Premium Home Scallop Siding

From the first glance, Preservation Scallops exude a welcoming ambiance. The neatly sculpted rows, pristine appearance, and deep shadow lines call to mind the captivating appeal of a freshly painted coastal cottage. **Contact us** today to discuss adding premium home scallop sidings to your home!

Time-Honored Elegance

While our scallop siding stands tall on classic good looks, its strength and durability are equally impressive. Constructed of a high-performance polymer, each panel features an resilient 1/2" (nominal) projection height, integrated locking system and concealed side tabs for improved installation. An ample 6-1/4" exposure and natural cedargrain texture in a full array of rich colors masterfully replicate the distinctive beauty of handcrafted cedar half-rounds.

And you can say goodbye to time-consuming upkeep. Scallop siding never needs to be painted, and won't crack, warp, rot or split like painted wood products. Just rinse occasionally with a garden hose to keep the appearance fresh.

Lifetime Limited Transferable Warranty

Preservation Scallops Siding is backed by a Lifetime Limited, Transferable Warranty including fade protection. Please see printed warranty for complete details.
