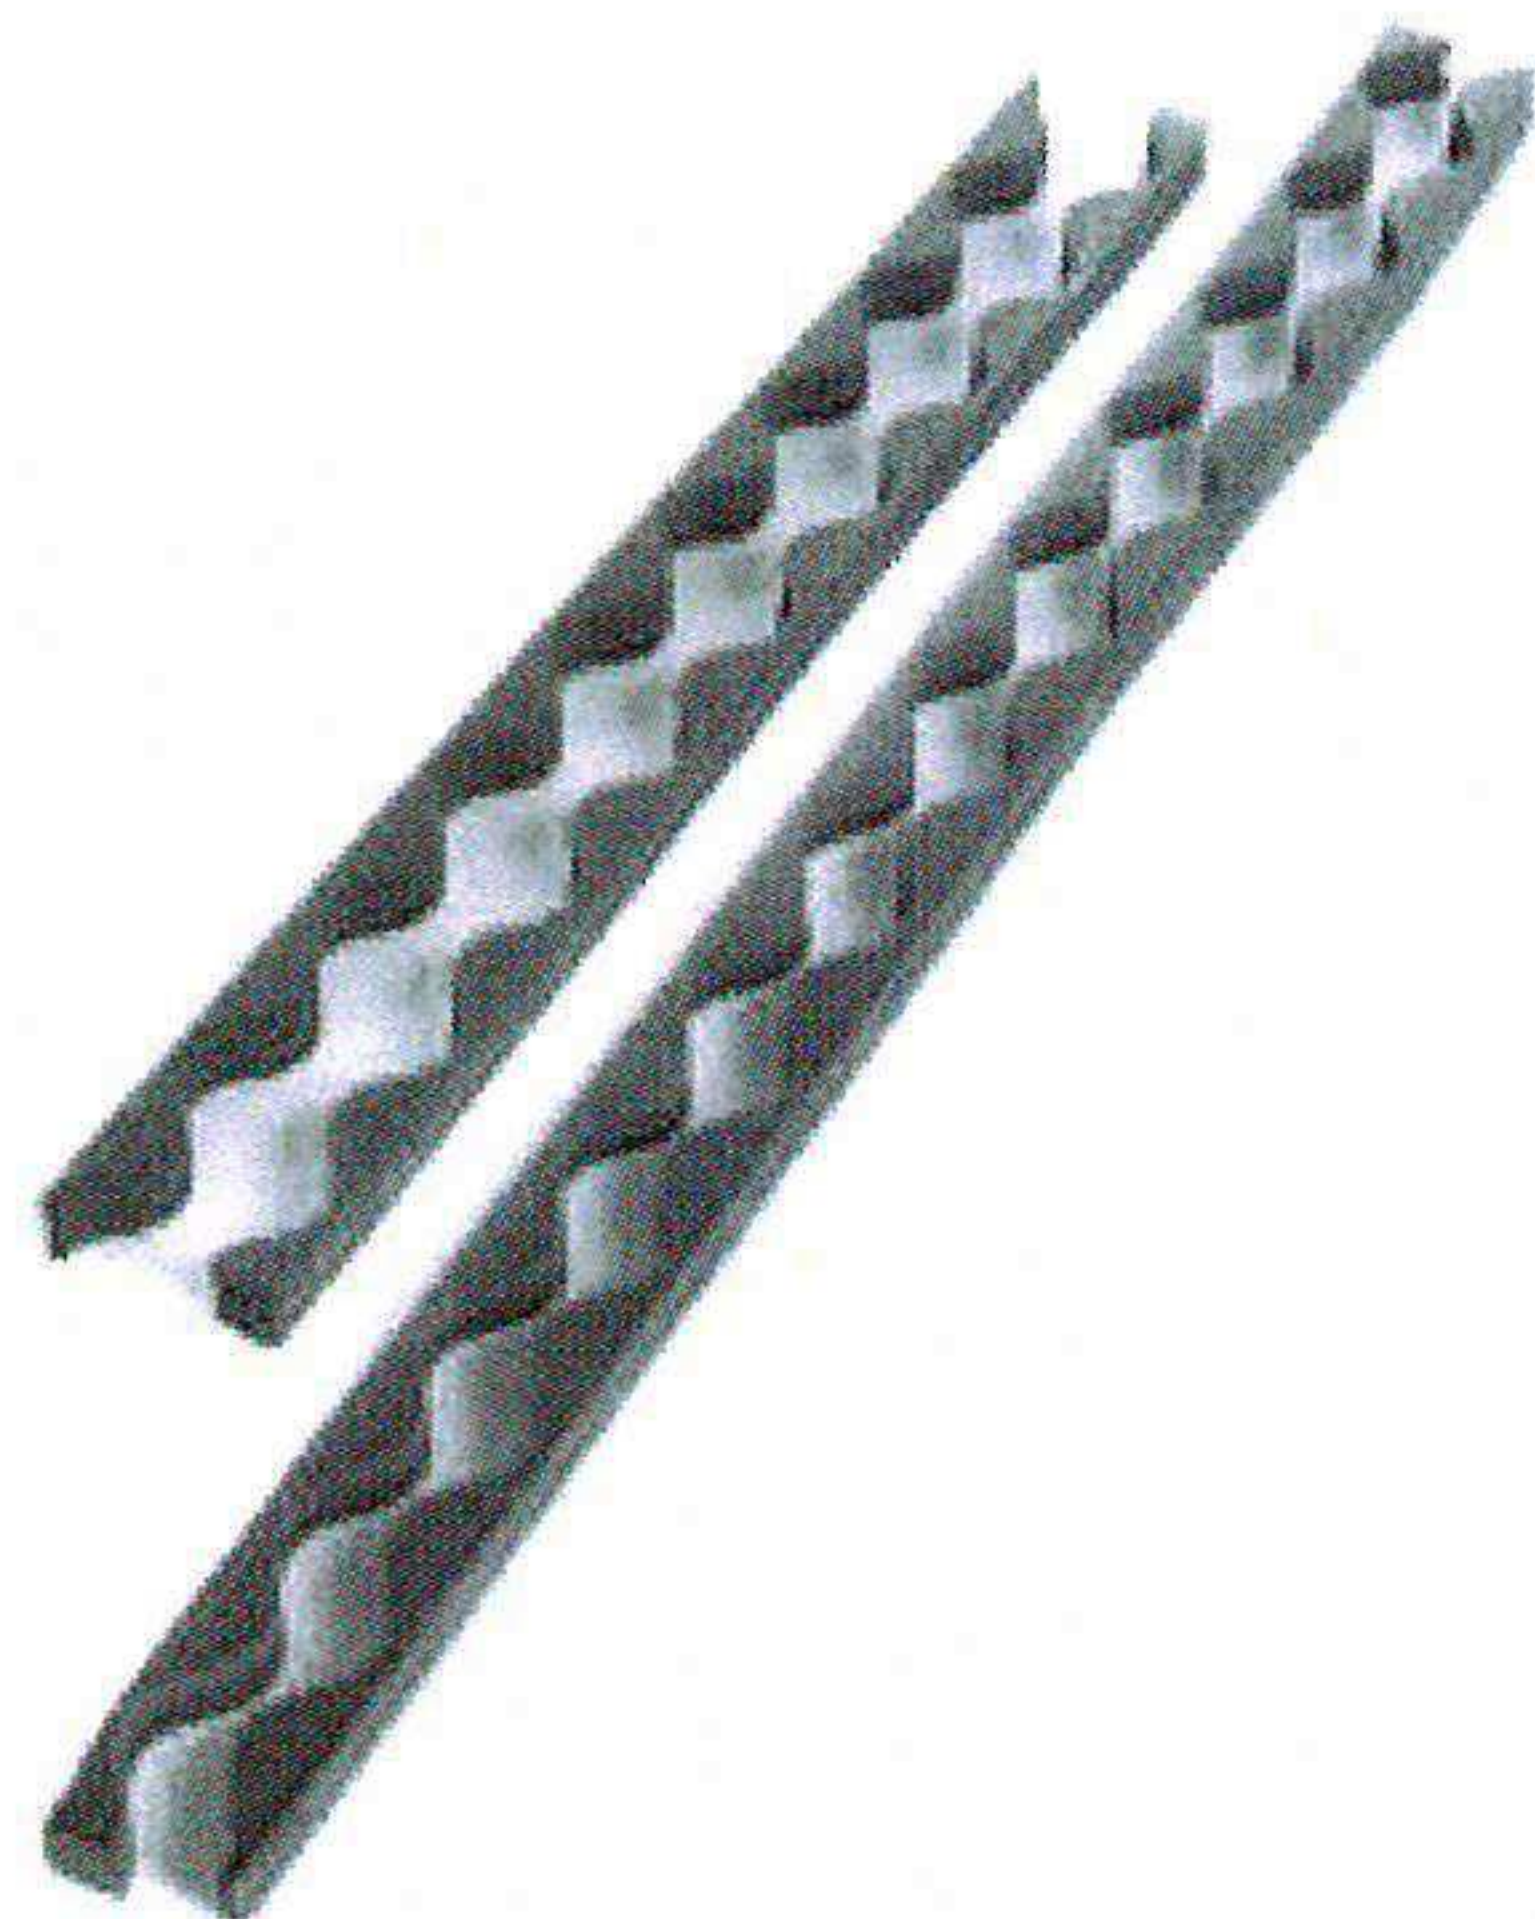

We hold vast stocks of strip mastics including:

- 9x3mm Butyl
- 6x5mm Butyl
- 8mm Bead
- Polyband

Pipe Flashings

Pipe flashings are available from stock to suit a number of pipe dimensions. These can be used as retro fit with the necessary clips also being held in stock for quick delivery.

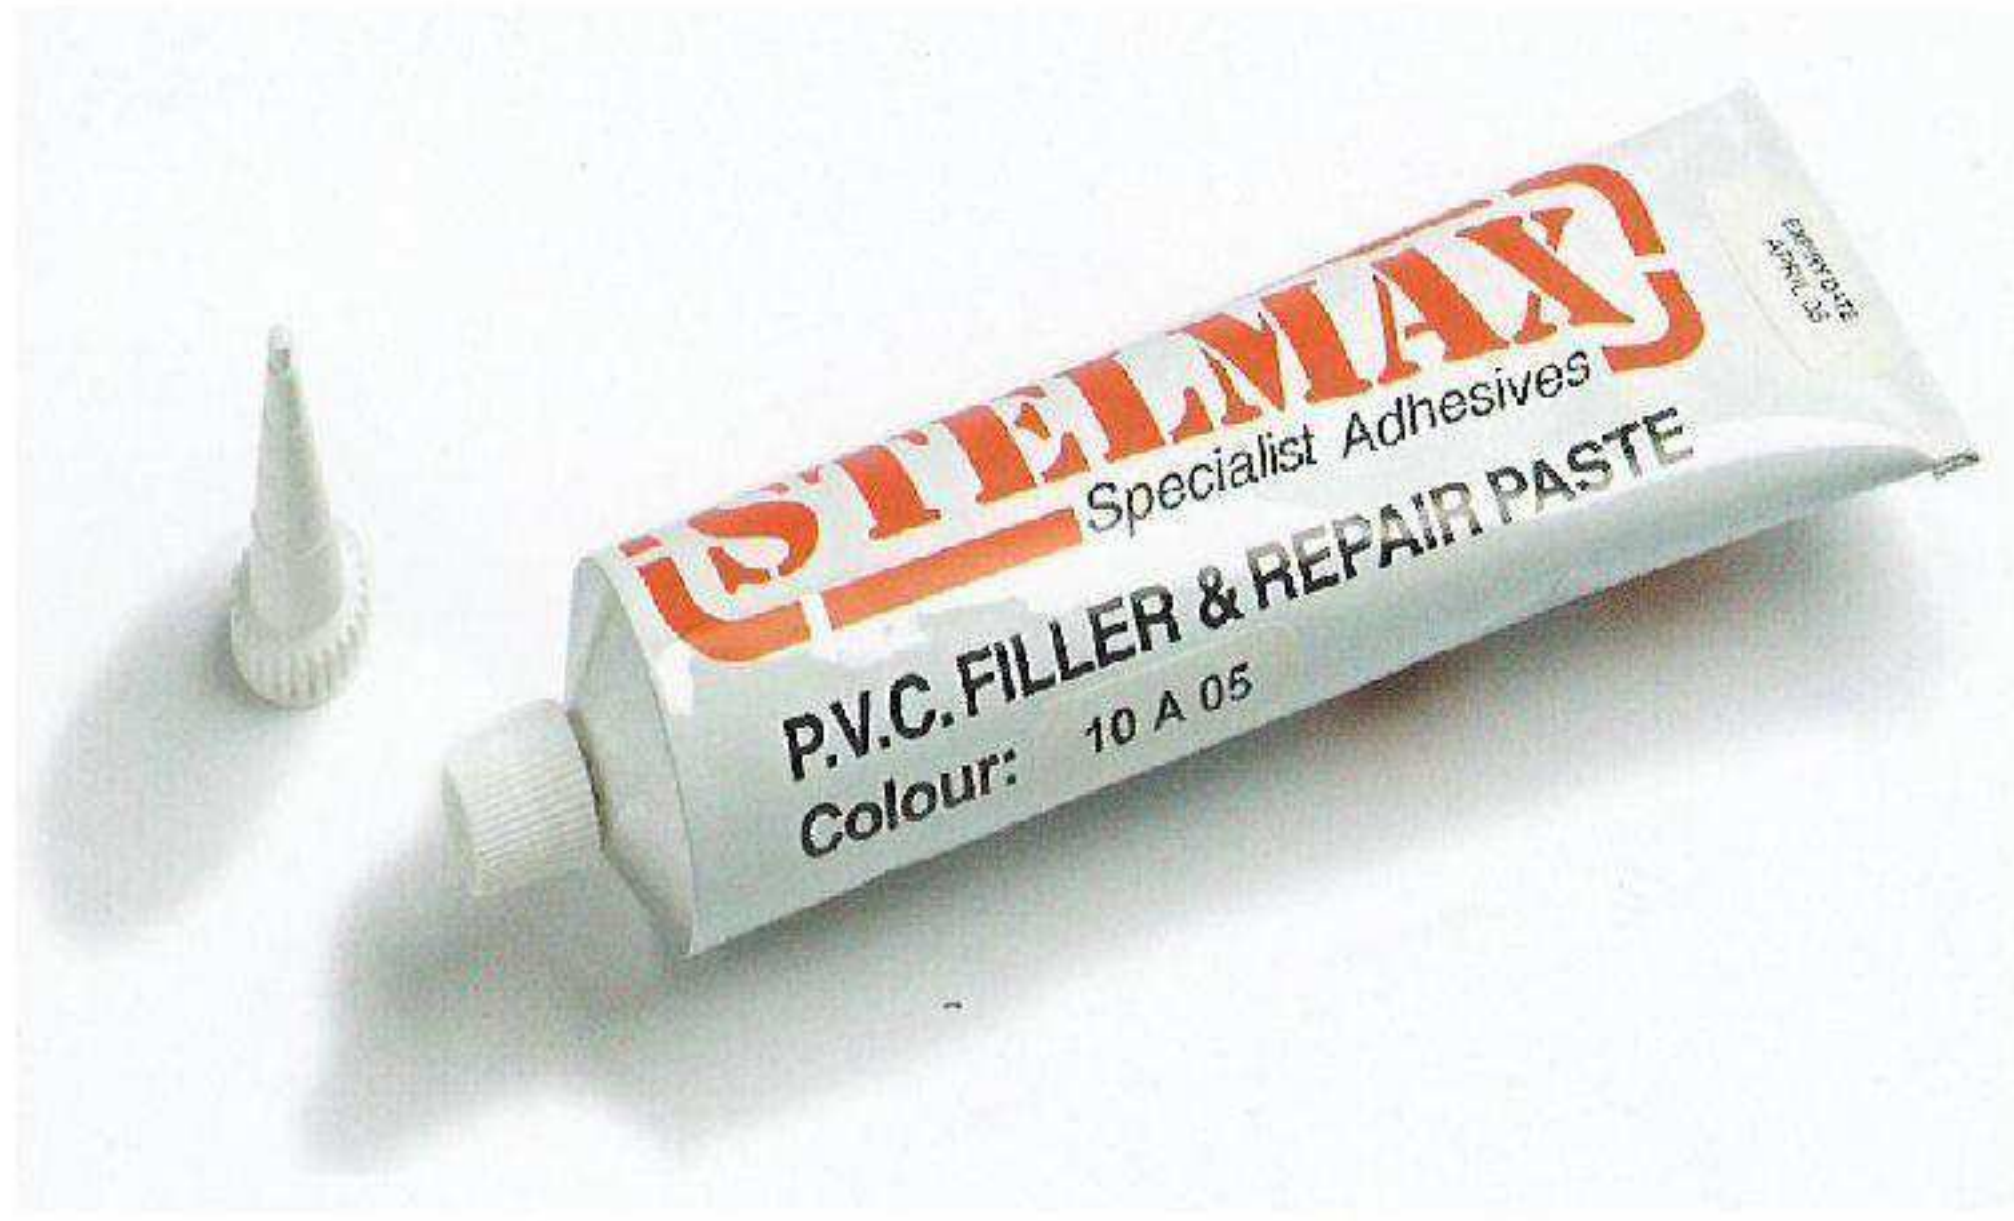

Profiled Fillers

We supply fillers to suit any profile of roof cladding in a range of materials to suit your requirements.

