Accepts credit cards

CORE COMPETENCIES:

From our beginning 45 years ago, we have been a distributor of industrial supplies, with our specialty being quality fasteners, PVF and MRO products in a wide variety of sizes, materials, and specifications. Continued growth in our product line has enabled us to serve a full spectrum of customers from original equipment manufacturers (OEM) and their suppliers, both large and small, to government agencies. We have established a reputation for our ability to provide rapid response to orders, regardless of quantity, with the highest quality parts at competitive prices.

As a second generation veteran owned small business, we are particularly proud of our service to the defense industry from prime contractors to R&D centers. We guarantee that our products

meet the military's specifications and contractual requirements. Unlike some competitors, we specifically assure no counterfeit or prohibited parts are delivered.

Today, we also offer inventory management services tailored to each customer's unique requirements whether that be high throughput production lines or prototype assembly in research and development centers. For example, past work with the Department of Defense required supplying fasteners for a prototype vehicle for the Army's Product Manager Bridging System at Detroit Arsenal, Michigan, and Rock Island Arsenal, Illinois.

DIFFERENTIATORS:

As a smaller company than many of our competitors (approximately 65 employees spread across four locations in two states), we are able to react and service our customers much quicker and more cost effectively. Our business is built on a foundation of unparalleled customer service with unsurpassed quality products while still providing competitively priced products.

We guarantee quality and on time delivery. We have no minimum orders. And we uniformly offer some of best pricing in the industry.

Equally importantly, throughout our history, we have defined success to mean exceeding expectations. Suburban Bolt stands out from other industrial suppliers because we have an unwavering promise to meet every customer's needs . . . whatever it takes. We would not be able to consistently deliver on that promise if we didn't have a clear focus on our core values and our commitment to flawless customer service by every member of the Suburban Bolt team of professionals dating back to our 1971 founding by Jerry Kelley and Carl "Pete" Peterson.
