

Yalp Memo

Exercise, Playful Learning, Social Bonding

What is the Yalp Memo?

Although foremostly an exciting and fun playset that gives kids (and adults) plenty of physical challenge, Yalp Memo also contains an educational dimension.

The balanced mix between being fun and physically challenging is achieved through the fun and sporty games. But it also has math and memory games which train the brain.

Thanks to its built in wireless internet connection, new Yalp Memo games are added ongoingly.

Why place Yalp Memo?

The Yalp Memo is a great choice for any **School, Public Area** or **Leisure or Recreation** facility. It's novel and great fun for large groups - as well as individuals. It is freely accessible and inclusive. Yalp Memo features both sporty and brain-training games.

Yalp Memo is best suited for a nice open space. Although still quite compact at 8 meters in diameter, the Yalp Memo allows for the entertainment of large groups.

Facility managers can **adjust play times, volume setting**, and ensure the most popular games are played. Parents love sending their kids off to play on the Yalp Memo because it gets them off their hinds and lets them make new friends!

The Games:

The Yalp Memo comes with 5 games pre-installed. New games are constantly developed and added the database. These are updated to your Memo automatically - free of charge! Here's a few examples of the pre-installed games:

Tag: A real sporty game! Each players chooses a colour, and has to touch the post that has 'his' or 'her' colour as soon as possible. Beware: Time will decrease with each round! Who can touch the most posts?!

Memory: A classic - a great multiplayer as well. Competitive and educational. Everyone tries to conquer the symbols in their own color. Remember where all the symbols are hidden, use your brain to win!

Matty: Solve math equations together with your friends. A math equation appears on every post. Adjust and correct the equations on every post. Try to reach higher levels by working together!

Technical Details

3G-Internet Connection - Every Yalp Memo has a built in 3G-Internet Connection, so you can **remote control** your own device. Think volume-settings, (automatic) On / Off times, and even advanced usage statistics. Also, this way Yalp can service your device from a distance, and automatically transfer new games.

Vandalism-resistant and all-weather proof

- The Yalp Memo is specifically designed for heavy-duty outdoor use. Of course this means it is all-weather proof and vandalism resistant. The electronics are tucked away in a safety box.

Power usage - When played at maximum level, the Yalp Memo uses about 250 Watts. This is comparable to a small desktop PC. When in sleep mode, the usage is only 10 Watts. The only power source you need is a regular power socket.

Flooring - The flooring of each Yalp Memo is completely customizable. Unlike with the Yalp Sona, the floor patterns and colors of Yalp Memo are not crucial to the game play. Any pattern and color is possible.

Further information - Much more information about the Yalp Memo and the other Yalp Interactive playsets can be found on our international website. This includes an amazing selection of inspiring pictures and videos:
