Introduction

The benefits of sliding door storage systems over standard hinged doors are well known and have been utilised in Europe for many years. Their space saving characteristics, the ease of access they afford, and their sleek contemporary styling makes them a highly practical solution for the homes of today. The Volante sliding door system follows these principles, helping to solve your storage needs.

With contemporary styling, a wide choice of panel options, and the flexibility of a made to measure service, Volante sliding doors provide the ability to create unique designs tailored to your individual tastes. The Volante system offers a smooth opening and closing action and comes with the added option of built-in soft closing for that extra touch of sophistication.

The following pages feature a selection of inspirational room sets to provide you with an idea of just what can be achieved with the Volante sliding door system. The possibilities are endless, with 7 standard panel configurations and a bespoke option allowing you to create your ideal configuration. There are over 40 stunning panel finish options to choose from and 2 stylish frame profiles - Curva and Quadro - available in a selection of finishes. We hope you are inspired to be creative.

We recognise the importance of quality and provenance when it comes to the furniture you choose for your home. That is why all Volante sliding doors are manufactured here in Great Britain to the highest of standards, ensuring you don’t need to compromise to achieve the look you want.

Complete with self-adhesive backing, these flexible LED strip lights can be positioned in a multitude of locations. Shown here positioned behind the top track, the lighting unit is hidden from view but still provides optimum illumination of the robe internals.

Flexible LED Strip Lighting

HD LED Round Recessed/Surface Mounted Light

HD LED Round Recessed/Surface Mounted Light

HD LED Square Surface Mounted Light

HD LED Drawer Light

As an alternative to the round light, these square HD LED lights are compact & stylish.

Battery operated, this drawer mounted light is easily installed and has no wiring - perfect for internal wardrobe drawers.

HD LED Drawer Light

HD LED Strip Light with PIR Sensor

HD LED Strip Light with PIR Sensor

This lighting unit can be mounted under a shelf, on the ceiling or to the wall.
With its built in PIR sensor, the movement of opening the door activates the light, providing an even spread of light across the inside of the cabinet.

HD LED Square Surface Mounted Light

HD LED Square Surface Mounted Light

This unobtrusive motion sensor can be connected to a range of lighting options & is activated by the movement of the door opening - ideal for wardrobes.

Motion Sensor Switch

The use of lighting in cabinets not only serves to provide practical task lighting, but also helps to create ambient mood lighting within an environment.
The LED lighting featured here forms just a small part of our full lighting collection and serves to illustrate what is possible and how effective lighting can be when used correctly.