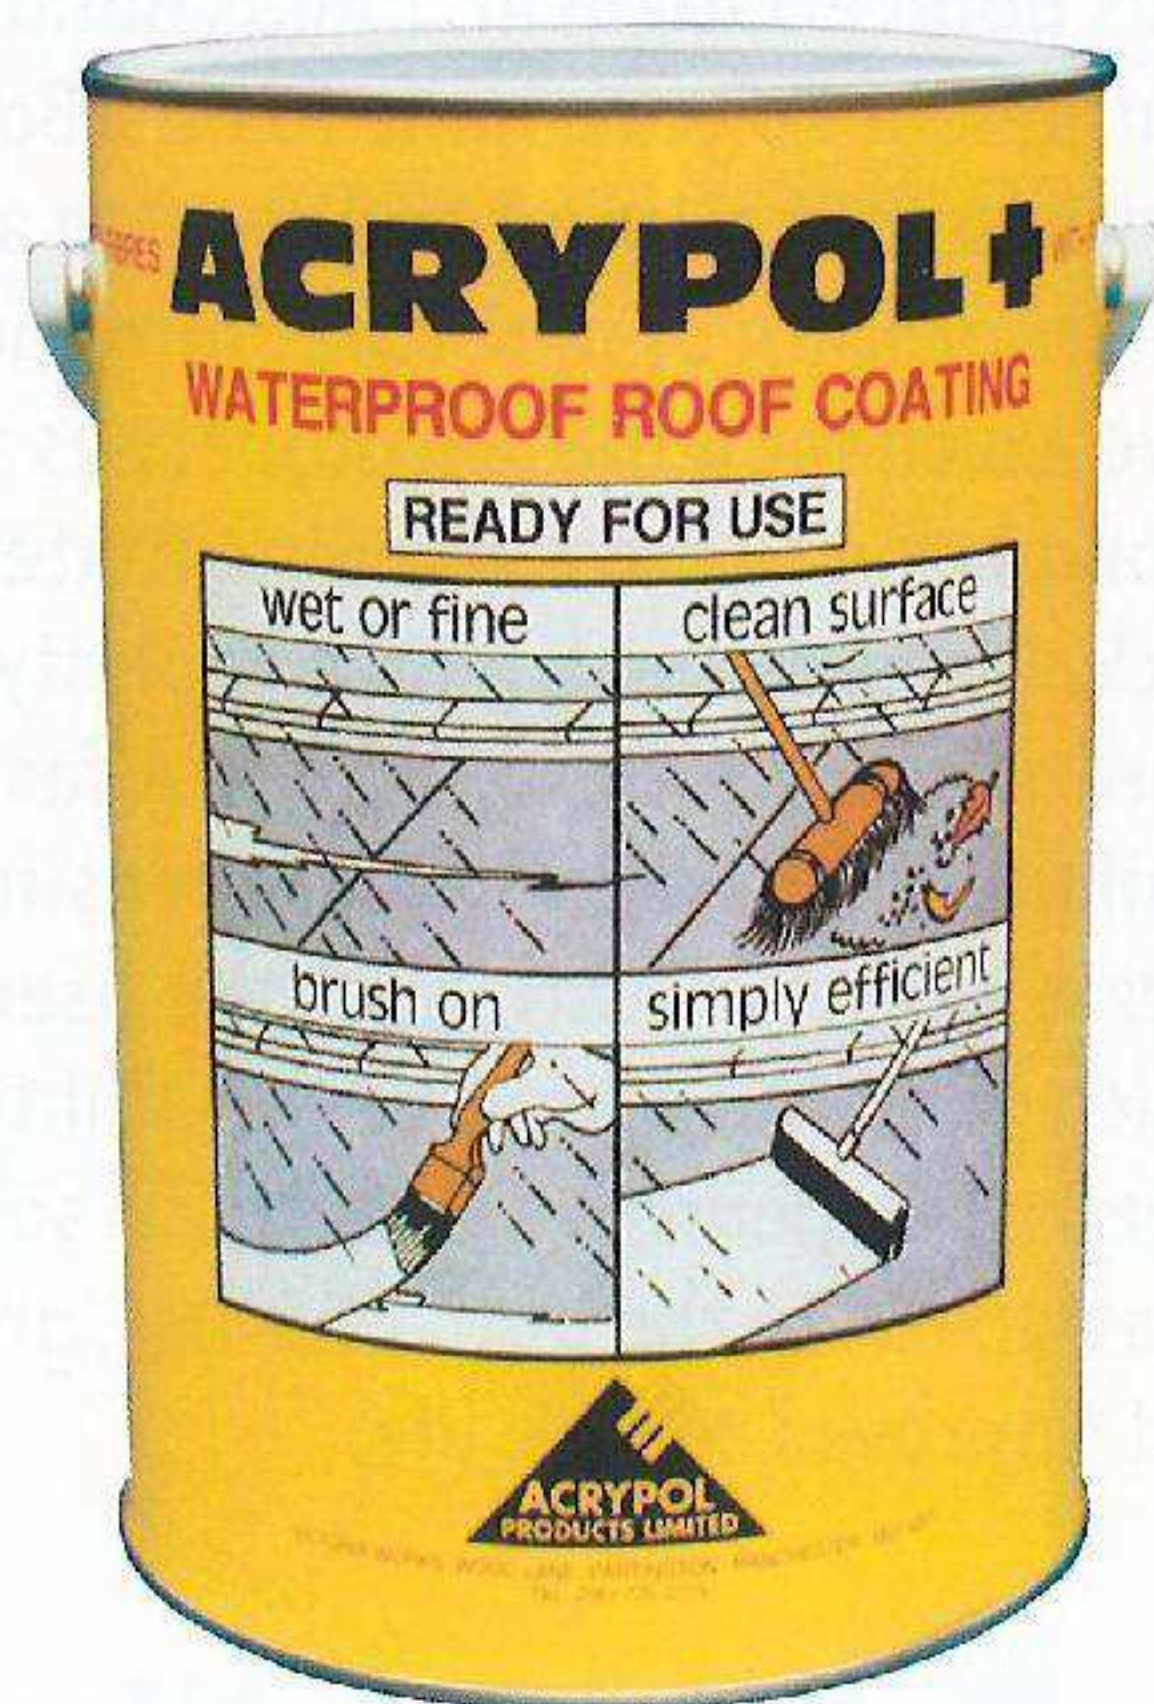

These are usually available in small, large flute and pairs.

Sealants & Accessories

Touch up paste

We offer a large range of touch up pastes and paints in all standard colours for minor repair jobs. Non standard colours are subject to availability and quantity required.

