Denver, Colorado, May 20, 2019

PeaceJam Productions is pleased to announce the completion of their latest feature length documentary film, “The Dalai Lama: Scientist”, which is the sixth film in their award-winning “Nobel Legacy Film Series”. The World Premiere will be held in September of 2019, and international distribution for the film has already been secured. Google Play will launch an exclusive week of promotion for the film the day after its World Premiere, and the film will then go live on platforms around the world. An extensive run of film festivals and an international marketing campaign are also planned.

ABOUT THE FILM
Around the world, one of the most recognized leaders on our planet today is The Dalai Lama. Everyone knows him as a man of peace, a great Buddhist teacher, an advocate for humanity. “The Dalai Lama: Scientist” tells the story of the man you do not know; the Dalai Lama that very few people have seen. For the past thirty-five years, The Dalai Lama has been engaged in an ongoing series of dialogues with leading, world class scientists. They have covered subjects ranging from quantum physics and cosmology to neurobiology and destructive emotions. “The Dalai Lama: Scientist” immerses the viewer into these profound dialogues; explores the correlations between science and Buddhism; and shares personal life experiences from The Dalai Lama that have had a deep impact on his development as a world leader -- and also, on the world itself. As The Dalai Lama says, “While scientific findings offer a deeper understanding of such fields of knowledge as cosmology and neuroscience, it seems that Buddhist explanations can sometimes give scientists a new way to look into their own field of study.”

PRODUCER COMPOSITION
An international assembly of distinguished personalities helped to produce the film. The Executive Producers are award-winning filmmakers, Ivan Suvanjieff and Barry Hershey. The Producers are Rip and Jacque Gellien. The Associate Producers are Victoria Silvstedt of Monaco and Emma Beanland of Monaco. The film is the sixth title in PeaceJam’s Nobel Legacy Film Series, which are all written and directed by female filmmaker, Dawn Gifford Engle.
