We develop and manufacture carbon fibre textiles, and supply into the advanced materials sector. Our products are used across a variety of industries such as Automotive, Aerospace Marine and Wind Energy.

Overview:
Day to day, you will be responsible for the smooth operation of the machine, ensuring that the correct materials are identified for production and that the product being manufactured meets specific criteria determined by our customers. At Sigmatex, health and safety are paramount to all our operations – you will be responsible for the safety of yourself and others working in and around the immediate area.

This is a full time, permanent role. Successful applicants will be required to work a three-shift rotating pattern; 10pm – 6am, 6am – 2pm, 2pm – 10pm Monday to Friday.

Key Tasks/Responsibilities:
- Operate machinery in a safe and efficient manner
- Identify correct materials to be used inline with job specifications
- Ensure customer/product specification is being followed for any textile produced
- Accurately record production information such as materials being used, quality errors and production output figures
- Transport completed product to Warehouse/Inspection team
- Manage and maintain 5S Housekeeping standards in and around shopfloor environment
- Communicate any machine breakdown issues clearly and in a timely manager with Technicians, escalating to the Team Leader where necessary

About you:
- Keen eye for detail
- Team player
- Able to follow written work instructions
- High standard of general housekeeping
- Able to act quickly and escalate any production issues to line manager/technician
- Adhere to all health and safety guidelines and procedures

We offer:
Sigmatex offers a fast paced, dynamic work environment, with a focus on high performance. This is a challenging position with a high impact. This role is an exciting opportunity to start a journey with career development in a global organisation.