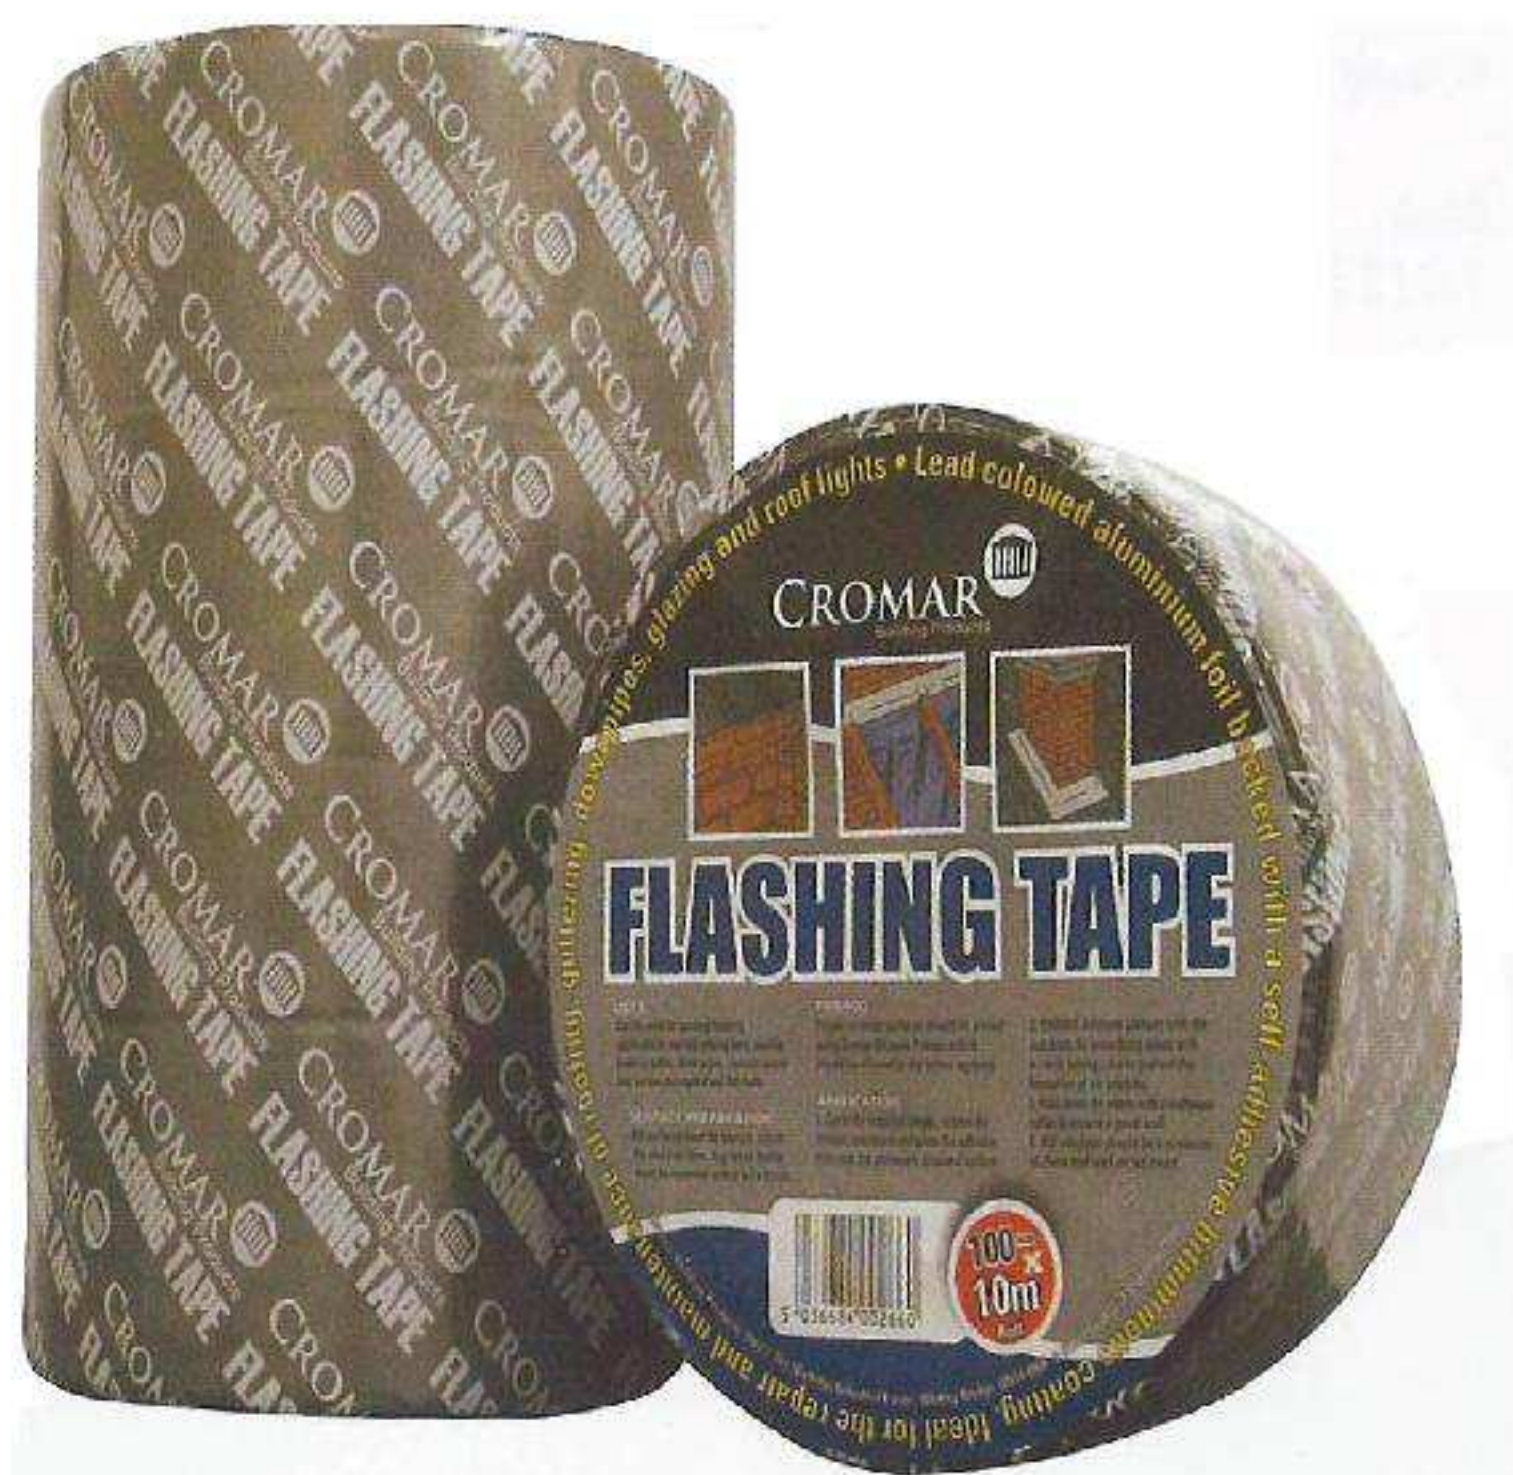

Acrypol

We offer a range of water proofing repair products such as Acrypol, Cromapol and Evercryl to compliment our range of sealants. These products can be used in most weather