

OLEG DERIPASKA AND RUSSIA CONFLICTS WITH ROBERT MUELLER AND ROD ROSENSTEIN

Robert Mueller along with Andrew McCabe and John Pistole and the minimum of three additional FBI Personnel and U.S. Government Contractors, commencing in 2009, pursued Oleg Deripaska to assist with freeing former FBI Agent and CIA Contractor Robert Levinson from Iranian captivity, outside of required procedures, violating Antideficiency Act Title 31 Subtitle II Chapter 13 Subchapter III U.S. Code 1341, U.S. Code 1342, U.S. Code 1345, U.S. Code 1350 and U.S. Code 1353.

This particular Russian Oligarch according to former and current multiple Intelligence Community, DOJ and FBI Officials and some supporting documentation has ties to Ukrainian covert operations, Crimes against the U.S., Russian organized crime, money laundering support efforts and pursuit of his own stake in Russia controlling the global uranium supply chain that Hillary Clinton and Eric Holder assisted facilitating operatively and by approval via Department of State and on the committee they sat on that actually approved the Uranium One transaction giving Russia **control of a strategic asset affecting National Security including nuclear threat potential and United States economy.**

Deripaska firm Rasperia Trading was being investigated with findings thus far of criminal money laundering.

Meetings at the instruction of Robert Mueller took place in Vienna, Austria where Strabag is located; Paris, France and Budapest, Hungary in addition to Washington DC.

Deripaska, Mueller, Rosenstein, McCabe and Pistole are witnesses concerning a number of Russia matters that include events that impact our National Security, and a statement by Deripaska that exonerates President Trump but was not reported, and the alleged Paul Manafort transactions.

Deripaska should be a major witness concerning the Manafort charges but Robert Mueller purposefully left him out.

This selective evidence gathering INSTEAD OF GATHERING ALL EVIDENCE is against FBI procedures and the most basic of evidence gathering fundamentals.

Suppression of evidence to protect FBI Officials who would be embarrassed or implicated is Obstruction of Justice and a crime.

Accepting any voluntary services from Deripaska whereby FBI would have to use U.S. Government funds to travel to meetings is unlawful.

Evidence is supposed to be available about Russian officials who had communicated with Uranium One Chairman and various parties about paying Bill Clinton and Hillary Clinton.
