

The image shows the interior of a modern elevator. The central feature is a large, rectangular glass door. The door is framed by a dark, metallic-looking material. On the left and right sides of the door frame, there are vertical decorative panels. These panels are dark and feature a series of white, circular, perforated patterns arranged in a grid. The ceiling of the elevator is also dark and features a grid of white, diamond-shaped perforations. The floor is a light-colored, polished material. The word "LUXOR" is printed in large, white, sans-serif capital letters across the center of the glass door. The overall design is sleek and modern.

LUXOR

“Lussuosa semplicità, moderna tecnologia, tradizione nella qualità”

Luxor nella sua essenziale eleganza svela il segreto di una bellezza tecnologica, moderna.

Apparentemente gelida nella perfezione stilistica, ma rassicurante nella solidità degli acciai inox selezionati, questa linea offre spunti di notevole interesse.

La serie Luxor si impreziosisce ulteriormente con la LINEA LUXOR PLUS, che utilizza acciai antigraffio di primissima qualità, lavorati con una finitura in rilievo di sicuro effetto visivo, oltre a rappresentare un punto di riferimento in termini di resistenza e durata. Anche in questo caso, come per tutte le cabine realizzate da Raver, c'è un'ampia possibilità di personalizzare il prodotto finale, secondo le esigenze più varie.

“Luxorius simplicity, high technology, tradition in the quality”

The Luxor shows the secret of a modern and technologic beauty in its essential elegance.

Apparently icy in the perfection of the style but reassuring in the strength of the selected stainless steel this range offers point of great interest.

Furthermore the Luxor range becomes more precious with the LUXOR PLUS, which uses highest quality no-scratch steel, worked with embossed finishing of a strong visual impact and it represents a reference point in the resistance and duration too.

Also in this range like in all the other Raver cabins there is a good chance to personalize the final production, in accordance with the different requirements.

“Luxueuse simplicité, moderne technologie, tradition dans la qualité”

Luxor en son essentielle élégance révèle le secret de la beauté et de la technologie moderne

Apparemment froid, dans une perfectionne stylistique, mais rassurante avec la solidité des acciers inoxydables sélectionnés, cette ligne offre signaux d'un intérêt considérable. La série Luxor est agrémenté plus loin avec la ligne Luxor plus, qui utilise des acciers résistant aux rayures de la plus grande qualité avec une finition usinée gaufrée très efficace visuellement, en représentant aussi un point de repère en termes de résistance et de durabilité.

Egalement dans ce cas, comme pour toutes les cabines réalisées par RAVÉR, il ya une grande possibilité de personnalisation du produit final, selon les plus variées exigences
