card instructions

- 1 Open the exclusive Week 2 electronic die cutting file. Die cut the following pieces:
 - Card base from white cardstock
 - Large beard piece from white cardstock
 - Small beard piece from white cardstock
 - Double scallop strip from white cardstock
 - Medium beard piece from glitter cardstock
 - Buckle from dark grey cardstock
 - Two belt pieces from black cardstock
 - Left flap cover from Oh Deer red snowflake
- 2 With the buckle hole on the left side, score at 2.75 on the white card base. Fold at the score towards the right side to form a card base.
- 3 Adhere the red snowflake flap cover to the front flap, aligning it with all edges and the buckle opening.
- 4 Adhere the double scallop white strip to the right side of the front flap, aligning it with the scallop edge and the buckle opening.
- 5 Cover the grey buckle piece with adhesive. Sprinkle it with silver glitter and shake off the excess. If using wet adhesive, set it aside to dry.
- 6 Glue the glittered buckle to the black left buckle piece so that the short, right edge of the black strip lines up with the center of the buckle (fig A).
- 7 Adhere the assembled buckle piece to the left flap, 7/8" up from the bottom edge and aligned with the left edge fold.
- 8 Open the flap of the card and lay it flat.
- 9 With the rounded corners on the left, score and fold the right buckle piece 1/2" in from the right edge. Fold the 1/2" section under and crease firmly.
- 10 Trim a 2.25"x5.5" piece of Oh Deer red snowflake paper. Adhere the 1/2" folded section of the buckle piece to the right back side of the red snowflake strip, 7/8" up from the bottom edge (fig B).
- 11 Fold the left flap closed, sliding the right buckle strip behind the glitter buckle and into the slot.
- 12 Emboss the small beard piece with a snowflake pattern, or pattern of your choice.
- 13 Layer and adhere the three beard pieces together, aligning them along the top, straight edge.

- 14 Apply adhesive to the back, left side of the assembled beard pieces. Adhere it to the front of the card, aligned with the top edge. Press firmly on the adhesive to secure.

cutting files

NOTE: cutting files are provided in .silhouette, .svg, .png and .dxf formats and work with most leading electronic die cutters (Silhouette, Boss Kut, Cricuit Explorer, Pazzle, etc.) that can open and read these file formats. If you do not have an electronic die cutter, you can print this page and hand-cut the shapes with a craft knife or small scissors.