types and simply brushes on to the surface you wish to seal.

Tools and PPE Equipment

We hold stocks of all those forgotten items, from safety gloves, drill bits, fixing sockets, sealant guns, cutting discs and much more.

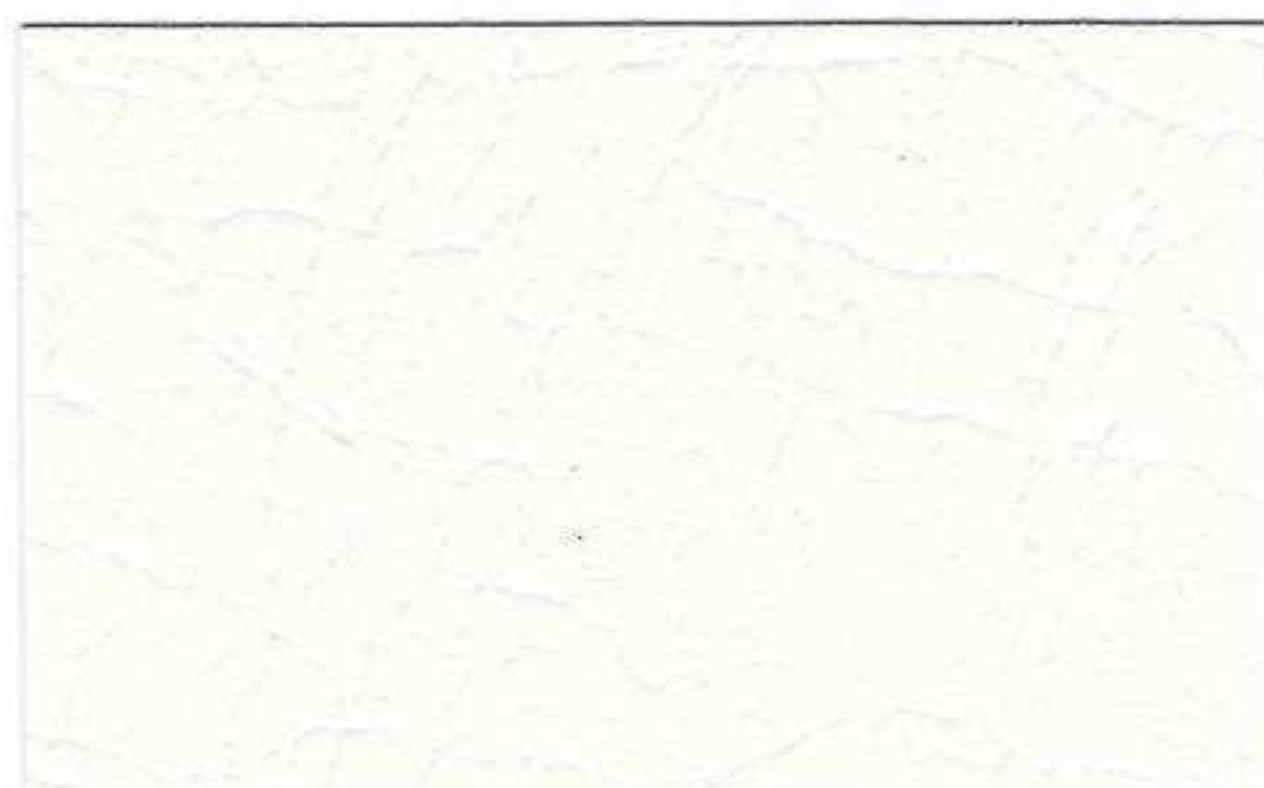

Flashband

We hold stocks of natural lead look self adhesive Flashband & primer. Rolls come in various sizes from 150mm up to 450mm x 10mtr. Flashband primer comes in 1 litre tins.
