### basic tools

*Favorite adhesive*

*Dimensional Adhesive*

*Mini Glue Dots*

*Paper trimmer*

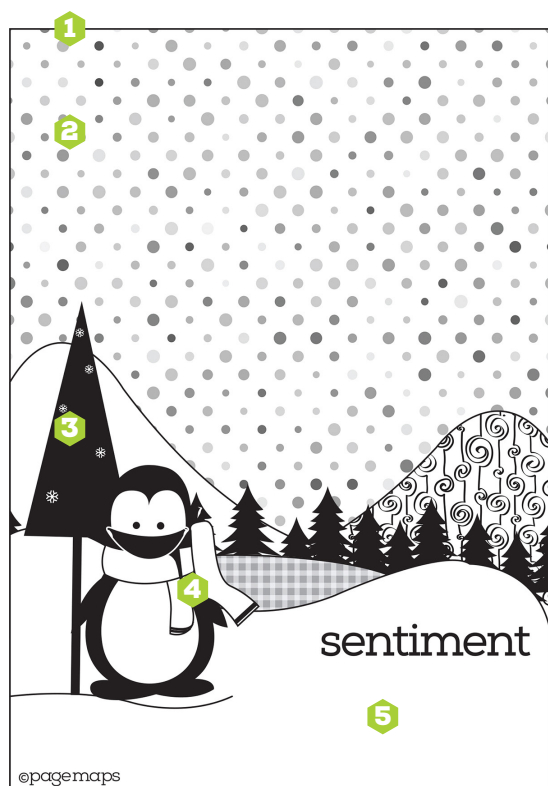

*Fine-tipped scissors*

*Pencil, Ruler*

### card dimensions

3.5" wide x 7" tall, tri-folded

## trimming dimensions

- 1 5" x 7" (base size of card)
- 2 5" x 4.75"
- 3 1" x 3.5"
- 4 1.75" x 2"
- 5 5" x 2.5"

## card instructions

- 1 Open the exclusive electronic cutting file (wk4/#1). Die cut the scalloped foundation from white cardstock. Referring to the image on page 4, score where indicated by the dashed line (at 3.5" and 7"). Accordion-fold on the score marks.
- 2 Die cut each of the panel pieces as follows:
  - front panel, cut from floral paper
  - middle outside panel, cut from red dot paper
  - back inside panel, cut one from floral paper
- 3 Trim a 3.25"x3.75" piece of red dot paper.
- 4 Adhere the front panel piece to the front of the tri-folded card, centering it on all four sides. Open the card and turn it over to the back.
- 5 Adhere the back middle piece to the center panel, centering it all all four sides. Turn the card over to the inside.
- 6 Apply adhesive to the left, right and bottom edges of the 3.25"x3.75" piece of red dot paper. Adhere it to the inside center panel, flush with the bottom edge, to form a pocket for your gift card or cash.
- 7 Adhere the back (tall) piece to the third panel, centering it on all four sides.
- 8 Trim a 5"x1" piece of red cardstock. Referring to the photo for placement, adhere it to the front panel of the card at the same angle as the top edge of the die cut piece.
- 9 Add a sentiment of your choice to the red cardstock strip.
- 10 Referring to the photo, adhere die cut flowers to the front and center panels using dimensional adhesive.
- 11 Attach sequins as desired using glue dots.

NOTE: exclusive cutting files are provided in .silhouette, .svg, .pdf and .dxf formats, and work with many leading electronic die cutters such as Silhouette, Boss Kut, Scan 'N Cut, Cricuit Explorer and Pazzle. If you do not have an electronic die cutter, you can print this pdf and hand-cut the shapes with a craft knife or small scissors (see note below).

NOTE: When you print these templates, it is important to tell your printer to print at 100% scale. Depending on your printer, this selection may say "Print To Scale," "Do Not Scale" or "Scale 100%." If you do not make this selection in advance of printing, the pdf template will print approximately 3%-5% smaller.
