

We are excited and proud to introduce the "e-City", our state-of-the-art electric scooter, with 5-years warranty as approved by PiMG of the UK's Ministry of Transport.

"The Era of Electric mobility is here."

Welcome to ZRide

ZRide Ltd was founded with an ambitious spirit and a focused objective to offer high quality electric scooters at a cost-effective level while leading the way for a greener climate and better urban air quality, as zealously pushed by Sadiq Khan, the Mayor of London.

This is what our founder had to say:

"I started the company when I noticed my 3-year old son had developed a horrible cough with signs of asthma at an early age due to the high level of pollution in our home city of London."

Air pollution is now a real problem in all of our urban areas, and ZRide is determined to tackle this issue by selling very high quality electric scooters to help London and all cities to have cleaner air, both now and in the future."

Charge your e-City scooter anywhere!

The e-city has a **removable** rechargeable Lithium Battery that can be charged on any British power socket.

Low-emission Vehicle Approval

We are proud to report that our e-City scooter has been approved by OLEV (Office for Low Emission Vehicles) with a **PiMG grant plan of 20% discount** and will be published on the Ministry of Transport website:

<https://www.gov.uk/plug-in-car-van-grants>

We will simply pass on this **20% discount** to all our e-City users right from the start.

*"We are leading the way
for a greener climate and
better urban air quality."*

We're on the Web!

Trade Fairs and Events

In February this year we launched the e-City at the ExCel London Trade Fair Exhibition where we met some great people and had really positive feedback. Look out for us at future trade shows and events and give us the pleasure of welcoming you.

Test ride one of our fantastic scooters!

OUR VISION

- Reduce congestion
- Improve urban air quality
- Reduce noise
- Support zero emissions

We'd love you to try our latest e-scooters to test their performance and get a touch of how they feel before you decide to buy one. To book a test ride, get in touch with our team in London today, or visit <http://www.zride.co.uk/test-ride>. We cater for customers across all of the UK.

Contact us on:

0800 228 9996 or
07713 533 322 or
Email: info@zride.co.uk

★Special Offer★

For a limited period only, ZRide is offering a further 10% discount on all models after a test ride.
