

The lasting elegance of Pearls now in so many beautiful colors.

Florida Pearl and Petite Pearl Pool Finishes have the look and feel of smooth, luxurious natural stone. They are virtually indestructible, colorfast, slip-resistant, non-abrasive and they minimize stains, etching, blemishes, dirt, rain, and the effects of harsh chemicals – just about any challenge you or nature throw their way. Additionally, these finishes can provide some solar heat retention, for added comfort.

Florida Pearl and Petite Pearl finishes use genuine select pebbles to create a state-of-the-art aggregate pool finish of the highest quality. We offer an unparalleled support system with twenty-five years of experience, as well as an exceptional five-year warranty. With Florida Pearl and Petite Pearl Pool Finishes, your pool will retain its beauty, color, luster and finish for years to come.

No other aggregate pool finish is more beautiful or longer lasting.
