

## CAD Services

At Seifert Technologies, Inc., we stay up-to-date on the latest CAD software available. With over 35 CAD terminals and hundreds of customers, we continually learn and develop new CAD routines.

Seifert's core capabilities include 3D part modeling and detailing, part family creation, file translation, parametric design, automated tooling generation, plant layouts, reverse engineering, and product development.

Seifert can also customize your CAD environment to maximize your design efficiency. We can give you streamlined toolbars and a customized user interface, tailoring software to incorporate your specific CAD standards.

## Comprehensive CAD Services

### CAD Packages Include:

- SolidWorks Professional
- Autodesk Inventor Product Design & Manufacturing Collection
- AutoCAD Mechanical
- AutoCAD Electrical
- PTC Creo Parametric
- SIEMENS NX

### CAD Design/Detailing:

- 3D Modeling
- File Conversion
- CAD Programming/Customization
- Vault Setup and Customization
- Rendering and Animation Services
- Plotting Services
- PLM and PDM
- Parts Catalogs
- Manufacturing Processes
- Product Design
- Drafting Services
